Psalms Of A Psychotherapist:

Psalms of a Psychotherapist Helen Bernadette Barshay, 1968 **Psalms and the Transformation of Stress** Dennis D. Sylva, 1993 Professor Sylva has written a major book in what Clifford Geertz terms blurred genres By that Geertz means a study that refuses to stay slotted in a specified scholarly discipline but reaches across such distinctions in order to face real and complex human issues As biblical scholarship moves out of its more positivistic modes it is able to make contact with human dimensions of the text that objectivist criticism had long precluded In this book Sylva with painstaking research and urbane articulation reflects upon how the Psalms touch fractured human conditions in healing ways This is no surface interpretation of scripture for the sake of an easy religious fix and it is no pop psychology because the author has thought with great steadfastness and is informed on both sides of the interface The power of his argument is in the detail of human stress and in the effective nuance of the poetry For his interface he employs the intriguing term theotherapy I have no doubt that this book will become a major resource for bringing back together text and human reality that our recent interpretative past has rent asunder Sylva invites us to a new conversation as we blur our safer points of reference Walter Brueggemann Professor of Old Testament Columbia Theological Seminary This book seeks to uncover the serious and deep ways in which the Psalms speak to the human situation Few works that I know of have sought to bring the Psalms to bear on the stresses and strains the functions and dysfunctions of the family as has been done here Professor Sylva endeavors to show how the Psalms create a fundamental trust in God a trust that moves out into all other relationships starting with the family This is something that happened to me as a child and that I came to realize only much later In this work The Psalms are clearly not simply a springboard to say some things about family therapy They are the heart of this book and it is only as they are heard in detail that one then moves or is carried by them into a more secure family relationship I hope very much that this work will enhance the reading and appropriation of the Psalms within the family as a source of family health and strength Patrick D Miller Professor of Old Testament Theology Princeton Theological Seminary Dana Sylva is Associate Professor of Biblical Studies at Saint Francis Seminary in Milwaukee Wisconsin He is the editor of *Reimagining the Death of the Lukan Jesus* 1990 and he has published articles on Old Testament and New Testament exegesis [Psalms, the Journey Begins](#) Mark Correll, 2006-11 [The Therapist's Notebook for Integrating Spirituality in Counseling II](#) Karen B. Jacob Boehme and the Spiritual Roots of Psychotherapy Glenn J. McCullough, 2025-04-14 Jacob Boehme 1574-1624 was a wildly creative mystical writer whose extraordinary revelations of God the soul and the universe have been consigned to obscurity In this original book Glenn J. McCullough argues that Boehme is the ultimate source of a key modern movement psychotherapy Bringing clarity to Boehme s revelations McCullough shows how he anticipates the pioneering concepts of Sigmund Freud and C. G. Jung including their ideas of the unconscious mind and its remarkable potentials At the centre of Boehme s thought is the figure of Sophia divine Wisdom and her seven drives which guide the soul on a journey of expanded awareness and rebirth While Boehme has been dismissed as an esoteric outsider McCullough situates him in the mainstream Western tradition of Augustine and Luther while highlighting his unique approach to the ecstatic dream world of Wisdom

A Christian Spirituality and Psychotherapy Richard H. York, 2009-06-01 This book describes a method of therapy based upon the Christian spirituality and psychotherapy perspective developed by Dr Richard York This clinical theology perspective is a phenomenological approach that integrates spiritual theological and psychological concepts and

was developed in large part through York's own experience of being relieved of depression and anxiety through interweaving of psychotherapy prayer and meditation spiritual direction and the relationship with his Indwelling Spirit Because human beings are the products of relationships York critiques approaches to psychology premised upon the subject object epistemology of empirical science that study human behavior He suggests instead that a relational ontology research method offers an approach superior to that of standard psychotherapy and uses experience in relationship as the fundamental concept in this clinical theology Because people are prone to hurt themselves and others York also argues that standard approaches to psychology need to develop a psychology of sin and evil including some form of a Higher Power as essential parts of the spiritual aspect of psychotherapy York critiques Christian theologians for developing theology that seldom uses empirical data and that is irrelevant to the process of helping people heal and grow He criticizes those pastoral ministers who moralize with people instead of listening to them as well as those who preach more about sin and suffering than God's presence and saving grace through the forgiveness of sins While he acknowledges that most of his perspective is not new York does offer a unique contribution to the field of psychotherapy through the concept of the Indwelling Spirit He describes how the Indwelling Spirit works in psychotherapy and the various techniques to access it He further argues that his experience as a gay psychologist is an essential aspect of his method because in being healed through his experience with his Indwelling Spirit he was able to define this experience for use in psychotherapy an insight used by very few straight therapists York challenges the notion of how a gay man who worships God regularly found healing through a relationship with Christ in the Holy Spirit of God and developed the concept of the Indwelling Spirit for psychotherapy could be considered objectively disordered and intrinsically evil by the Roman Catholic Magisterium Furthermore York describes a new principle of moral theology for sexual relationships based on love rather than procreation and suggests seven research hypotheses to study the phenomenon of the Indwelling Spirit and the love that is exhibited in both same sex and opposite sex relationships
