Reason And Justice:

Reason, Justice and Dignity Peter Leuprecht, 2011-12-23 The term human rights is relatively recent It was first used in the late 18th century in the West However many of the basic ideas behind that concept had long been current in various other cultures and civilizations The book traces those ideas on a journey to some unexplored or insufficiently explored sources of what we now call human rights in three stages ancient China with Confucius and Mencius the golden age of Islam with Avicenna Averroes and Ibn Khaldun and 16th century Spain with Las Casas and de Vitoria The author's conclusion is that human rights and the fundamental concepts of reason justice and dignity which underlie them can be a powerful leavening source of universal human unity

Concepts of Justice David Daiches Raphael, 2001 In Concepts of Justice D D Raphael gives a philosophical survey of the development of the idea of justice While the framework is historical the aim is philosophical analysis and criticism Part I begins with Ancient Roots justice in the Bible in Aeschylus Oresteia in the philosophers Plato and Aristotle and among jurists and theologians in the Middle Ages Part II Modern Shoots deals with philosophers from Hobbes to Rawls and others of the modern age Some of the writings considered will be unfamiliar to many readers who will find that eminence as a political theorist is neither a necessary nor sufficient condition of significant thought about justice Part III Historical Fruits draws some conclusions from the whole survey pinning down the notion of fairness and asking why this notion embraces apparently disparate ideas notably merit and need The developing role of justice and the emergence of novel features during the last three centuries is also discussed Raphael does not assume that the theories of philosophers must reflect the thought and usage of people generally some do while others are idiosyncratic and a number of philosophers neglect the usage of the concept in the context of law While this book is not a comprehensive history it is comprehensive in its scope

Summaries of the Sermons and Discourses of the most eminent British Divines,

including those of Barrow, Beveridge ... Sherlock, Jeremy Taylor, etc. By ... T. S. H. Thomas Smart Hughes, 1834

Justice Mark LeBar, 2018-08-01 A blindfolded woman holding a balance and a sword personifies one of our most significant virtues. We find Lady Justice in statues and paintings that adorn courts and other institutions of law symbolizing strength and impartiality. Yet why do we valorize this virtue primarily as a quality of societies and secondly as one of individual character? We can trace the virtue of justice to ancient Greece where virtue ethics began its long evolution. There justice was seen as one of the most prominent virtues and arguably the most important of the social virtues. With time political philosophy diverted focus to understanding justice as a property of societies and discussion of justice as a virtue of individuals diminished. But justice as a virtue of individual character has along with the other virtues reasserted itself not only in philosophy but in social psychology and other empirical fields of study. This volume aims to demonstrate the breadth of that thinking and research. It comprises new essays solicited from philosophers and political theorists, psychologists, economists, biologists, and legal scholars. Each contribution focuses on some aspect of what makes people just either by examining the science that explains the development of justice as a virtue by highlighting virtue cultivation within distinctive traditions of empirical or philosophical thought or by adopting a distinctive perspective on justice as an individual trait. As the volume shows, justice begins with the individual and flows outward to make just laws and just societies. **Summaries of**

the Sermons and Discourses of Sherlock and Jeremy Taylor Thomas Smart Hughes, Thomas Sherlock, Jeremy Taylor, 1837 The Christian Messenger and Reformer, 1845 *Justice Fragmented* George C. Pavlich, George

Pavlich, 1996 Exploring real life experiences of community mediation practices in Canada the author develops some of Foucault's central ideas on governmentality *Towards Justice and Virtue* Onora O'Neill, 1996-08-28 *Towards Justice and Virtue* challenges the rivalry between those who advocate only abstract universal principles of justice and those who commend only the particularities of virtuous lives. Onora O'Neill traces this impasse to defects in underlying conceptions of reasoning about action. She proposes and vindicates a modest account of ethical reasoning and a reasoned way of answering the question who counts then uses these to construct linked accounts of principles by which we can move towards just institutions and virtuous lives. *The Science of Right in Leibniz's Moral and Political Philosophy* Christopher

Johns, 2013-08-15 Studies of Gottfried Leibniz's moral and political philosophy typically focus on metaphysical perfection, happiness, or love. In this new reading of Leibniz, Christopher Johns shows that it is based on a science of right. Based on the deontic concepts of *jus* right and obligation, this science of right is established in Leibniz's early writings on jurisprudence and depended on throughout several of his major late writings. Johns shows that the moral rightness of an action is grounded in the rights and obligations derived from the agent's capacity for freedom. This new interpretation of Leibniz's moral philosophy compares Leibniz's positions with Grotius, Pufendorf, Hobbes, Locke, and Kant. Providing a comprehensive examination of Leibniz's most important writings on natural right, John's argues that Leibniz properly understood provides a
