Reality Of Breastfeeding Reflections By Contemporary Women:

The Reality of Breastfeeding Amy Benson Brown, Kathryn Read McPherson, 1998-09-01 **The Complete Book of Breastfeeding** Marvin S. Eiger, Sally Wendkos Olds, 1999-01-01 Provides information about nutrition and exercise explains how lactation works and offers advice to working mothers about breastfeeding *Erotic Attunement* Cristina L. H. Traina, 2011-12-01 Heightened awareness of the problem of sexual abuse has led to deep anxiety over adults touching children in nearly any context Though our society has moved toward increasingly strict enforcement of this taboo studies have shown that young children need regular human contact and the benefits of breastfeeding have been widely extolled Exploring the complicated history of love desire gender sexuality parenthood and inequality *Erotic Attunement* probes the disquieting issue of how we can draw a clear line between natural affection toward children and perverse exploitation of them Cristina L H Traina demonstrates that we cannot determine what is wrong about sexual abuse without first understanding what is good about appropriate sensual affection Pondering topics such as the importance of touch in nurturing children the psychology of abuse and victimhood and recent ideologies of motherhood she argues that we must expand our philosophical and theological language of physical love and make a distinction between sexual love and erotic love Taking on theological and ethical arguments over the question of sexuality between unequals she arrives at the provocative conclusion that it can be destructive to completely bar eroticism from these relationships *The Material Culture of Sex, Procreation, and Marriage in Premodern Europe* A. McClanan, K. Encarnación, 2016-09-23 This interdisciplinary anthology takes as its starting point the belief that as the material grounds of lived experience material culture provides an avenue of historical access to women s lives extending beyond the reaches of textual evidence Studies here range from utilitarian tools used in Late Roman abortion to sacred magical or ritual objects associated with sex procreation and marriage in the Renaissance Together the essays demonstrate the complex relationship between language and object and explore the ways in which objects become forms of communication in their own right transmitting both rather specific messages and more generalized social and cultural values *Mothers and Children* Susan E. Chase, Mary Frances Rogers, 2001 Motherhood is a highly personal array of experiences with a uniquely public dimension preoccupying policymakers advice givers health care providers religious leaders child care workers educators and total strangers who feel entitled to judge mothers they see with their children in the neighborhood or on the TV news Chase U of Tulsa and Rogers U of West Florida approach motherhood and mothering as feminist sociologists focusing on questions such as how ideas about motherhood are shaped by social and historical conditions how ideas about motherhood change over time and across social contexts who has the power to make their definitions of motherhood stick and what diverse groups of mothers themselves think Annotation copyrighted by Book News Inc Portland OR **Breastfeeding in Hospital** Fiona Dykes, 2006-09-27 Breast is best is today s prevailing mantra However women particularly first time mothers frequently feel unsupported when they

come to feed their baby This new experience often takes place in the impersonal and medicalized surroundings of a hospital maternity ward where women are seen to by overworked midwives Using a UK based ethnographic study and interview material this book provides a new radical and critical perspective on the ways in which women experience breastfeeding in hospitals It highlights that in spite of heavy promotion of breastfeeding there is often a lack of support for women who begin to breastfeed in hospitals thus challenging the current system of postnatal care within a culture in which neither service user nor provider feel satisfied Incorporating recommendations for policy and practice on infant feeding Breastfeeding in Hospital is highly relevant to health professionals and breastfeeding supporters as well as to students in health and social care medical anthropology and medical sociology as it explores practice issues while contextualising them within a broad social political and economic context

Mass Hysteria Rebecca Kukla,2005-10-04 In Mass Hysteria Rebecca Kukla examines the present day medical and cultural practices surrounding pregnancy new motherhood and infant feeding In the late eighteenth century the configuration of the maternal body underwent a radical transformation and the two maternal bodies that emerged out of this transformation still govern our imagination and rituals surrounding pregnancy and lactation Exploring the history and the current life of these two maternal bodies within medical institutions popular culture and politics Kukla offers a critical assessment of the lived repercussions of these ideological figures and practices for contemporary women s and infants health and well being

Performing Maternity in Early Modern England Kathryn R. McPherson,2016-12-05 Performing Maternity in Early Modern England features essays that share a common concern with exploring maternity s cultural representation performative aspects and practical consequences in the period from 1540 1690 The essays interrogate how early modern texts depict fertility conception delivery and gendered constructions of maternity by analyzing a wealth of historical documents and images in conjunction with dramatic and non dramatic literary texts They emphasize that the embodied repeated and public nature of maternity defines it as inherently performative and ultimately central to the production of gender identity during the early modern period
