Protestant History And Identity In Sixteenthcentury Europe:

Protestant History and Identity in Sixteenth-century Europe: The later Reformation Bruce Gordon,1996 St Andrews studies in reformation history **Protestant History and Identity in Sixteenth-century Europe** Bruce Gordon,1996 St Andrews studies in reformation history *Protestant History and Identity in Sixteenth-century Europe: The later Reformation* Bruce Gordon,1996 **Protestant History and Identity in Sixteenth-century Europe** Bruce Gordon,1996 The reforming movements of the 16th century were constantly being attacked by Rome for breaking the unity of the Apostolic Church To counter these accusations the reformers turned to questions of tradition history and identity in order to define and express the religious political and social ideals of their movement Though this debate was carried on with great vigour and spawned an enormous corpus of literature a unifying concept of Protestant identity proved elusive the process produced only divergent theological conclusions and conflicting social and political goals **Protestant History and Identity in Sixteenth-century Europe: The medieval inheritance** Bruce Gordon,1996 Monstrous Births and Visual Culture in Sixteenth-Century Germany Jennifer Spinks,2015-10-06 Presents an examination of printed representations of monstrous births in German speaking Europe from the end of the fifteenth century and through the sixteenth century beginning with a seminal series of broadsheets from the late 1490s by humanist Sebastian Brant and including prints by Albrecht Durer and Hans Burgkmair *Johann Sleidan and the Protestant Vision of History* Alexandra Kess,2008 Johann Sleidan 1506 1556 was the author of the first great history of the Protestant movement and did much to influence how it was perceived by both Catholics and Protestants In this new study his life and works are comprehensively analysed for the first time exploring his roles as both diplomat and historian In so doing much is revealed about how many moderate statesmen and scholars sought to bridge the growing confessional divide and promote coexistence and how Protestantism began to search for and manufacture its own history independent of that espoused by the Catholic Church Following these twin themes this book offers a fascinating and timely look at an influential figure of the Reformation **Luther's Lectures on Genesis and the Formation of Evangelical Identity** John A. Maxfield,2008-10-01 Martin Luther's lectures on Genesis delivered at the University of Wittenberg during the last decade of his life and later published by his students allow modern readers to view a sixteenth century professor engaging his students with the text of scripture and using that text to form them spiritually The lectures show how Luther attempted to form in his students a new identity an Evangelical identity enabling them to make sense of the rapidly changing society and church in which they were being prepared to serve primarily as pastors in the developing territorial churches of the Reformation This study uses the text of the lectures to outline the contours of the new identity that Luther laid out through his exposition of Genesis They include how Luther approached and taught his students to perceive the text of holy scripture how that text unveiled for Luther the nature of Christian life in the world and how Luther taught his students to view the past the present and the future of the church and

the world through the book of Genesis Whether in the published editions of the lectures the historic Luther was actually misunderstood or was transformed in some way into the prophetic Luther of later memory the text reveals the Luther that his students heard and subsequent generations read

Protestant Nations Redefined Pasi Ihalainen, 2005 This study in comparative conceptual history reveals how the concepts of nation and fatherland were redefined within public religion in eighteenth century England the Netherlands and Sweden leading to more positive and inclusive conceptions of nationhood and the gradual reconfiguration of national identities in more secular terms

The Oxford Handbook of Calvin and Calvinism Bruce Gordon, Carl R. Trueman, 2021-07-28 The Oxford Handbook of Calvin and Calvinism offers a comprehensive assessment of John Calvin and the tradition of Calvinism as it evolved from the sixteenth century to today Featuring contributions from scholars who present the latest research on a pluriform religious movement that became a global faith The volume focuses on key aspects of Calvin's thought and its diverse reception in Europe the transatlantic world Africa South America and Asia Calvin's theology was from the beginning open to a wide range of interpretations and was never a static body of ideas and practices Over the course of his life his thought evolved and deepened while retaining unresolved tensions and questions that created a legacy that was constantly evolving in different cultural contexts Calvinism itself is an elusive term bringing together Christian communities that claim a shared heritage but often possess radically distinct characters The Handbook reveals fascinating patterns of continuity and change to demonstrate how the movement claimed the name of the Genevan reformer but was moulded by an extraordinary range of religious intellectual and historical influences from the Enlightenment and Darwinism to indigenous African beliefs and postmodernism In its global contexts Calvinism has been continuously reimagined and reinterpreted This collection throws new light on the highly dynamic and fluid nature of a deeply influential form of Christianity

