Graphs and Order Ivan Rival, 2012-12-06 This volume contains the accounts of the principal survey papers presented at GRAPHS and ORDER held at Banff Canada from May 18 to May 31 1984 This conference was supported by grants from the N A T O Advanced Study Institute programme the Natural Sciences and Engineering Research Council of Canada and the University of Calgary We are grateful for all of this considerable support Almost fifty years ago the first Symposium on Lattice Theory was held in Charlottesville U S A On that occasion the principal lectures were delivered by G Birkhoff O Ore and M H Stone In those days the theory of ordered sets was thought to be a vigorous relative of group theory Some twenty five years ago the Symposium on Partially Ordered Sets and Lattice Theory was held in Monterey U S A Among the principal speakers at that meeting were R P Dilworth B Jonsson A Tarski and G Birkhoff Lattice theory had turned inward it was concerned primarily with problems about lattices themselves As a matter of fact the problems that were then posed have by now in many instances been completely solved

Graham, Jaroslav Nešetřil, Steve Butler, 2013-08-04 This is the most comprehensive survey of the mathematical life of the legendary Paul Erdős 1913 1996 one of the most versatile and prolific mathematicians of our time For the first time all the main areas of Erdős research are covered in a single project Because of overwhelming response from the mathematical community the project now occupies over 1000 pages arranged into two volumes These volumes contain both high level research articles as well as key articles that survey some of the cornerstones of Erdős work each written by a leading world specialist in the field A special chapter Early Days rare photographs and art related to Erdős complement this striking collection A unique contribution is the bibliography on Erdős publications the most comprehensive ever published This new edition dedicated to the 100th anniversary of Paul Erdős birth contains updates on many of the articles from the two volumes of the first edition several new articles from prominent mathematicians a new introduction and more biographical information about Paul Erdős with an updated list of publications The second volume contains chapters on graph theory and combinatorics extremal and Ramsey theory and a section on infinity that covers Erdős research on set theory All of these chapters are essentially updated particularly the extremal theory chapter that contains a survey of flag algebras a new technique for solving extremal problems

Recent Progress in Combinatorics, 1969 **The Mathematics of Paul Erdős II** Ronald L. Graham, Jaroslav Nešetřil, 2012-12-06 In 1992 when Paul Erdős was awarded a Doctor Honoris Causa by Charles University in Prague a small conference was held bringing together a distinguished group of researchers with interests spanning a variety of fields related to Erdős own work At that gathering the idea occurred to several of us that it might be quite appropriate at this point in Erdős career to solicit a collection of articles illustrating various aspects of Erdős mathematical life and work The response to our solicitation was immediate and overwhelming and these volumes are the result Regarding the organization we found it convenient to arrange the papers into six chapters each mirroring Erdős holistic approach to mathematics Our goal was not merely a random collection of papers but rather a thoroughly edited volume composed in large part by articles explicitly solicited to illustrate interesting aspects of Erdős and his life and work Each chapter includes an introduction which often presents a sample of related Erdős problems in his own words All these sometimes lengthy introductions were written jointly by editors We wish to thank the nearly 70 contributors for their outstanding efforts and their patience In particular we are grateful to Bela Bollobás for his extensive documentation of Paul Erdős early years and mathematical high points in the first part of this volume our other authors are acknowledged in their respective chapters We also want to thank A Bondy G Hahn I
