

Real Soviet Russia

Tim McDaniel

Real Soviet Russia:

Hearings United States. Congress Senate, 1965 **The Statesman's Year-Book** S. Steinberg, 2016-12-28 The classic reference work that provides annually updated information on the countries of the world **Reports and Documents** United States. Congress, **The Great Globe Itself** Arthur Asa Berger, 2017-09-04 In 1946 William Bullitt the first U S Ambassador to the Soviet Union U S Ambassador to France at the outbreak of the Second World War and onetime close advisor to FDR wrote the first book length comprehensive analysis of the emerging Cold War between the United States and the Soviet Union During the war as the book s new introduction by Francis P Sempa points out Bullitt had repeatedly urged President Roosevelt to wage war with a view toward the postwar balance of power Bullitt recounted in this volume how the United States missed opportunities to block Soviet geopolitical gains during the war due to a fundamental misreading of the nature of the Soviet political system Bullitt wrote *The Great Globe Itself* from the perspective of a key advisor to President Roosevelt who evolved into a strident critic of the president s wartime diplomacy toward the Soviet Union When Soviet Russia became a wartime ally of the United States Bullitt understood that the alliance would last only until the common enemy Hitler s Germany was defeated Bullitt s discussion and analysis of fundamental global geopolitical realities and his prudent counsel to couple diplomacy with force in international relations are as relevant today as when he wrote the book nearly sixty years ago **Hearings, Reports and Prints of the Senate Committee on Foreign Relations** United States. Congress. Senate. Committee on Foreign Relations, 1966 **The Kravchenko Case** Gary Kern, 2013-10-18 Victor Kravchenko the most discussed Soviet defector at the height of the Cold War *The Real Soviet Russia* David J. Dallin, 1947 The twenty second work published by the Yale university press on the Amasa Stone Mather memorial publication fund Sources pages 314 320 **The Communist Revolution** Harold Henry Fisher, 1955 **Introduction to International Law** Marek St. Korowicz, 2013-06-29 This book in its entirety as well as in each of its parts is an outline of the problems under discussion The subject matter of some eighty sections of the book is extensive it could indeed be presented by experts in as many volumes This study offers an attempt to formulate a synthesis however difficult of the vast amount of available material Unlike the well known standard Introductions to International Law which deal with all the major fields of international law this book treats exclusively the present conceptions of that law as expressed in legal literature international treaties and other agreements international judgements and awards governmental and diplomatic statements and the like Special attention is devoted in several chapters of the book to the teachings of the most highly qualified publicists of the various nations which are considered by Article 38 paragraph 1 d of the Statute of the International Court of Justice as subsidiary means for the determination of rules of law An endeavor is made to ascertain whether in certain fields of the theory of international law a *Communis opinio doctorum* has either been reached or is in the process of achievement Some readers may consider that there are too many quotations from writings of publicists others will certainly feel as does this

writer that too many outstanding international lawyers have not been included

The Agony of the Russian Idea Tim McDaniel, 1998-07-13 Boris Yeltsin's attempts at democratic reform have plunged a long troubled Russia even further into turmoil. This dramatic break with the Soviet past has left Russia politically fragmented and riddled with corruption; its people with little hope for the future. In a fascinating account for anyone interested in Russia's current political struggles, Tim McDaniel explores the inability of all its leaders over the last two centuries—tsars and Communist rulers alike—to create the foundations of a viable modern society. The problem, then and now, he argues, is rooted in a cultural trap endemic to Russian society and linked to a unique sense of destiny embodied by the Russian idea. In its most basic sense, the Russian idea is the belief that Russia can forge a path in the modern world that sets itself apart from the West through adherence to shared beliefs, community, and equality. These cultural values, according to McDaniel, have mainly reversed the values of Western society rather than having provided a real alternative to them. By relying on the Russian idea in their programs of change, dictatorial governments almost unavoidably precipitated social breakdown. When the Yeltsin government declared war on the Communist past, it broke with deeply held Russian values and traditions. McDaniel shows that in cutting people off from their pasts and promoting the West as the sole model of modernity, the reformers have simultaneously undermined the foundations of Russian morality and the people's sense of a future. Unwittingly, the Yeltsin government has thereby annihilated its own authority. McDaniel lived in Russia for three years during both the Communist and post-Communist periods. Basing his analysis on broad historical research, extensive travels, countless interviews and conversations, and friendships with Russians from all walks of life, McDaniel emphasizes the perils of assuming that Russians understand the world in the same way that we do and so can and should become like us. Challenging and provocative in its claims, this book is intended for anyone seeking to understand Russia's attempts to create a new society.

Marx, Lenin, and the Revolutionary Experience Paul LeBlanc, 2014-06-03 Marx, Lenin, and the Revolutionary Experience offers a fresh look at Communism, both the bad and good, and also touches on anarchism, Christian theory, conservatism, liberalism, Marxism, and more to argue for the enduring relevance of Karl Marx and V. I. Lenin as democratic revolutionaries. It examines the Red Decade of the 1930s and the civil rights movement and the New Left of the 1960s in the United States as well. Studying the past to grapple with issues of war and terrorism, exploitation, hunger, ecological crisis, and trends toward deadening and spiritualization, the book shows how the revolutionaries of the past are still relevant to today's struggles. It offers a clearly written and carefully reasoned thematic discussion of globalization, Marxism, Christianity, and religion in general, Communism, the history of the USSR, and US radical and social movements.
