Meister, 2007 Gives Christians the tools they need to stand firm in their faith and to share that faith with anyone who asks for a reason for the hope within them Faith, Reason, and Beyond Reason Mark J. Boone, 2024-07-16 The relationship between faith and reason is multifaceted Faith transcends reason in that it is more than reason alone can contain or fully guarantee yet it is neither unreasonable nor something to which reason is irrelevant and reason says some pretty fine things about it This volume updates nine previously published articles on faith and reason by a Christian philosopher who has been studying these matters for two decades alongside one new essay and a philosophical dialogue These articles explain and integrate key ideas on faith and reason including Alvin Plantinga's account of how Christian belief can be knowledge even without evidence defenses of faith from Augustine and William James accounts of empirical evidence for faith from different world religions the distinction between faith and sight in the New Testament the structure of the evidence for the authority of the Bible the idea that faith transcends reason because some articles of faith are beyond human comprehension even if we have evidence that they are true and the nature of faith as a total commitment beyond what the evidence alone can guarantee **Reasons for Faith in Christianity with Answers to Hypercriticism** John McDowell Leavitt, 1900 On Faith and Reason Saint Thomas (Aquinas), Thomas Aquinas, 1999-01-01 The selections included in this anthology drawn from a variety of Aquinas works focus on the roles of reason and faith in philosophy and theology Expanding on these themes are Aquinas discussions of the nature and domain of theology the knowledge of God and of God's attributes attainable through natural reason the life of God including God's will justice mercy and providence and the principal Christian mysteries treated in theology properly speaking the Trinity and the Incarnation **Reason, Faith and Authority in Christianity** Alfred Magill Randolph, 1902

This volume collects that work to provide a major contribution to the literature on jurisprudence.

[A World of Difference \(Reasons to Believe\)](#) Kenneth Richard Samples, 2007-09-01 Recent Barna research indicates that less than one in ten evangelical Christians hold a biblical worldview. *A World of Difference* seeks to change this disturbing fact by educating readers on how the Christian perspective is uniquely reasonable, verifiable, and liveable. Author Kenneth Richard Samples faced a profound test of his own belief system during a personal life and death crisis. In *A World of Difference*, he uses nine distinct tests to compare the Christian worldview with current religious and philosophical competitors, including Islam, postmodernism, naturalism, and pantheistic monism. Samples tackles tough issues through this in-depth study of Christianity's history, creed, and philosophical basis. An excellent resource for readers who want their view of life and the world to make sense.

Religious Faith and Intellectual Virtue Laura Frances Callahan, Timothy O'Connor, 2014-06-12

Is religious faith consistent with being an intellectually virtuous thinker In seeking to answer this question one quickly finds others each of which has been the focus of recent renewed attention by epistemologists What is it to be an intellectually virtuous thinker Must all reasonable belief be grounded in public evidence Under what circumstances is a person rationally

justified in believing something on trust on the testimony of another or because of the conclusions drawn by an intellectual authority Can it be reasonable to hold a belief on a topic over which there is significant entrenched disagreement among informed inquirers or should such disagreement lead all parties to modify or suspend their own judgments Is there anything about faith that exempts it from measurement against such epistemic norms And if we would so evaluate it how exactly should we understand the intellectual commitments faith requires The volume s introduction provides a roadmap of the central issues and controversies as currently discussed by philosophers In fourteen new essays written to engage nonspecialists as well as philosophers working in religion and epistemology a diverse and distinguished group of thinkers then consider the place of intellectual virtue in religious faith exploring one or more of the specific issues noted above

Summa Theologica

Thomas Aquinas, 2024-01-01

In Summa Theologica, Thomas Aquinas meticulously explores the intersections of faith and reason, producing a compendium of Christian theology that remains foundational to Western philosophy. Written in a systematic question and answer format, the work addresses the nature of God, the moral implications of human actions, and the mysteries of salvation. Aquinas employs logic and Aristotelian philosophy to articulate concepts of natural law and ethics, making profound contributions to scholasticism during the 13th century, a period marked by intellectual revival and theological inquiry within the Church. Thomas Aquinas, a Dominican friar and theologian, aimed to resolve the tension between faith and philosophical reasoning in his era, characterized by growing interest in Aristotelian thought. His academic journey from the University of Naples to his time in Paris profoundly shaped his understanding of metaphysics and ethics. Influenced by spiritual mentors and his own contemplative experiences, Aquinas sought to present a comprehensive theological framework that could serve both the academic realm and the devout believer. Summa Theologica is an indispensable text for anyone seeking to grasp the philosophical underpinnings of Christian theology and moral philosophy. Its rigorous approach to theological inquiry invites readers to engage deeply with crucial questions concerning existence.

purpose and divine law making it essential reading for scholars and laypersons alike **God, the Good, and the Spiritual Turn in Epistemology** Roberto Di Ceglie, 2022-08-18 In this book Roberto Di Ceglie offers an historical theological and epistemological investigation exploring how commitments to God and or the good generate the optimum condition to achieve knowledge Di Ceglie criticizes the common belief that to attain knowledge one must always be ready to replace one's convictions with beliefs that appear to be proven He defends a more comprehensive view historically exemplified by outstanding Christian thinkers whereby believers are expected to commit themselves to God and to related beliefs no matter how convincing the evidence contradicting such beliefs appears to be He also argues that both believers and unbelievers can commit themselves to God and the good respectively thereby creating a spiritual turn in epistemology that enables them to generate the best possible condition for conducting rational enquiries and discussion **The Culture of the Spiritual Life** William Dickie, 1906 Faith and Community Rebecca A.
