Las Provincias y su literatura Pampa Olga Arán de Meriles,1985 *Provincias Un-Idas* Laura Demaría,2025-05-21

Esa cosa que las filosofías de la historia argentina llaman El Interior y que ellas se representan como una especie de ente global amorfo oscuro opuesto al otro ente claro formal y específico Buenos Aires en cierta consabida dialéctica de la existencia nacional Si se cambiara interior por provincia la frase de Bernardo Canal Feijóo en De la estructura mediterránea argentina 1948 podría perfectamente servir de epígrafe a este libro de Laura Demaría De hecho ella misma dedica un capítulo iluminador a Canal en su libro anterior Buenos Aires y las provincias 2014 Pero si en ese libro se ocupaba de desarmar esa consabida dialéctica la propuesta de Provincias Unidas es centrarse ahora en el polo de lo provincial para desmontarlo y reconfigurarlo en los mil planos de creación artística e intelectual que presentan una nueva geografía de la cultura no solo para Argentina sino con incursiones decisivas por Chile y Colombia Edward Shils mostró hace tiempo la lógica implacable con que la dinámica metropolitana provincia diseña el mapa intelectual Desde la provincia esa dinámica suele ser respondida con dos actitudes abroquelarse en la lealtad localista a una tradición o ejercer la ventaja periférica de apropiarse de todas las tradiciones la conocida jugada de Borges que demuestra de paso que con el mapa en otra escala Buenos Aires también es una provincia Apoyándose en ejemplos contemporáneos del arte y la literatura que dan por superado todo estereotipo regionalista Laura Demaría propone una respuesta diferente y original un programa rico de desestructuración general del lugar asignado a la provincia reemplazado en plural por lugares asíméticos heterogéneos múltiples al punto de incluir tipográficamente el quiebre en el guión del título Se puede pensar que aquella dinámica implacable no se desvanece por un acto de voluntadérica pero eso solo califica el desafío que este libro encara con una confianza contagiosa

Constructing Languages Francesc Feliu, Josep Maria Nadal, 2016-08-25 As language historians we believe that the subject of our study is neither natural languages nor idiolects which speakers have always been able to develop individually loosely what Chomsky calls *L_i* but rather the social constructions of reference shared by all speakers basically what Chomsky terms as *L_e* In this context the language historian essentially studies how a public *L_e* is built such that it can be understood as the language of all *i* *e* hiding *L_i* variations and also how *L_e* succeed in replacing the primary reality of idiolects even if only in the imagination Writing represents a crucial turning point in language construction because it made it possible to materialize the abstraction that until then related speakers could only guess and besides it comes into competition with individual languages In modern centuries the provision of grammars dictionaries and other such learning tools and systematizing instruments strengthens the idea that because of their normative character languages can be learned through study Mythical stories encourage the achievement of prescriptive rules and lead speakers to link emotions to their language Therefore the topics of reflection that we want to discuss in this volume are Norms Myths and Emotions related to language construction

Este libro pertenece al campo de la historia de la educación pero conocidas las tradicionales deficiencias que en Colombia muestra ese sector del análisis histórico habrá que advertirle al lector que se trata de algo que va mucho más allá y en otras direcciones de lo que habitualmente se nos ofrece bajo ese rubro. Y ello porque el objeto analizado definido de una manera flexible como lo indica el propio subtítulo se encuentra en el cruce de varios elementos que no son sencillamente educativos. Por una parte la presencia determinante de la política en una sociedad posrevolucionaria 1821-1886 y por otra el mundo de los letrados en sus distintas jerarquías y la cultura intelectual de una época analizada en una de sus mayores dimensiones es decir como cultura escolar observada en su manera particular de hacerse cultura de la sociedad a partir de los bancos escolares. Estamos sin lugar a dudas frente a un buen libro de análisis histórico y es de esperar que en el futuro obras de similar naturaleza sigan apareciendo y sirvan para animar los debates sobre la historia de Colombia por fuera de cualquier espacio de partido y sin las presiones desmedidas que la política del día impone al análisis histórico hoy en Colombia.
