

The background of the book cover is a surreal landscape painting. It features a dark, twisted tree trunk or root system emerging from a dark, rocky ground. A large, glowing green orb, resembling a planet or a large eye, is positioned above the tree trunk. The sky is a mix of green and blue hues, with soft, wispy clouds. The overall mood is mysterious and ethereal.

Psychic Autobiography 191:

A Psychic Autobiography Amanda Theodocia Jones, 1910 Invisible Hosts Elizabeth Schleber Lowry, 2017-08-07

Provides a rhetorical analysis of female spirit mediums autobiographies in the historical and social contexts of Victorian era America *Invisible Hosts* explores how the central tenets of Spiritualism influenced ways in which women conceived of their bodies and their civic responsibilities arguing that Spiritualist ideologies helped to lay the foundation for the social and political advances made by women in the late nineteenth and early twentieth centuries As public figures female spirit mediums of the Victorian era were often accused of unfeminine and therefore transgressive behavior A rhetorical analysis of nineteenth century spirit mediums autobiographies reveals how these women convinced readers of their authenticity both as respectable women and as psychics The author argues that these women s autobiographies reflect an attempt to emulate feminine virtues even as their interpretation and performance of these virtues helped to transform prevailing gender stereotypes She demonstrates that the social performance central to the production of women s autobiography is uniquely complicated by Spiritualist ideology Such complications reveal new information about how women represented themselves gained agency and renegotiated nineteenth century gender roles

The Druid of Harley Street E. Graham Howe, 2012-03-13 In early 20th century Britain interest in psychoanalysis was high leading to the formation of the famous Tavistock Clinic in 1920 E Graham Howe was one of the clinic s founders and the first to publish articles on psychotherapy At the same time he was attacked by the scientific psychiatry and psychoanalysis communities because he took concepts derived from spiritual practice and existential phenomenology and applied them to an understanding of psychotherapy Howe s writings included more than a dozen books and countless articles on a broad range of subjects from schizophrenia to Asian spiritual practices Through these works he exerted a profound influence on intellectuals such as R D Laing Alan Watts and Henry Miller to name a few Howe also wrote in a simple and clear style making his work accessible to the general public *The Druid of Harley Street* samples the best of his essays offering timely insights for followers of Jung Roberto Assagioli and Mark Epstein students of somatic therapies and spiritual and meditation practitioners The book also offers a fascinating glimpse of a great mind the notable people in his life and the heady times in which he lived

Living Liberalism Elaine Hadley, 2024-05-31 In the mid Victorian era liberalism was a practical politics it had a party it informed legislation and it had adherents who identified with and expressed it as opinion It was also the first British political movement to depend more on people than property and on opinion rather than interest But how would these subjects of liberal politics actually live liberalism To answer this question Elaine Hadley focuses on the key concept of individuation how it is embodied in politics and daily life and how it is expressed through opinion discussion and sincerity These are concerns that have been absent from commentary on the liberal subject *Living Liberalism* argues that the properties of liberalism citizenship the vote the candidate and reform among others were developed in response to a chaotic and antagonistic world In exploring how

