**Rethinking Public Private Partnerships** Lewis, Mervyn K.,2021-08-27 Public private partnerships PPPs have been a controversial approach to procuring public infrastructure services Against a background of recent trenchant criticism of PPPs Mervyn K Lewis a leading scholar in the area re examines their utility He questions what PPPs can and cannot do why governments choose this route and whether PPPs can ever be good value for money

Neoliberalism Matthew Eagleton-Pierce,2016-05-20 Neoliberalism The Key Concepts provides a critical guide to a vocabulary that has become globally dominant over the past forty years The language of neoliberalism both constructs and expresses a particular vision of economics politics and everyday life Some find this vision to be appealing but many others find the contents and implications of neoliberalism to be alarming Despite the popularity of these concepts they often remain confusing the product of contested histories meanings and practices In an accessible way this interdisciplinary resource explores and dissects key terms such as Capitalism Choice Competition Entrepreneurship Finance Flexibility Freedom Governance Market Reform Stakeholder State Complete with an introductory essay cross referencing and an extensive bibliography this book provides a unique and insightful introduction to the study of neoliberalism in all its forms and disguises

**The Governance of Climate Relations Between Europe and Asia** Hans Bruyninckx,David Belis,2013-01-01 This book is very timely it provides important insights for bilateral cooperation and international negotiations These lessons go beyond EU China and EU Vietnam relations Many of them are applicable to other countries in Asia a region which will remain a key priority for EU foreign and climate policy not least as the EU s largest trading partner From the foreword by Jos Delbeke Director General EC DG Climate Action The Governance of Climate Relations between Europe and Asia offers a thorough empirical study of the most fundamental dynamics involved in EU climate relations with China and Vietnam in the context of global climate governance This book presents a study of the most important governance processes in current EU Asia climate relations It focuses on in depth empirical case studies offering a comprehensive relational perspective Contributions on China cover the most essential issues interests and actors while the inquiry of EU Vietnam relations mainly focuses on the Clean Development Mechanism as the main channel of bilateral climate action This landmark study will appeal to both policymakers and practitioners faced with the extraordinary task of managing the increasingly complex and multilevel interactions of current EU Asia climate relations as well as global carbon market watchers and professionals dealing with emissions trading in the European Union China and Vietnam It will also be of interest to scholars and postgraduate students of international relations Chinese and EU foreign policy global environmental and climate governance and international law

**Risk Management in Public-Private Partnerships** Mohammad Heydari,Kin Keung Lai,Zhou Xiaohu,2020-12-28 Public Private Partnership PPP is a channel through which the public sector can seek alternative funding

and expertise from the private sector to procure public infrastructure Governments around the world are increasingly turning to Public Private Partnerships to deliver essential goods and services Unfortunately PPPs like any other public procurement can be at risk of corruption This book begins by looking at the basics of PPP and the challenges of the PPP process It then conceptualizes the vulnerability of various stages of Public Private Partnership models and corruption risk against the backdrop of contract theory principal agent theory and transaction cost economics The book also discusses potential control mechanisms The book also stresses the importance of good governance for PPP It outlines principles and procedures of project risk management PRM developed by a working party of the Association of Project Managers Finally the book concludes by proposing strategies and solutions to overcome the limitations and challenges of the current approach toward PPP

**Public Private Partnerships** Sara Valaguzza, Eduardo Parisi, 2020-01-31 This insightful book critically examines the phenomenon of public private partnerships through a global theoretical lens It considers the reasons for merging private entities and public administration as well as the processes and consequences of doing so The benefits for the community as well as the radical changes in the principles and modalities of administrative activity are theorized and discussed

**BOOK JACKET** **Big Plans** Kenneth Kolson, 2021-04-27 Similar in spirit to Lewis Mumford's *The City in History* and Jane Jacobs' *The Death and Life of Great American Cities* wonderful funny idiosyncratic Frederick R Steiner author of *The Living Landscape* *Big Plans* The Allure and Folly of Urban Design springs from the idea that human aspirations for the city tend to overstate the role of rationality in public life Inspired by the architectural and urban criticism of such writers as Lewis Mumford Jane Jacobs and John Brinckerhoff Jackson Kolson adopts a user's perspective on issues of urban design an approach that highlights both the futility of social engineering and the resilience of the human spirit A book that should be read by all those people and there seem to be more of them as week chases week who are thinking about the fate of lower Manhattan right now Bloomberg News Kenneth Kolson has lots of material Some of what's been built in cities lately is astonishing and not in a good way The Boston Globe Kolson is a passionate critic of urban schemes with well founded skepticism about the role rationality has played in designing them *Journal of the Society of Architectural Historians* A fascinating read about the utopian goal of Big Plans and the dystopian reality of lived experience *Design Issues*

