God Stopping A Nuclear War Robert Lauzeckas,2011-03-14 Welcome to the Little Scroll promised in the Bible Promised to prevent a nuclear war and more crazy shootings So pay attention Before I describe the book read a little from it Does it or does it not describe the recent shootings in France Or the problems with ISIS If you think it does then read this book You got a lot to learn about the real God and Satan God vs Satan is a secret war between which populations use their left or right brains the most Right hand good hand because God favors left brain thinking verbal Jews before the right brain thinking of artistic people This is why they fight The Holy Ghost won t allow God to rule mankind if he rules as an unfair tyrant If he smothers the creative abilities of the right brain Being a tyrant contradicts the purpose of his existence It also sterilizes the progress of a society If that occurs the Life Force will eventually betray that society Dooming it to failure I ll explain the Life Force later Then why is God trying to push total left brain control in Europe by using Muslims to push Islamic laws in Europe He isn t pushing it Satan is But why would he do it Isn t it contrary for his plans for Europe Yes in the long run it is but not in the short run Plans spanning human lifetimes Considering what you know about them now what do you think is the biggest danger as far as Satan is concerned Isn t a big part of their war biological Isn t a lot of their war about which populations use their left brains or right brains more For many people upbringing greatly influences brain usage but not in Semitic populations with their natural genetic predisposition towards using their left brains It s more nature over nurture for how their minds work The genetic trait for left brain dominance is dangerous for Satan if it spreads too much in Europe So how does he deal with this problem This is the tricky part God knows he can t abuse his power by becoming too strict in populations created to be more balanced It would hinder progress by choking creativity which would turn the Life Force against him So he doesn t push too much He knows he has to temper his ways with different populations So what does Satan do He influences radical religious minds to become unreasonable to become inflexible ungrateful and unable to assimilate into European cultures Satan makes them overstep their boundaries in Europe But to what purpose How does this help him Satan knows the right brains in white Europeans will grow resentful and find Islamic laws repugnant in their own

nations in the long run This in turn will trigger a group genetic response in whites to become racist for real When social approval for the attitude becomes condoned Every biological group like a body has a safety mechanism built into it to protect the body from foreign invaders When our bodies realize they have been invaded by germs an alarm is triggered A biological alarm which triggers the production of white cells in them There is a similar group mechanism which protects racial gene pools Satan is trying to trigger it in Europe But he can't do it unless Muslims don't assimilate into Europe without trying to subvert it So what does he have to do to pull this trigger He has to inject hatred of Western life styles into the minds of radical Muslims Making them hate the Western nations they live in Making them headstrong and intolerant Making it impossible for them to assimilate into European culture Even making them insist on living under Islamic law in populations which couldn't tolerate it The English the Italians the French the Spanish the Germans the Russians and more populations could never live under Islamic law Not unless they were conquered Which is why some Muslims believe they have to conquer Europe not with guns but by producing more babies When they do that they have declared war on Europeans Now back to psychic networks na , The Mystery of Dreams William Oliver Stevens,2017-09-07 Originally published in 1950 this title includes instances of dreams in published records from both British and American societies of psychical research covering six decades This work had been previously inaccessible to the ordinary reader Other stories have come from friends and acquaintances of the author and in his introduction he states that the chief purpose of this collection is to present examples of apparently significant dreams those that come true there will be no effort in these pages to debate possible explanations based on known laws either of chance or of psychology Readers are able to exercise their own ingenuity to this end The material is offered here simply as evidence of a striking phenomenon in human consciousness which instead of being brushed aside as superstition calls for serious study It may have a profound bearing on the riddle of human personality
