Reasoning with Logic Programming José Júlio Alferes, 1996 **Reasoning with Logic Programming** Jose Julio Alferes, Luís Moniz Pereira, 1996-07-25 This workshop is dedicated to research projects on the early universe discussing strategies for studying faint distant objects in the optical and infrared spectral regions This field is evolving very rapidly Observational constraints on the evolution and formation of galaxies and large scale structures as well as the cosmic chemical evolution were critically discussed with regard to the theory and numerical simulations In this context the VLT first generation instrument capabilities were presented comprehensively and their use as cosmological tools discussed The concluding remarks focussed on the analysis of various possibilities for the VLT second generation instrumentation Many of these topics were covered by invited reviews and talks and some contributed talks which are included in this volume