Were We Ever Protestants? Sivert Angel, Hallgeir Elstad, Eivor Andersen Oftestad, 2019-09-23 This anthology discusses different aspects of Protestantism past and present Professor Tarald Rasmussen has written both on medieval and modern theologians but his primary interest has remained the reformation and 16th century church history In stead of a traditional Festschrift honouring the different fields of research he has contributed to this will be a focused anthology treating a specific theme related to Rasmussen's research profile One of Professor Rasmussen's most recent publications a little popularized book in Norwegian titled What is Protestantism reveals a central aspect research interest namely the Weberian interest for Protestantism's cultural significance Despite difficulties he finds the concept useful as a Weberian Idealtypus enabling research on a phenomenon combining theological historical and sociological dimensions Thus he employs the Protestantism as an integrative concept to trace the makeup of today's secular societies This profiled approach is a point of departure for this anthology discussing important aspects of historiography in reformation history Continuity and breaks surrounding the reformation contemporary significance of reformation history research traces of the reformation in today's society The book relates to current discussions on Protestantism and is relevant

to everyone who want to keep up to date with the latest research in the field Protestantism, Poetry and Protest S.K. Barker, 2016-04-15 Antoine de Chandieu 1534-1591 was a key figure in the establishment and development of the French Protestant Church. Of all its indigenous leaders he was perhaps closest to Calvin and took a leading role in all the major debates about resistance, church order and doctrine of the Church. He was also a prodigious writer of political, religious and poetical works whose output corresponds to a period of great turmoil in the progress of the French Church. Chandieu was uniquely placed not merely to engage and contribute to the great debates of the day but also to record ongoing events. By illuminating his career which meshed almost exactly with the French Wars of Religion, this book not only demonstrates the key role Chandieu played in the development of French Protestantism but also highlights the vital role of literature in shaping the religious experience of the wars. Offering the first systematic evaluation of Chandieu's vernacular works, this study questions many of the assumptions made about his motivations and aims and how these developed over a thirty-year period. His writings were contemporaneous with progress in the worlds of politics, theology and poetry, worlds in which he played a notable if not well-documented role. As a corpus, these works show the development of one man's understanding of his ideology over a lifetime actively spent in the pursuit of making that ideology a reality. Chandieu, the young political hothead, became Chandieu, the defender of Calvinist theology, who in turn matured into Chandieu, the elder statesman. The interest lies in where these changes occurred, how they were reflected in Chandieu's writing and what they demonstrate about being Calvinist and a representative of one's faith in a time of disorder. As such, this book provides not only a reappraisal of the man and his publications but presents an intriguing perspective on the development of French Protestantism during this turbulent time The National Covenant in Scotland, 1638-1689 Chris R. Langley, 2020 This edited collection assesses how people interacted with the National Covenant's famously ambiguous text, the political and religious changes that it provoked and the legacy that it left behind *The Jews and the Reformation* Kenneth Austin, 2020-06-11 Judaism has always been of great significance to Christianity but this relationship has also been marked by complexity and ambivalence. The emergence of new Protestant confessions in the Reformation had significant consequences for how Jews were viewed and treated. In this wide-ranging account, Kenneth Austin examines Christian attitudes toward Jews, the Hebrew language and Jewish learning, arguing that they have much to tell us about the Reformation and its priorities and have important implications for how we think about religious pluralism today **Tudor Histories of the English Reformation, 1530-83** Thomas Betteridge, 2016-12-05 This book examines the Tudor histories of the English Reformation written in the period 1530-83. All the reforming mid-Tudor regimes used historical discourses to support the religious changes they introduced. Indeed, the English Reformation as a historical event was written and rewritten by Henrician, Edwardian, Marian and Elizabethan historians to provide legitimation for the religious policies of the government of the day. Starting with John Bale's *King Johan*, this book examines these histories of the English Reformation. It addresses the issues

behind Bale's editions of the Examinations of Anne Askewe discusses in detail the almost wholly neglected history writing of Mary Tudor's reign and concludes with a discussion of John Foxe's Acts and Monuments In the process of working chronologically through the Reformation historiography of the period 1530-1583 this book explores the ideological conflicts that mid Tudor historians of the English Reformation addressed and the differences but also the similarities often cutting across doctrinal differences that existed between their texts

