Handbook of Gynecology Donna Shoupe, 2023-12-01 This book is a comprehensive up to date reference on general and subspecialty gynecology. Covering all aspects of gynecology commonly encountered in day to day practice, this exhaustive and fully updated new edition provides a practical one stop reference work for clinicians working in the field. This carefully designed volume includes ten sections beginning with comprehensive coverage of office based gynecology and continuing on to present disease processes and management information by patient age group. Each chapter includes background information, current recommendations for screening, diagnostic criteria, common and uncommon associated problems, approach to diagnosis, summary of treatment options, and an overview of ICD 10 codes for specific diagnoses. Importantly, many areas that are covered in the handbook as subspecialty problems are pertinent and important information to many of the general practitioners who handle and develop some expertise in these areas. These include ovulation induction, medical management of incontinence, management of abnormal Pap smears, and work up of abnormal bleeding. The handbook concludes with an easy to navigate presentation of minimally invasive operations, surgical procedures, neoplasms, and pathology. Advantages and risks associated with management of particular diseases are covered along with multiple tips for avoiding complications. This second edition is fully updated. With extensive updates on cervical cancer screening, pelvic organ prolapse, and more, many chapters will be completely rewritten to reflect the latest guidelines, procedures, and methods of care in women's health. The text additionally includes two new chapters covering the impact of COVID on gynecology care and the work up and surgical management of chronic pelvic pain. This is an ideal guide for practicing gynecologists, family and internal medicine physicians, physician assistants, nurse practitioners, fellows, residents, medical students, and all women's health care providers.
