Reality And Comic Confidence In Charles Dickens:

Reality and Comic Confidence in Charles Dickens Peter James Malcolm Scott, 1979 *Dickens and Romantic Psychology* Dink Den, 1987-02-23 **Routledge Revivals: Barnaby Rudge (1987)** Thomas Jackson Rice, 2018-02-01 Originally published in 1987 *Barnaby Rudge* is a comprehensive collection of bibliographical resources surrounding Dickens fifth novel *Barnaby Rudge*. The book addresses what the author terms a prevalent lack of research surrounding the novel. The collection lists bibliographic references which not only looks at the novel itself but also covers older resources that interested Dickens first critics such as the originality of the settings and characters. The book's core focus is examining the novel's historical subject matter in the context of the social and political context in which it was written. The book acts as a core resource for research on *Barnaby Rudge*. *Dickens and the Dialectic of Growth* Badri Raina, 1986 In his works from *Oliver Twist* to *Our Mutual Friend* Charles Dickens reveals a continuum of artistic as well as social development over a period of four decades. In this highly original study Badri Raina relates Dickens novels thoroughly to one another illuminating the works by seeing them in terms of the author's changing social outlook, personal attitudes and aesthetic practice. Raina's book will fascinate readers of Dickens and will serve social historians as well. The unifying point of Raina's study is Dickens ambivalence toward respectable Victorian bourgeois society. He criticized the bourgeois myths of unbridled success and achievement through aggressive individualism yet wished to be a great success himself. Raina argues that Dickens projected this personal ambivalence through the creation of key characters and combinations of characters in his novels creating also a continual movement toward self awareness and self criticism. This personal movement argues Raina found expression in a steady improvement in the quality of Dickens art. Two of the most interesting issues in Dickens studies that of his development as a novelist and that of his mass appeal in combination with towering aesthetic achievement are both addressed thoroughly in this lucid and highly readable book. By following common threads of plot and character through the novels Raina demonstrates how Dickens matured both socially and artistically until in his last finished novel *Our Mutual Friend* social values that were earlier espoused for instance in *Oliver Twist* were wholly and willingly rejected. Raina's critical procedure illuminates not just the career of a Victorian novelist but one who embraces, traverses and evaluates the social climate of a critical period of the nineteenth century. *Shakespeare and Dickens* Valerie L. Gager, 1996-06-06 This 1996 book traces Dickens interest in Shakespeare through his own reading and performance and through theatrical literary and artistic sources. *Great Expectations - Charles Dickens* Harold Bloom, 2009 Possibly Dickens's greatest novelistic achievement. *Charles Dickens and the Form of the Novel* Graham Daldry, 2016-08-05 First published in 1987. While there have been commentaries on his humour, his seriousness, his social concerns and other specific aspects of his work such accounts have only tended to divide our understanding of the novels to lead us to see them as failures of artistic unity. In this book the author seeks to address this question of unity and find a terminology that can treat language, plot and representation of

reality as a coherent imaginative effort This thesis is worked out in detail with reference to several of the novels and represents a challenging re evaluation Dickens achievement as a novelist This book will be of interest to student of literature

Comic Faith Robert M. Polhemus,1982-10 Polhemus sketches several distinctions between nineteenth and twentieth century novelists and concludes that what most characterizes the nineteenth century from the perspective of the twentieth is the tendency in its comic fiction to criticize and to undermine the dogma and institutions of religion and to put faith instead of the existence of the comic perspective Comic Faith is a virtuoso performance of impressive stature I suspect the book will be influential for many years to come John Halperin *Modern Fiction Studies*

Eloquent Retice Leona

Toker,2021-11-21 The importance of the ethics of form in literature has only recently gained broad recognition and has thus far been explored mainly from the position of moral philosophy and critical theory Leona Toker develops a narratological approach to the subject based on studying reticence in works of fiction Reticence consists in narrative techniques through which writers create information gaps that build interest enhance tension and control the reader s comprehension of theme character and event Using novels by Fielding Austen Dickens Conrad Forster and Faulkner Toker demonstrates how the withholding of information affects readers attitudes stimulates their reassessment and leads to a self critical reorientation and how such manipulation of attention has specific ethical and aesthetic significance Drawing on descriptive poetics reader response criticism and information theory Toker marks the parallel situations of the characters in the fiction she analyzes and of the readers who encounter it and presents a novel approach to the issue of first and repeated readings The inquiry into the twofold role of the reader opens the discussion of narrative techniques to ethical issues Through her analysis of silences in representative works Toker makes a meaningful contribution to modern narrative study and offers new insights into a number of familiar novels This well informed sensitive and judicious study will appeal to scholars interested in narrative theory and ethical criticism and to students of Faulkner and of the classical English novel

centuries with material added somewhat haphazardly at different periods and places This study was devoted to the impact of The Arabian Nights on four novelists of the nineteenth century Charlotte Bront Charles Dickens George Meredith and Robert Louis Stevenson These authors were selected on the ground of their life spans which encompassed almost the whole century Because they are among the masters of the English novel it is reasonable to assume that they did not content themselves with mere imitations resulting in pseudo oriental tales Their original creations assimilated the influences from The Arabian Nights forming new unified structures with interwoven references and allusions which are to be redetected
