Rebellion and Factionalism in a Chinese Province Keith Forster, 2019-07-26 A detailed case study of provincial politics during the decade long Cultural Revolution which analyzes the form and changing nature of mass organizations established in China by 1966 The text traces their evolution activities and ultimate dissolution ten years later Rebellion and Factionalism in a Chinese Province Keith Forster, 1990 A detailed case study of provincial politics during the decade long Cultural Revolution which analyzes the form and changing nature of mass organizations established in China by 1966 The text traces their evolution activities and ultimate dissolution ten years later *Collective Killings in Rural China during the Cultural Revolution* Yang Su, 2011-02-21 The violence of Mao's China is well known but its extreme form is not In 1967 and 1968 during the Cultural Revolution collective killings were widespread in rural China in the form of public execution Victims included women children and the elderly This book is the first to systematically document and analyze these atrocities drawing data from local archives government documents and interviews with survivors in two southern provinces This book extracts from the Chinese case lessons that challenge the prevailing models of genocide and mass killings and contributes to the historiography of the Cultural Revolution in which scholarship has mainly focused on events in urban areas

Patrolling the Revolution Elizabeth J. Perry, 2007-08-24 This pioneering study explores the role of working class militias as vanguard and guardian of the Chinese Revolution The book begins with the origins of urban militias in the late nineteenth century and follows their development to the present day Elizabeth J Perry focuses on the institution of worker militias as a vehicle for analyzing the changing yet enduring impact of China's revolutionary heritage on subsequent state society relations She also incorporates a strong comparative perspective examining the influence of revolutionary militias on the political trajectories of the United States France the Soviet Union and Iran Based on exhaustive archival research the work raises fascinating questions about the construction of revolutionary citizenship the distinctions among class community and creed the open ended character of revolutionary movements and the path dependency of institutional change All readers interested in deepening their understanding of the Chinese Revolution and in the nature of revolutionary change more generally will find this an invaluable contribution *Central Control and Local Discretion in China* Chae-ho Chŏng, 2000 This book analyses the decollectivization reform in China during the early 1980s in order to gauge the impact of post Mao decentralization on central control and provincial discretion The volume challenges the notion that the decision to decentralize administrative authority ipso facto produces local discretion properly keyed to local conditions In fact outcomes often differ from the intended goals While generally local interests and central local clientilistic networks determine the policy responses of the provinces bureaucratic careerism also plays a crucial role In the case of post Mao decollectivization national level analyses suggest that a majority of provinces adopted household farming neither too quickly nor too slowly since both pioneering and resisting entailed potentially enormous political risks Once Beijing's preference appeared firmly

fixed however they all quickly bandwagoned by popularizing the policy as swiftly as possible Three detailed case studies of Anhui as a pioneer Shandong as a bandwagoner and Heilongjiang as a resister further highlight the evolutionary process in which provincial variations came to be replaced by uniform compliance imposed by Beijing Theoretically this study contends that the overall scope of local discretion is circumscribed by the dominant norms and incentive relations embedded in the implementation dynamics Methodologically the book employs a combination of aggregate analyses and comparative case studies Empirically on the basis of newly available materials including classified documents and interviews it challenges the peasant power school which has somehow allowed local governments to evaporate in its descriptions of post Mao decollectivization

Maoism and Grassroots Religion Xiaoxuan Wang, 2020-03-04 Maoism and Grassroots Religion explores grassroots religious life under and after Mao in Rui an County Wenzhou of southeast China a region widely known for its religious vitality Drawing from unexplored local state archives records of religious institutions memoirs and interviews it tells the story of local communities encounter with the Communist revolution and its consequences especially competition and struggles for religious property and ritual space Rather than being totally disrupted Xiaoxuan Wang shows religious life under Mao was characterized by remarkable variety and unevenness and was contingent on the interactions of local dynamics with Maoist campaigns including land reform the Great Leap Forward and the Cultural Revolution The revolutionary experience strongly determined the trajectories and development patterns of different religions inter religious dynamics and state religion relationships in the post Mao era Wang goes beyond the image of totalistic control and suppression to show how Maoism is relevant to religious revitalization in the post Mao era and more broadly the modern fate of Chinese religions and secularism in East Asia Maoism permanently altered the religious landscape in China especially by inadvertently promoting the localization and even in some areas expansion of Protestant Christianity as well as the reinvention of traditional communal religion Contrary to the popular image of total suppression and disruption during the Mao years this book shows that religious changes under Mao were highly complex and contingent on a confluence of political campaigns local politics and community responses The post Mao religious revival had deep historical roots in the Mao years Wang argues and cannot be explained by contemporary economic motives and cultural logics alone This book calls for a new understanding of Maoism and secularism in the People's Republic of China