political liberalism imagined its impact on Victorian society Hadley reveals an entirely new and unexpected prehistory of our modern liberal politics A major revisionist account that alters our sense of the trajectory of liberalism Living Liberalism revises our understanding of the presumption of the liberal subject Wayward Feeling Helene Strauss,2022-05-30 Inventive new methods of audio visual mediation and aesthetic activism have been giving shape since at least the mid 2000s to feelings of despair disappointment and rage at the injustice that South Africa s colonial and apartheid histories continue to trail in their wake Wayward Feeling reveals how racism sexism and other forms of structural disenfranchisement have continued to assert themselves in affective terms and how these terms have been recast in spaces both public and intimate in post rainbow times Helene Strauss argues that the tension between aspiration and achievability has yielded modes of feeling that increasingly disrupt the thrall of post apartheid nation building and reconciliation myths even as wide spread attachment to the utopian ideals of the anti apartheid struggle continues to shape dissenting political organising and cultural production Drawing on a variety of audio visual forms including video installations conceptual artwork documentary film live art and sonic installations Wayward Feeling examines some of the affective resources that people in contemporary South Africa have been drawing on to make difficult lives more bearable *The Autobiography of Upton Sinclair* Upton Sinclair,2016-11-11 First published in 1962 on the suggestion of his readers throughout his expansive writing career this is the self penned biography of Upton Sinclair author of hundreds of novels plays homilies diatribes and pamphlets Written at the age 83 Sinclair at last allows his loyal readership to glean an in depth look at the man who discovered the Jungle in Armour s Meat Industry at 28 founded a Utopian co operative in 1908 and who muckraked through all of America to become the finest and most devoted polemicist this country has seen from his childhood beginnings in Maryland to his youth in New York through to publication of his first novels and political career and beyond Of his work Upton Sinclair says The English Queen Mary who failed to hold the French port of Calais said that when she died the word Calais would be found written on her heart I don t know whether anyone will care to examine my heart but if they do they will find two words there Social Justice For that is what I have believed in and fought for during sixty three of my eighty four books His is an intellectual s book dealing with one who made intellectual history and no self respecting intellectual tradesman will fail to read it Kirkus Review Illustrated with 17 black and white photographs Psychic Research ,1930 **The Psychoanalytic Study of the Child, Volumes 1-25** Ruth S. of psychic powers in a range of settings Psychic practitioners use language to demonstrate their powers whether they are reporting the words of their spirit contacts or interpreting the spread of Tarot cards Their clients also accept or reject this information through talk This book presents the first sustained study of the verbal interaction between the various kinds of psychic practitioners and their clients Using conversation analysis Robin Wooffitt examines the structure of the interaction focusing on the ways in which psychic practitioners and their clients establish the authenticity of the claimed paranormal powers Adopting a neutral standpoint towards the status of the claims of psychic practitioners the book raises important issues about the role of social science in understanding the activities of psychic practitioners and other kinds of parapsychological phenomena This highly original study will appeal to students and scholars of discourse studies and to sociologists interested in conversation analysis It is written in a style accessible to non specialists and will also interest parapsychologists and social scientists studying psychic phenomena and the paranormal *Journal of the American Society for Psychical Research* American Society for Psychical Research,1930 List of members in v 1 6 12

Freud, the Reluctant Philosopher Alfred I. Tauber,2010-07-01 Freud began university intending to study both medicine and philosophy But he was ambivalent about philosophy regarding it as metaphysical too limited to the conscious mind and ignorant of empirical knowledge Yet his private correspondence and his writings on culture and history reveal that he never forsook his original philosophical ambitions Indeed while Freud remained firmly committed to positivist ideals his thought was permeated with other aspects of German philosophy Placed in dialogue with his intellectual contemporaries Freud appears as a reluctant philosopher who failed to recognize his own metaphysical commitments thereby crippling the defense of his theory and misrepresenting his true achievement Recasting Freud as an inspired humanist and reconceiving psychoanalysis as a form of moral inquiry Alfred Tauber argues that Freudianism still offers a rich approach to self inquiry one that reaffirms the enduring task of philosophy and many of the abiding ethical values of Western civilization *Creating Bodies* Katie Gentile,2013-04-15 Amid the welter of clinical studies memoirs and other death defying tales of eating disorders we remain unclear about the relationships among trauma anorexia and bulimia and about the psychological pathways to recovery Creating Bodies offers the gripping story of healing and

