Stephen R. Platt,2012-02-07 A gripping account of China's nineteenth century Taiping Rebellion one of the largest civil wars in history *Autumn in the Heavenly Kingdom* brims with unforgettable characters and vivid recreations of massive and often gruesome battles a sweeping yet intimate portrait of the conflict that shaped the fate of modern China The story begins in the early 1850s the waning years of the Qing dynasty when word spread of a major revolution brewing in the provinces led by a

failed civil servant who claimed to be the son of God and brother of Jesus The Taiping rebels drew their power from the poor and the disenfranchised unleashing the ethnic rage of millions of Chinese against their Manchu rulers This homegrown movement seemed all but unstoppable until Britain and the United States stepped in and threw their support behind the Manchus after years of massive carnage all opposition to Qing rule was effectively snuffed out for generations Stephen R Platt recounts these events in spellbinding detail building his story on two fascinating characters with opposing visions for China's future the conservative Confucian scholar Zeng Guofan an accidental general who emerged as the most influential military strategist in China's modern history and Hong Rengan a brilliant Taiping leader whose grand vision of building a modern industrial and pro Western Chinese state ended in tragic failure This is an essential and enthralling history of the rise and fall of the movement that a century and a half ago might have launched China on an entirely different path into the modern world

Agents of World Renewal Takashi Miura, 2019-08-31 This volume examines a category of Japanese divinities that centered on the concept of world renewal *yonaoshi* In the latter half of the Tokugawa period 1603-1867 a number of entities both natural and supernatural came to be worshipped as gods of world renewal These included disgruntled peasants who demanded their local governments repeal unfair taxation government bureaucrats who implemented special fiscal measures to help the poor and a giant subterranean catfish believed to cause earthquakes to punish the hoarding rich In the modern period *yonaoshi* gods took on more explicitly anti authoritarian characteristics During a major uprising in Saitama Prefecture in 1884 a *yonaoshi* god was invoked to deny the legitimacy of the Meiji regime and in the late nineteenth and early twentieth centuries the new religion *moto* predicted an apocalyptic end of the world presided over by a messianic *yonaoshi* god Using a variety of local documents to analyze the veneration of *yonaoshi* gods Takashi Miura looks beyond the traditional modality of research focused on religious professionals their institutions and their texts to illuminate the complexity of a lived religion as practiced in communities He also problematizes the association frequently drawn between the concept of *yonaoshi* and millenarianism demonstrating that *yonaoshi* gods served as divine rectifiers of specific economic injustices and only later in the modern period and within the context of new religions such as *moto* were fully millenarian interpretations developed The scope of world renewal in other words changed over time *Agents of World Renewal* approaches Japanese religion through the new analytical lens of *yonaoshi* gods and highlights the necessity of looking beyond the boundary often posited between the early modern and modern periods when researching religious discourses and concepts

The Taiping Heavenly Kingdom Thomas H. Reilly, 2011-07-01 Occupying much of imperial China's Yangzi River heartland and costing more than twenty million lives the Taiping Rebellion 1851-64 was no ordinary peasant revolt What most distinguished this dramatic upheaval from earlier rebellions were the spiritual beliefs of the rebels The core of the Taiping faith focused on the belief that Shangdi the high God of classical China had chosen the Taiping leader Hong Xiuquan to establish his Heavenly Kingdom on Earth How were the Taiping rebels professing this new creed able to mount

their rebellion and recruit multitudes of followers in their sweep through the empire Thomas Reilly argues that the Taiping faith although kindled by Protestant sources developed into a dynamic new Chinese religion whose conception of its sovereign deity challenged the legitimacy of the Chinese empire The Taiping rebels denounced the divine pretensions of the imperial title and the sacred character of the imperial office as blasphemous usurpations of Shangdi's title and position In place of the imperial institution the rebels called for restoration of the classical system of kingship Previous rebellions had declared their contemporary dynasties corrupt and therefore in need of revival the Taiping by contrast branded the entire imperial order blasphemous and in need of replacement In this study Reilly emphasizes the Christian elements of the Taiping faith showing how Protestant missionaries built on earlier Catholic efforts to translate Christianity into a Chinese idiom Prior studies of the rebellion have failed to appreciate how Hong Xiuquan's interpretation of Christianity connected the Taiping faith to an imperial Chinese cultural and religious context The Taiping Heavenly Kingdom shows how the Bible in particular a Chinese translation of the Old Testament profoundly influenced Hong and his followers leading them to understand the first three of the Ten Commandments as an indictment of the imperial order The rebels thus sought to destroy imperial culture along with its institutions and Confucian underpinnings all of which they regarded as blasphemous Strongly iconoclastic the Taiping followers smashed religious statues and imperially approved icons throughout the lands they conquered By such actions the Taiping Rebellion transformed at least for its followers but to some extent for all Chinese how Chinese people thought about religion the imperial title and office and the entire traditional imperial and Confucian order This book makes a major contribution to the study of the Taiping Rebellion and to our understanding of the ideology of both the rebels and the traditional imperial order they opposed It will appeal to scholars in the fields of Chinese history religion and culture and of Christian theology and church history
