## **Real Problems False Solutions:**

Toward a New Socialism Anatole Anton, Richard Schmitt, 2007-01-01 *Toward a New Socialism* offers a critical analysis of capitalism's failings and the imminent need for socialism as an alternative form of government. This book demonstrates that capitalism is destructive and limiting to the many ongoing campaigns to increase freedom, equality, and security. Dr. Richard Schmitt joins with Dr. Anatole Anton to compile a volume of essays exploring the benefits and consequences of a socialist system as an avenue of increased human solidarity and ethical principle. The essays offer a new definition of socialism by investigating the theories and principles of socialism, its influence on social institutions, and its role in work dynamics. Raising important and unavoidable questions for contemporary society, *Toward a New Socialism* is a vital resource for scholars of political theory and the globalization movement, as well as a necessary read for every citizen under capitalism.

*Hydropolitics in the Developing World* Anthony Turton, Roland Henwood, 2002 Bringing contributions by a variety of authors together in one volume is part of an attempt to show that hydropolitics is a growing discipline in its own right. The prevailing definition of hydropolitics is widened to include the elements of scale and range. This is illustrated through a focus on theoretical and legal issues, case studies from Southern Africa, and a proposed research agenda. The book is an important addition to the literature on hydropolitics.

Representing Capital Fredric Jameson, 2014-01-07 *Representing Capital* Fredric Jameson's first book-length engagement with Marx's magnum opus is a unique work of scholarship that records the progression of Marx's thought as if it were a musical score. The textual landscape that emerges is the setting for paradoxes and contradictions that struggle toward resolution, giving rise to new antinomies and a new forward movement. These immense segments overlap each other to combine and develop on new levels in the same way that capital itself does, stumbling against obstacles that it overcomes by progressive expansions which are in themselves so many leaps into the unknown.

**Climate Justice in the Majority World** Neil J.W. Crawford, Kavya Michael, Michael Mikulewicz, 2023-07-31 This edited collection explores a diverse range of climate justice case studies from the Majority World, where most of humans and non-humans live. It is also the site of the most severe impacts of climate change and home to some of the key solutions for the climate crisis. The collection brings together 12 chapters featuring the work of over 30 authors from around the globe. The impacts of climate change are disproportionately affecting individuals, communities, and countries in the Majority World who historically have contributed little to rising global temperatures. The 12 chapters focus on a range of cross-cutting themes demonstrating both individual and collective experiences of climate change and struggles for achieving climate justice from the Majority World. This includes activism, resistance, and social movement organizing in India and Brazil; lived experiences and understandings of frontline communities in Bangladesh and South Africa; consequences of and responses to disasters in Mozambique and Puerto Rico; and contested accounts, narratives, and futures in the Maldives and Pakistan, among other topics. By adopting a decolonial lens, this book provides rich empirical content, insightful comparisons,

and novel conceptual interventions It foregrounds climate justice from an intersectional perspective and contributes to the ongoing efforts by scholars and activists to address epistemic injustice in climate change research policy and practice It will appeal to undergraduate and graduate level students academics activists policymakers and members of the public concerned with the impacts and inequalities of climate change in the Majority World

**Economy-Environment-Development-Knowledge** Ken Cole,2002-01-04 As we approach the end of the second millennium we find ourselves in times of radical social change Orthodox explanations of the economy the environment and the development process are unable to provide coherent policies for such issues as employment creation environmental degradation and social progress Economy Environment Development Knowledge provides alternative perspectives on these fundamental aspects of human existence Economists environmentalists and development theorists have so far been unable to agree on the most successful prescriptions to address problems To understand contrast and compare alternative understandings of economic environmental and development issues we need to be aware why theorists conceptualise the process of social experience so differently Part 1 of Economy Environment Development Knowledge addresses the subjective preference cost of production and abstract labour theories of values in economics Part 2 explains egocentrism ecocentrism and socioecocentrism as competing theoretical perspectives in environmental theory Part 3 highlights modernisation theory structuralist theory and class struggle as ways to account for the process of development and Part 4 examines the generation of knowledge through positivism paradigms and praxis legitimating competing perspectives in economics environmentalist and development The book concludes by considering why different people find alternative explanations more or less plausible By addressing the disagreements between theorists Economy Environment Development Knowledge provides a unique basis to contrast and compare the plethora of theories of and policies for economic prosperity environmental sustainability and social progress

**Less Than Nothing** Slavoj Zizek,2013-09-10 For the last two centuries Western philosophy has developed in the shadow of Hegel an influence each new thinker struggles to escape As a consequence Hegel s absolute idealism has become the bogeyman of philosophy obscuring the fact that he is the defining philosopher of the historical transition to modernity a period with which our own times share startling similarities Today as global capitalism comes apart at the seams we are entering a new period of transition In Less Than Nothing the product of a career long focus on the part of its author Slavoj Zizek argues it is imperative we not simply return to Hegel but that we repeat and exceed his triumphs overcoming his limitations by being even more Hegelian than the master himself Such an approach not only enables Zizek to diagnose our present condition but also to engage in a critical dialogue with the key strands of contemporary thought Heidegger Badiou speculative realism quantum physics and cognitive sciences Modernity will begin and end with Hegel

