

# Realism

An interest in how things really exist without them being colored by emotion, perception, narrative and abstractions.

## Overview

*Simplifiable*

- The perspective that human perceptions and concepts do not shape reality but rather reality has its own properties that don't necessarily bend to human ideas.
- A character trait whereby an individual looks for concrete evidence without accepting theories that might be true.
- A movement in art, literature and film that depicts everyday life without romanticizing or idealizing it.
- Realism can be a form of pessimism based on the claim that negative assumptions are realistic. For example, the assumption that people are purely motivated by a desire for power.

## Examples

1. A manager who asks for data when an employee comes up with an inventive new product design.
2. A film that depicts how a historical person really was without dramatizing, idealizing or politicizing their depiction.
3. A person with a tendency to stick to the facts with little interest in wild theories.
4. An academic who rejects the notion of idealism -- the theory that human thinking and abstractions shape reality.
5. A media commentator who is uninterested in the narratives used to frame issues and events but rather looks at the facts using first principles.
