## **Proyector De Luna:**

Lorca's Experimental Theater Andrew A. Anderson, 2024-11-25 Critical and historical discussions of the life and work of Federico García Lorca often prioritize his stunning modernist poetry and popular dramas while obscuring the author's more avant garde dramatic works. In Lorca's Experimental Theater: Breaking the Guardrails of Convention, Andrew A. Anderson focuses on four of Lorca's most challenging plays: *Amor de don Perlimplín con Belisa en su jardín El público As que pasen cinco a os* and *El sueño de la vida*, previously known as *Comedia sin título*, and on the surrounding context in which they came to be written and in only one case performed during his lifetime. While none of Lorca's plays can be considered conventional according to Anderson, some of them are nevertheless more approachable than others. The four considered here are the works that challenge theatrical conventions most forcefully both thematically and technically. The introduction offers a brief overview of Lorca's entire dramatic output and the place within it of his four most experimental plays. The first chapter, "Staging the Unstageable," gives details concerning the chronology of the plays' composition, what Lorca had to say about them in newspaper interviews, and most importantly his numerous attempts to get what he called his unperformable plays actually performed. After a chapter on the pervasive role of undecidability in *Amor de don Perlimplín*, two further contextual chapters cover what Anderson considers the most significant factors that encouraged Lorca to continue experimenting in his dramatical works, namely his exposure to theater in New York over 1929–1930 and his increasing familiarity with expressionist drama that he both read and heard about from other theater professionals. From there, *El público* and *As que pasen cinco a os* each receive two chapters devoted to their themes and symbols, and the book ends with a final chapter on how audiences could experience a staging of *El sueño de la vida*. By synthesizing materials drawn from theatrical practice, artistic modernism, and the historical avant garde, Lorca's Experimental Theater gives an integrated picture of this corpus by providing detailed readings of the plays surveying their textual and performative history and examining the most important contemporary influences on Lorca's creation of these expressive innovative works.

**Ingeniería**, 1925    Luis Buñuel  
Román Gubern, Paul Hammond, 2012-01-04 The turbulent years of the 1930s were of profound importance in the life of Spanish film director Luis Buñuel (1900–1983). He joined the Surrealist movement in 1929 but by 1932 had renounced it and embraced Communism. During the Spanish Civil War (1936–39) he played an integral role in disseminating film propaganda in Paris for the Spanish Republican cause. Luis Buñuel: The Red Years (1929–1939) investigates Buñuel's commitment to making the politicized documentary *Land without Bread* (1933) and his key role as an executive producer at Film fono in Madrid where he was responsible in 1935–36 for making four commercial features that prefigure his work in Mexico after 1946. As for the republics of France and Spain between which Buñuel shuttled during the 1930s, these became equally embattled as left and right totalitarianisms fought to wrest political power away from a debilitated capitalism. Where it exists, the literature on this crucial decade of the film director's life is scant and relies on Buñuel's own self-interested accounts of that complex period.

Román Gubern and Paul Hammond have undertaken extensive archival research in Europe and the United States and evaluated Buñuel's accounts and those of historians and film writers to achieve a portrait of Buñuel's Red Years that abounds in new information     ***Ramón Gómez de la Serna*** Ricardo Fernández Romero, 2023 A celebrity in his own day who gave lectures dressed as Napoleon or seated on the back of an elephant Ramón Gómez de la Serna is the most representative writer of the interwar Spanish avant garde This book explores Gómez de la Serna's art and his quest to break down the barriers between literature and life addressing two elements already present in his work of radical relevance in today's cultural debates the relation of the human being to the material world and the reduction of all experience to a singular individuality Bringing Gómez de la Serna to an Anglophone audience it reveals him to be the embodiment of a new kind of art on both sides of the Atlantic

***Spanish Cinema*** Rob Stone, 2014-10-13 From the surrealist films of Luis Buñuel to the colourful melodramas of Pedro Almodóvar Spain has produced a wealth of exciting and distinctive film makers who have consistently provided a condoning or dissenting eye on Spanish history and culture For modern cinema goers it has often been the sexually charged and colourful nature of many contemporary Spanish films which has made them popular worldwide and led directors and stars such as Almodóvar Banderas and Penélope Cruz to be welcomed by Hollywood Using original interview material with Spanish Cinema luminaries such as Carlos Saura Julio Medem Imanol Uribe and Elías Querejeta Rob Stone charts a history of Spanish Cinema throughout the turbulent Francoist years and beyond The book aims to provide a broad introduction to Spanish Cinema the nine chapters divided into four types chapters on Spanish Cinema during the Dictatorship and following the transition to democracy survey current debate and opinion while tracing the development of themes and film movements throughout those periods chapters on early Spanish cinema and Basque cinema present vital and fascinating aspects of Spanish cinema that have previously been ignored chapters on childhood in Spanish cinema and sex and the new star system offer new pathways into the study of Spanish cinema chapters on Carlos Saura Elías Querejeta and Julio Medem offer specific case studies of film makers who are emblematic of different periods in Spanish cinema and indeed Spanish history As with other titles in the Inside Film series the book is comprehensively illustrated with representative stills and has a thorough bibliography index and list of resources