transformation detailed in one woman's diaries Hannah wrote 18 diaries between the ages of 14 and 32 In the excerpts reprinted herein we watch Hannah navigate violent adolescent friendships descend into anorexia and bulimia marry an abusive man struggle to recover memories of sexual abuse and finally to heal And we learn of her interaction with Katie Gentile who analyzed her diaries and met with Hannah to discuss the latter's own understanding of the diaries and of the diary analysis Through a close study of both the content and structure of Hannah's diaries Gentile shows how unspeakable embodied remnants of sexual trauma become symbolized and how within this process Hannah's bulimia functioned as both an act of self destruction and a lifesaving form of resistance Anchored in relational psychoanalysis and critical feminist theory *Creating Bodies* provides a uniquely longitudinal account of the development of and ultimate recovery from an eating disorder fueled by childhood sexual abuse An invaluable contribution to the literature on adolescent and adult eating disorders it is also a thoughtful meditation on how the act of writing deepens issues of relationality and over time promotes cure Psychoanalysts will be intrigued by the rich process issues embedded in prose journals notes and letters both close to and distinct from clinical process issues that Gentile uses to understand Hannah's projects of self destruction and reconstruction

Epochs of Greek and Roman Biography Duane Reed Stuart, 1928-06 **Transnational Perspectives on Graphic Narratives** Shane Denson, Christina Meyer, Daniel Stein, 2013-05-23 Written by leading international scholars this book surveys transnational dimensions of graphic narratives covering popular comics and graphic novels from the USA Asia and Europe *The Cumulative Book Index*, 1911 A world list of books in the English language **Psychodynamics**

Commencing in Early Childhood Marvin P. Osman, 2018-07-15 Psychodynamics Commencing in Early Childhood The Case for an Additional Tripartite Complex defines delineates and demonstrates the usefulness of an earlier variant of the Oedipus Complex a complex first manifesting itself with the onset of separation individuation and ending around the age of three Of course a child younger than three years of age has not matured to the degree of selfhood or become the psychically separate entity that with usual maturation and development are the attributes of the older child of the Oedipus complex proper Under these circumstances the tripartite psychodynamics that are characteristic of and derived from the earlier period will differ from the better known triadic psychodynamics of Freud's Oedipus complex proper This book presents clinical case studies psychological research and psychological understandings from other fields of endeavor that focus on and document psychodynamics of the complex of the earlier age period and their reverberations throughout life The material that is presented in this book is theoretically and clinically significant and the psychodynamics it elucidates has heretofore not been sufficiently recognized and appreciated **Vonnegut & Hemingway** Lawrence R. Broer, 2012-07-23 A study of surprising

similarities in their lives and works adds an important element to the existing discussion of two twentieth century literary icons *Studies in American Humor* In this original comparative study of Kurt Vonnegut and Ernest Hemingway Lawrence R. Broer maps the striking intersections of biography and artistry in works by both writers and compares the ways they blend

life and art Broer views Hemingway as the secret sharer of Vonnegut's literary imagination and argues that the two writers traditionally considered as adversaries because of Vonnegut's rejection of Hemingway's emblematic hypermasculinism inevitably address similar deterministic wounds in their fiction childhood traumas family insanity deforming wartime experiences and depression Rooting his discussion in these psychological commonalities Broer traces their personal and artistic paths by pairing sets of works and protagonists in ways that show the two writers not only addressing similar concerns but developing a response that in the end establishes an underlying kinship when it comes to the fate of the American hero of the twentieth century Hemingway provided frequent fodder for Vonnegut inspiring a cadre of characters who celebrate war and death In his sardonic response to this vision of a Hemingwayesque world Vonnegut espoused kindness and restraint as moral imperatives against the more violent yearnings of human nature which Hemingway in turn embraced as stoic virile and heroic Though their paths were radically different Broer finds in both an overarching obsession with the scars of war as chief adversary in a personal quest for understanding and wholeness He locates in each writer's canon moments of spiritual awaking leading to literary evolution if not outright reinvention In their later works Broer detects an increasing recognition of redemptive feminine aspects in themselves and their protagonists pulling against the destructively tragic fatalism that otherwise dominates their worldviews Broer sees Vonnegut and Hemingway as fundamentally at war with themselves with one another's artistic visions and with the idea of war itself Against this onslaught he asserts they wrote as a mode of therapy and achieved literary greatness through combative opposition to the shadows that loomed so large around them
