Budhani,2018-09-24 These are some of the excerpts from the book Why are we born This question poses a great challenge for many of us The best answer to this would be The poor long for riches the rich long for heaven but the wise long for a peaceful mind In order to perform optimally you need to nurture your body You wouldn't fill your car with sludge leave it in the garage for five years and then expect it to win a race Every day you are impacting the world and every day you are creating your life through your thoughts Think whatever you like big or small rich or poor fair or unfair and those thoughts will strive to become the things and events of your life It's an immutable law Every human action is either driven by fear or by greed Beyond the shadow of a doubt both are negative vibrations One of the best ways you can MAKE yourself happier in all your attempts is begin to come from a positive vibration and that's love Your expectations can literally influence your real life experiences So be aware and consciously choose to create positive expectation with everything you do Do what you love and enjoyment will follow Do what you love and you will feel more fulfilled Do what you love and the money will seem less relevant Do what you love and you'll never work a day in your life Alongside love what you do and you come out a shining star Enjoy the process and be willing to accept what comes your way No matter how successful you are if you have not stopped to enjoy yourself along the way your success is half full Secret of happiness is not found in receiving more but in developing the capacity to enjoy more Mistakes come from acting in ignorance or in innocence or through carelessness or acting hastily or acting in fear or acting in worry or acting in doubt or acting under anxiety 37 Suggestions That Can
