The Threatening Storm Kenneth Pollack,2003-03-25 In *The Threatening Storm* Kenneth M Pollack one of the world s leading experts on Iraq provides a masterly insider s perspective on the crucial issues facing the United States as it moves toward a new confrontation with Saddam Hussein For the past fifteen years as an analyst on Iraq for the Central Intelligence Agency and the National Security Council Kenneth Pollack has studied Saddam as closely as anyone else in the United States In 1990 he was one of only three CIA analysts to predict the Iraqi invasion of Kuwait As the principal author of the CIA s history of Iraqi military strategy and operations during the Gulf War Pollack gained rare insight into the methods and workings of what he believes to be the most brutal regime since Stalinist Russia Examining all sides of the debate and bringing a keen eye to the military and geopolitical forces at work Pollack ultimately comes to this controversial conclusion through our own mistakes the perfidy of others and Saddam s cunning the United States is left with few good policy options regarding Iraq Increasingly the option that makes the most sense is for the United States to launch a full scale invasion eradicate Saddam s weapons of mass destruction and rebuild Iraq as a prosperous and stable society for the good of the United States the Iraqi people and the entire region Pollack believed for many years that the United States could prevent Saddam from threatening the stability of the Persian Gulf and the world through containment a combination of sanctions and limited military operations Here Pollack explains why containment is no longer effective and why other policies intended to deter Saddam ultimately pose a greater risk than confronting him now before he gains possession of nuclear weapons and returns to his stated goal of dominating the Gulf region It is often said that war should be employed only in the last resort Pollack writes I reluctantly believe that in the case of the threat from Iraq we have come to the last resort Offering a view of the region that has the authority and force of an intelligence report Pollack outlines what the leaders of neighboring Arab countries are thinking what is necessary to gain their support for an invasion how a successful U S operation would be mounted what the likely costs would be and how Saddam might react He examines the state of Iraq today its economy its armed forces its political system the status of its weapons of mass destruction as best we understand them and the terrifying security apparatus that keeps Saddam in power Pollack also analyzes the last twenty years of relations between the United States and Iraq to explain how the two countries reached the unhappy standoff that currently prevails Commanding in its insights and full of detailed information about how leaders on both sides will make their decisions *The Threatening Storm* is an essential guide to understanding what may be the crucial foreign policy challenge of our time

Vortex of Conflict Dan Caldwell, 2011-02-17 More than two million Americans have served in Afghanistan or Iraq more than 5 000 Americans have been killed and over 35 000 have been grievously wounded The war in Afghanistan has become America's longest war Most Americans do not understand the background of or reasons for the United States involvement in these two wars Using primary and secondary sources author Dan Caldwell describes relevant historical political cultural and ideological elements related to the wars in Iraq and Afghanistan He demonstrates how they are interrelated Beginning with the history of the two conflicts within the context of U S policies toward Afghanistan Iraq and Pakistan because American policy toward terrorism and Afghanistan cannot be understood without some consideration of Pakistan he outlines and analyzes major issues of the two wars These include intelligence quality war plans postwar reconstruction interagency policymaking U S relations with allies and shift from conventional to counterinsurgency strategy He concludes by capturing the lessons learned from these two conflicts and points to their

application in future conflict His book is a one volume resource for anyone who wishes to understand why and how the U S became involved in these two wars and in the affairs of Pakistan concurrently *Recovering the Frontier State* Rasul Bakhsh Rais, 2008-03-20 This book examines the prospects for rebuilding state and nation in Afghanistan with regard to Operation Enduring Freedom carried out by the international coalition It starts off by delineating the conceptual basis of Afghanistan s status as a frontier state Looking at geo_strategic aspects Afghanistan s position as an historical buffer between empires and its internal characteristics _weak authority structure internal conflicts interventions by neighbors legitimacy of internal conquest and trans national ethnicities the book provides insights into the unique geo political context of Afghanistan Whilst the author deems the legacy of the previous intervention for containment as a major contributing factor to the disorder in Afghanistan s state and society he draws on lessons from the past intervention to assuage current obstacles and stalemate that is hindering political social and economic development in Afghanistan Focusing on the impediments to development in Afghanistan the background against which the problem needs to be analyzed and consequently countered is effectively set out Incessant war and insurgency has led to mobilization along ethnic and religious lines in Afghanistan and has had profound effects on the kinds of intuitions that have perpetuated over time Ethnic and religious groups have applied constant pressure on the state and this dissonance has had enduring negative consequences on nation building social cohesion and state society relationships Pre emptive and reactive intervention by neighboring states and their links to ethnic groups inside Afghanistan is another dimension which is analyzed An extensive exploration into the geo political history of social groups of Afghanistan with an intensive account of the rise of various power contenders as a function of their history their links with external actors and their traditional position in the indigenous vertical hierarchy are made Unconventional war and counter insurgency operations funded by foreign and local elements are examined and policy guidelines for negotiations and conflict resolution are discussed The work provides fresh insights into the rise of the Taliban and adds further to the scholarly debate about the causes for the consolidation of Taliban power It traces the history of the Afghan crisis and critically evaluates the roles played by different national and international actors A major contribution of the work is the articulation of the need for an integrated nation and state building strategy which takes into account the sensitivities of the Afghanistan experience instead of treating it like other post conflict zones *Doomed in Afghanistan* Phillip Corwin, 2003 In April 1992 Phillip Corwin was in Afghanistan as part of a United Nations team whose mission was to help ensure the transfer of power from the Soviet installed communist regime of President Najibullah to an interim authority that would prepare for elections Some years after the Soviet Union withdrew from Afghanistan Najibullah s regime crumbled and he was convinced to resign with the understanding that he would be evacuated to a neutral country India Due to a series of miscalculations and machinations the UN s diplomatic mission failed Kabul fell to groups of mujahadin before Najibullah could be evacuated and before an interim authority could be installed The inability of the various mujahadin factions to unite

led to their eventual defeat by the Taliban who four years later routed Najibullah from his safe haven at the UN compound and executed him BOOK JACKET