From Wittenberg to the World Charles Arand, Erik H. Herrmann, Daniel L. Mattson, Christopher B. Brown, Günter Frank, Bruce Gordon, Barbara Mahlmann-Bauer, Tarald Rasmussen, Violet Soen, Zsombor Tóth, Günther Wassilowsky, Siegrid Westphal, 2018-05-14 The book honours the Rev Dr Robert A Kolb retired Director of the Institute for Mission Studies and Missions Professor in systematic theology at Concordia Seminary St Louis and perhaps the leading authority on the development of Wittenberg Theology in the English speaking world At the same time his teaching and writing which continues without flagging has emphasized the importance of translating and retranslating the historic Lutheran faith in terms that address contemporary issues and contemporary people In this volume colleagues and co workers address and push forward Kolb insights into the history of the Reformation era and on the impact of those Reformation issues and quarrels on the life of the church in the world today With contributions by Charles Arand Lubomir Batka Amy Nelson Burnett Irene Dingel Mary Jane Haemig Scott Hendrix Erik Herrmann Werner Klön David Lumppp Mark Mattes Daniel Mattson Richard Muller Paul Robinson Robert Rosin and Timothy Wengert

James Ussher and John Bramhall Jack Cunningham, 2017-11-30 This book examines the lives of two leading Irish ecclesiastics James Ussher 1581-1656 and John Bramhall 1594-1663 Both men were key players in the religious struggles that shook the British Isles during the first half of the seventeenth century and their lives and works provide important insights into the ecclesiastical history of early modern Europe As well as charting the careers of Ussher and Bramhall this study introduces an original and revealing method for examining post Reformation religion Arguing that the Reformation was stimulated by religious impulses that pre-date Christianity it introduces a biblical concept of Justice and Numinous motifs to provide a unique perspective on ecclesiastical development Put simply these motifs represent on the one hand the fear of God's judgement and on the other the sacred conception of the fear of God These subtle understandings that co-existed in the Catholic church were split apart at the Reformation and proved to be separate poles around which different interpretations of Protestantism gathered By applying these looser concepts to Ussher and Bramhall rather than rigid labels such as Arminian Laudian or Calvinist a more subtle understanding of their careers is possible and provides an altogether more satisfactory method of denominational categorisation than the ones presently employed not just for the British churches but for the history of the Reformation as a whole

The Primacy of the Postils John M. Frymire, 2009-12-23 Scholarship on the German Reformation has long equated preaching with Protestantism just as many scholars have employed sermons but usually in supplemental and unsystematic ways Based on an analysis of over 400 standard sermon collections postils

produced by Catholics Lutherans and Calvinists 1520 1620 this study offers the first comprehensive systematic presentation of these works from a cross confessional perspective It lays to rest the notion that preaching was somehow distinctively Protestant while tracing the creation production use and censorship of postils These sermon collections were nothing less than the applied distillation of Christianity delivered on a regular basis by the clergy to the laity and as such the most important vehicle for the dissemination of ideas in early modern Germany Thomas Fuller W. B. Patterson, 2018-02-02 Long considered a highly distinctive English writer Thomas Fuller 1608 1661 has not been treated as the significant historian he was Fuller's *The Church History of Britain* 1655 was the first comprehensive history of Christianity from antiquity to the upheavals of the Protestant and Catholic Reformations and the tumultuous events of the English civil wars His numerous publications outside the genre of history sermons meditations pamphlets on current thought and events reflected and helped to shape public opinion during the revolutionary era in which he lived Thomas Fuller *Discovering England's Religious Past* highlights the fact that Fuller was a major contributor to the flowering of historical writing in early modern England W B Patterson provides both a biography of Thomas Fuller's life and career in the midst of the most wrenching changes his country had ever experienced and a critical account of the origins growth and achievements of a new kind of history in England a process to which he made a significant and original contribution The volume begins with a substantial introduction dealing with memory uses of the past and the new history of England in the late sixteenth and early seventeenth centuries Fuller was moved by the changes in Church and state that came during the civil wars that led to the trial and execution of King Charles I and to the Interregnum that followed He sought to revive the memory of the English past recalling the successes and failures of both distant and recent events The book illuminates Fuller's focus on history as a means of understanding the present as well as the past and on religion and its important place in English culture and society

Remembering the Reformation Alexandra Walsham, Brian Cummings, Ceri Law, Karis Riley, 2020-06-04 This stimulating volume explores how the memory of the Reformation has been remembered forgotten contested and reinvented between the sixteenth and twenty first centuries *Remembering the Reformation* traces how a complex protracted and unpredictable process came to be perceived recorded and commemorated as a transformative event Exploring both local and global patterns of memory the contributors examine the ways in which the Reformation embedded itself in the historical imagination and analyse the enduring unstable and divided legacies that it engendered The book also underlines how modern scholarship is indebted to processes of memory making initiated in the early modern period and challenges the conventional models of periodisation that the Reformation itself helped to create This collection of essays offers an expansive examination and theoretically engaged discussion of concepts and practices of memory and Reformation This volume is ideal for upper level undergraduates and postgraduates studying the Reformation Early Modern Religious History Early Modern European History and Early Modern Literature