**The Truth and Other Stories** Stanislaw Lem,2022-09-13 Twelve stories by science fiction master Stanis aw Lem nine of them never before published in English Of these twelve short stories by science fiction master Stanis aw Lem only three have

previously appeared in English making this the first new book of fiction by Lem since the late 1980s The stories display the full range of Lem's intense curiosity about scientific ideas as well as his sardonic approach to human nature presenting as multifarious a collection of mad scientists as any reader could wish for Many of these stories feature artificial intelligences or artificial life forms long a Lem preoccupation some feature quite insane theories of cosmology or evolution All are thought provoking and scathingly funny Written from 1956 to 1993 the stories are arranged in chronological order In the title story The Truth a scientist in an insane asylum theorizes that the sun is alive The Journal appears to be an account by an omnipotent being describing the creation of infinite universes until in a classic Lem twist it turns out to be no such thing in An Enigma beings debate whether offspring can be created without advanced degrees and design templates Other stories feature a computer that can predict the future by 137 seconds matter destroying spores a hunt in which the prey is a robot and an electronic brain eager to go on the lam These stories are peak Lem exploring ideas and themes that resonate throughout his writing

**Environmental Politics in the Middle East** Harry Verhoeven,2018 Offers a critical and realistic reassessment of the threats posed to the environment in the Middle East and what can be done about them

*Employment and Economic Performance* Jonathan Michie,John Grieve Smith,1997 With the end of the post war boom in the early 1970s the world economy has experienced large scale unemployment From an assumption that the unemployment problem had been solved and that full employment could be maintained through demand management techniques we now live in an entirely different world Any suggestion of a return to full employment is met with questions of whether such a thing is possible whether it would not lead to inflation or to excessive trade union power or in the case of individual economies to unsustainable balance of payment deficits The contributors to this volume ask whether full employment policies would be affordable Would they lead to yawning fiscal deficits which would in the end require a U turn in policy with unemployment reappearing This well informed and original contribution to current policy debate faces up to these questions and considers what would be involved in a move to much lower levels of unemployment

**Hydropower Development in the Mekong Region** Nathaniel Matthews,Kim Geheb,2014-11-13 The Mekong Basin is home to some 70 million people for whom this great river is a source of livelihoods the basis for their ecosystems and a foundation of their

economies But the Mekong is also currently undergoing enormous social economic and ecological change of which hydropower development is a significant driver This book provides a basin wide analysis of political socio economic and environmental perspectives of hydropower development in the Mekong Basin It includes chapters from China Thailand Laos Cambodia and Vietnam Written by regional experts from some of the region s leading research institutions the book provides an holistic analysis of the shifting socio political contexts within which hydropower is framed legitimised and executed Drawing heavily on political ecologies and political economics to examine the economic social political and ecological drivers of hydropower the book s basin wide approach illuminates how hydropower development and its benefits and impacts are linked multilaterally across the basin The research in the book is derived from empirical research conducted from 2012 2013 as part of the CGIAR Challenge Program on Water and Food s Mekong programme

**Frankenstein Urbanism** Federico Cugurullo, 2021-05-16 This book tells the story of visionary urban experiments shedding light on the theories that preceded their development and on the monsters that followed and might be the end of our cities The narrative is threefold and delves first into the eco city second the smart city and third the autonomous city intended as a place where existing smart technologies are evolving into artificial intelligences that are taking the management of the city out of the hands of humans The book empirically explores Masdar City in Abu Dhabi and Hong Kong to provide a critical analysis of eco and smart city experiments and their sustainability and it draws on numerous real life examples to illustrate the rise of urban artificial intelligences across different geographical spaces and scales Theoretically the book traverses philosophy urban studies and planning theory to explain the passage from eco and smart cities to the autonomous city and to reflect on the meaning and purpose of cities in a time when human and non biological intelligences are irreversibly colliding in the built environment Iconoclastic and prophetic Frankenstein Urbanism is both an examination of the evolution of urban experimentation through the lens of Mary Shelley s Frankenstein and a warning about an urbanism whose product resembles Frankenstein s monster a fragmented entity which escapes human control and human understanding Academics students and practitioners will find in this book the knowledge that is necessary to comprehend and engage with the many urban experiments that are now alive ready to leave the laboratory and enter our cities

**The Lyre of Orpheus** Christopher Partridge, 2014 The study of religion and popular culture is an increasingly significant area of scholarly inquiry Surprisingly however Christopher Partridge s The Lyre of Orpheus is the first general introduction to the subject of religion and popular music His aim in this book is to introduce a range of theoretical and methodological perspectives to be used in the study of religion and popular music and popular music subcultures He addresses a range of issues from postcolonialism to postmodernism from sex to drugs from violence to the demonic and from misogyny to misanthropy Part One provides a general overview of the history of popular music scholarship and the key approaches that have been taken Part Two looks at approaches from the perspectives of theology and religious studies examining key themes relating to particular genres and subcultures Part Three narrows the

focus and examines key artists and bands mentioned in Part Two including Elvis Bob Dylan Madonna and Bj rk Written to be accessible to the undergraduate The Lyre of Orpheus will also appeal to general readers interested in the role of religion in our culture