**City in Transition** Frank Akpadock, 2012-03 In a climate of scarce financial resources where federal and state fiscal assistance to cities has dwindled quantitatively all civic leaders must somehow find a way to provide long term vision a good business climate and diverse economic development planning strategies to grow their cities economies Such plans should be strategically flexible and adaptable to change yet strong enough to withstand the whirlwinds and vicissitudes of the constantly changing national and global economies Youngstown Ohio achieved its success through the visionary leadership of its city mayors who partnered with local University leadership tapping into their

invaluable assets of knowledge capital and technology transfer capacities while at the same time mobilizing public support from labor businesses foundations and other entrepreneurial stakeholders to provide assistance with the city s economic recovery City in Transition is a landmark testimonial assessment of tried and true economic development strategies of Youngstown mayors visionary leaderships to revive and grow the city s declining economy following its steel mill closings in the late 1970s Economic development strategies together with city size reclassification into a smaller post industrial city created a classic leadership story of foresight that transcended the city s economic regeneration per se to garner both national recognition and international attention

*Racial Politics And Urban Planning* Robert A. Catlin,2014-10-17 When Richard G Hatcher became the first black mayor of Gary Indiana in 1967 the response of Gary s white businessmen was to move the entire downtown to the suburbs thereby weakening the city core Meanwhile white business and institutional leaders in Atlanta Detroit and Newark worked with black mayors heading those majority black cities to rebuild their downtowns and neighborhoods Why not Gary Robert A Catlin who served as Mayor Hatcher s planning advisor from 1982 to 1987 here analyzes the racial conflicts that tore Gary apart He asserts that two types of majority black cities exist Type I including Atlanta Baltimore Detroit and Newark have Fortune 500 corporate headquarters major universities and large medical centers institutions that are placebound and their leaders must work with black mayors Type II cities like Gary lack these resources thus their white leaders feel less compelled to cooperate with black mayors Unfortunately in Gary s case black politicians and white executives fell victim to pettiness and mistrust and as a result Gary and the entire northwest Indiana region suffered Racial Politics and Urban Planning is required reading for citizens interested in urban affairs Leaders in cities such as Albany and Macon Georgia Monroe Louisiana Mount Vernon New York and Pine Bluff Arkansas should also take note Those cities have just become majority black and are in the Type II category Will they learn from Gary or are they doomed to repeat its mistakes

**Property, Power, and American Democracy** David Andrew Schultz, 1992-01-01 One legacy of the Reagan and post Reagan years has been a questioning by both liberals and conservatives of recent eminent domain and property rights decisions by the Supreme Court This timely volume examines the changing political and constitutional status of these concepts Schultz argues that we need to rethink the nature of property rights by asking what purpose they serve in American society and whether they deserve special legal and judicial protection against legislative interference *Property Power and American Democracy* is founded on a searching reexamination of the role of property in early and contemporary American legal and political thought From this perspective Schultz shows that the meaning of property is currently in flux as a result of a failure to sustain those values that property was originally supposed to protect in our society individual liberty limited government and minority rights In keeping with the moral and political values associated with property in the writings of John Locke James Harrington and other classical theorists the author contends that property should not be viewed merely as a thing we possess or an entity we may dispose of at will Instead it is to be seen as an important social relationship to which the law gives special protection thereby furthering a sense of autonomy self identity and community This volume demonstrates that once we view property in this light we can then ask which relations or values are so important in our society that they deserve to be called property Drawing upon both liberal and conservative points of view *Property Power and American Democracy* is a powerful argument for the reinvigoration of property rights It will be of special interest to political scientists urban planners and specialists in American constitutional history and political thought

**City and Port** Han Meyer, 1999 *Downtown, Inc.* Bernard J. Frieden, Lynne B. Sagalyn, 1991-07-01 Pioneering observers of the urban landscape Bernard Frieden and Lynne Sagalyn delve into the inner workings of the exciting new public entrepreneurship and public private partnerships that have revitalized the downtowns of such cities as Boston San Diego Seattle St Paul and Pasadena

**International Handbook on Public-Private Partnership** Graeme A. Hodge, Carsten Greve, Anthony E. Boardman, 2010-11-30 Public Private Partnerships PPPs promise much and present an exciting policy option Yet as this Handbook reveals there is still much debate about the meaning of partnership and the degree to which potential advantages are in fact being delivered In this timely Handbook leading scholars from around the world explore the challenges presented by infrastructure PPPs and contemplate what lies ahead as governments balance the need to provide innovative new infrastructure against the requirement for good public governance This Handbook builds on a range of exciting theoretical lenses that span several disciplinary boundaries It presents innovative insights and informed perspectives

from an international base of empirical evidence This essential Handbook will prove an invaluable reference work for academics advanced post graduate students and commentators of PPPs as well as professionals infrastructure regulators and government policy advisors

**Private Sector-Led Urban Development Projects** Erwin Heurkens, 2012-09-04 Central to Private Sector led Urban Development Projects lays the concept of private sector led urban development projects Such projects involve project developers taking a leading role and local authorities adopting a facilitating role in managing the development of an urban area based on a clear public private role division Such a development strategy is quite common in Anglo Saxon urban development practices but is less known in Continental European practices Nonetheless since the beginning of the millennium such a development strategy also occurred in the Netherlands in the form of concessions However remarkably little empirical knowledge is available about how public and private actors collaborate on and manage private sector led urban development projects Moreover it remains unclear what the effects of such projects are This dissertation provides an understanding of the various characteristics of private sector led urban development projects by conducting empirical case study research in the institutional contexts of the Netherlands and the UK The book provides an answer to the following question What can we learn from private sector led urban development projects in the Netherlands and UK in terms of the collaborative and managerial roles of public and private actors and the effects of their inter actions
