Lopez-Ibor,John Cox,Driss Moussaoui,2012-02-27 Religion and spirituality is very much alive and shapes the cultural values
and aspirations of psychiatrist and patient alike as does the choice of not identifying with a particular faith Patients bring
their beliefs and convictions into the doctor patient relationship The challenge for mental health professionals whatever their
own world view is to develop and refine their vocabularies such that they truly understand what is communicated to them by
their patients Religion and Psychiatry provides psychiatrists with a framework for this understanding and highlights the
importance of religion and spirituality in mental well being This book aims to inform and explain as well as to be thought
provoking and even controversial Patiently and thoroughly the authors consider why and how when and where religion and
spirituality are at stake in the life of psychiatric patients The interface between psychiatry and religion is explored at
different levels varying from daily clinical practice to conceptual fieldwork The book covers phenomenology epidemiology
research data explanatory models and theories It also reviews the development of DSM V and its awareness of the
importance of religion and spirituality in mental health What can religious traditions learn from each other to assist the
patient Religion and Psychiatry discusses this as well as the neurological basis of religious experiences It describes training
programmes that successfully incorporate aspects of religion and demonstrates how different religious and spiritual
traditions can be brought together to improve psychiatric training and daily practice Describes the relationship of the main
world religions with psychiatry Considers training policy and service delivery Provides powerful support for more effective
partnerships between psychiatry and religion in day to day clinical care This is the first time that so many psychiatrists
psychologists and theologians from all parts of the world and from so many different religious and spiritual backgrounds have
worked together to produce a book like this one In that sense it truly is a World Psychiatric Association publication Religion
and Psychiatry is recommended reading for residents in psychiatry postgraduates in theology psychology and psychology of
religion researchers in psychiatric epidemiology and trans cultural psychiatry as well as professionals in theology psychiatry
