**Recent English Architecture, 1920-1940** Country Life Limited, 1947      Interwar Gavin Stamp, 2024-03-07 A FINANCIAL TIMES BOOK OF THE YEAR 2024 A Country Life Architecture Book to Read in 2025 Elegant erudite and entertaining a superbly detailed picture of an architectural era The Times A magnificent monument in itself to a fine architectural writer Simon Heffer Telegraph British architecture between the wars is most famous for the rise of modernism the flat roofs clean lines and concrete of the Isokon flats in Hampstead and the Penguin Pool at London Zoo but the reality was far more diverse As the modernists came of age and the traditionalists began to decline there arose a rich variety of styles and tastes in Britain and across the empire a variety that reflected the restless zeitgeist of the years before the Second World War At the time of his death in 2017 Gavin Stamp one of Britain's leading architectural critics was at work on a deeply considered account of British architecture in the interwar period correcting what he saw as the skewed view of earlier historians who were unable to see past modernism Beginning with a survey of the modern movement after the armistice Interwar untangles the threads that link lesser known movements like the Egyptian revival with the enduring popularity of the Tudorbethan to chronicle one of Britain's most dynamic architectural periods The result is more than an architectural history it is the portrait of a changing nation As an account of the period that still shapes much of Britain's towns and cities Gavin Stamp's final work is the definitive history of British architecture between the Great War and the Blitz      1938: Modern Britain Michael John Law, 2017-12-14 In 1938 Modern Britain Michael John Law demonstrates that our understanding of life in Britain just before the Second World War has been overshadowed by its dramatic political events 1938 was the last year of normality and Law shows through a series of case studies that in many ways life in that year was far more modern than might have been thought By considering topics as diverse as the opening of a new type of pub the launch of several new magazines the emergence of push button radios and large screen televisions sets and the building of a huge office block he reveals a Britain both modern and intrigued by its own modernity that was stopped in its tracks by war and the austerity that followed For some life in Britain was as consumerist secular Americanized and modern as it would become for many in the late 1950s and early 1960s Presenting a fresh perspective on an important year in British social history illuminated by six engaging case studies this is a key study for students and scholars of 20th century Britain

**20th-Century Buildings** Twentieth Century Society, 2024-06-06 A stylish celebration of some of the greatest buildings in Britain from the 20th century and beyond by the country's leading organisation for the protection of 20th century architecture This fascinating book showcases 100 standout buildings from 1914 onwards representing the broad variety of 20th century British architecture The structures celebrated in this book include the Royal Festival Hall the Hepworth Gallery

Preston Bus Station Battersea Power Station the Barbican Estate the Aquatics Centre and many more The glorious photography in 100 20th Century Buildings is accompanied by insightful text from a range of expert architectural writers and enthusiasts including Alan Powers Owen Hatherley and Rowan Moore along with several longer essays on different aspects of the 20th century built environment the late Gavin Stamp on the inter war decades the much missed Elaine Harwood on post war architecture and Timothy Brittain Catlin on postmodernism From factories to art galleries churches to health centres office blocks to individual private dwellings this book provides a captivating overview of the 20th century built environment

Form and Fancy Joan S. Skinner,1997-01-01 In 1916 at an unpropitious time Thomas Wallis founded a new practice Wallis Gilbert the fancy factories of the mid term years of 1927 35 the more sculptural and geometrical British modern later works up to 1939 and designs including overseas commissions that do not easily fit within the three style groups Skinner concludes with an evaluation of the philosophy of Wallis Gilbert Partners which was to contribute through the architectural design of factories to the successful pursuit of business by the companies that commissioned them Although factories have played an influential role in society for more than two centuries their design has rarely caught the imagination of architectural historians Their neglect of the field is now being rectified to some extent and this book will contribute to the further stimulation of interest in the architectural history of factories **British Architects, 1840-1976** Lawrence

Wodehouse,1978 Summerson and Hitchcock Frank E. Salmon,2006 Publisher description *The Roadhouse Comes to Britain* David W. Gutzke,Michael John Law,2017-04-20 This is the first book to examine the cultural phenomenon of the roadhouse in mid 20th century Britain and its impact on British leisure The term roadhouse was used in varied ways in the 1930s from small roadside tearooms to enormous establishments on the outskirts of major cities These roadhouses were an important component in the transformation of leisure in the 1930s and beyond reflecting the increased levels of social and physical mobility brought about by new technologies suburbanisation and the influence of American culture Roadhouses attracted wealthy Londoners excited by the prospect of a high speed run into the countryside During the day they offered family activities such as tennis archery horse riding and swimming At night they provided all the fun of the West End with dancing classy restaurants cabaret swimsuit parades and dance demonstrations subverting the licensing laws to provide all night drinking Rumours abounded of prostitution and transgressive behaviour in the car park Roadhouses formed part of an imaginary America in suburban Britain that was promoted by the popularity of American movies music and fiction providing a pastiche of the American country club While much work has been done on the Soho nightclubs of the 1930s the roadhouse has been largely ignored Michael John Law and David Gutzke fill this gap in the literature by providing a comprehensive analysis of the roadhouse s cultural meaning demonstrating how its Americanisation was interpreted for British consumers This original and engaging study will be fascinating reading for all scholars of 20th century British cultural history **The experience of suburban modernity** Michael John Law,2014-12-01 The experience of suburban modernity looks at the

history of the London suburbs in the interwar years It shows that contrary to those accounts that portray suburbia as static and boring these suburbs were in fact at the heart of the adoption of private transport and new mobilities Wealthier middle class suburbanites enjoyed driving at speed on new arterial roads visiting roadhouses for a transgressive night out taking five shilling flights from the local airport and joining cycling and motorcycle clubs All this fun came at a price for some in the form of thousands of deaths in road accidents plane crashes on suburban housing and in the despoiling of the countryside through road development This book will be welcomed by academics and students working in suburban studies historical geography and interwar British history and can also be enjoyed by anyone interested in the history of London

**Marylebone Lives** Carl Upsall, Mark Riddaway, 2015-06-15 Marylebone has been home to its fair share of rogues villains and eccentrics and their stories are told here The authors also want to remind the reader that alongside the glamour of Society there has also been hardship and squalor in the parish as was graphically illustrated in Charles Booth's poverty maps of London in 1889 Over the past 10 years the Marylebone Journal has printed historical essays on the people places and events that have helped shape the character of the area Some are commemorated with a blue plaque but many are not This is not a check list of the grandees of Marylebone though plenty appear in these pages The essays have been grouped into themes of history politicians and warriors culture and sport from pop music and television to high art love and marriage stories from romance to acrimonious divorce criminals science and medicine buildings and places and the mad bad and dangerous to know those whose stories don't fit a convenient box but are too good not to tell *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* New York Public Library. Research Libraries, 1979

**Bibliography of the History of British Art** Courtauld Institute of Art, 1956 *Malcolm Frost* Malcolm Frost, 2002 The second in the series explores the work of the inimitable Malcolm Frost a designer from the UK Frost has concentrated in recent years on working with some of the best known architects to create exceptional catalogues and posters that showcase not only the architects creative genius but Frost's ability to design material that supports *The Architecture of Landscape, 1940-1960* Marc Treib, 2002-10 The Architecture of Landscape 1940 1960 provides a groundbreaking collection of worldwide perspectives on a vital and underappreciated era of landscape architecture It is also the first critical assessment of this period with information and insight previously unavailable to English language readers *Bibliography of the History of British Art*, 1956 **AIA Journal** American Institute of Architects, 1958 **Municipal Journal**, 1947
