Reception Of Swift In Europe:

The Reception of Jonathan Swift in Europe Hermann J. Real, 2005-07-31 Jonathan Swift has had a profound impact on almost all the national literatures of Continental Europe The celebrated author of acknowledged masterpieces like *A Tale of a Tub* 1704 *Gulliver's Travels* 1726 and *A Modest Proposal* 1729 the Dean of St Patrick's Dublin was courted by innumerable translators adaptors and retellers admired and challenged by shoals of critics and creatively imitated by both novelists and playwrights not only in Central Europe Germany and Switzerland but also in its northern Denmark and Sweden and southern Italy Spain and Portugal outposts as well as its eastern Poland and Russia Hungary Romania and Bulgaria and Western parts from the beginning of the eighteenth century to the present day

Systematically Analysing Indirect Translations James Luke Hadley, 2023-05-11 This volume applies digital humanities methodologies to indirect translations in testing the concatenation effect hypothesis The concatenation effect hypothesis suggests that indirect translations tend to omit or alter identifiably foreign elements and also tend not to identify themselves as translations The book begins by introducing the methodological framework to be applied in the chapters that follow and providing an overview of the hypothesis The various chapters focus on specific aspects of the hypothesis that relate to specific linguistic stylistic and visual features of indirect translations These features provide evidence that can be used to assess whether and to what extent the concatenation effect is in evidence in any given example The overarching aim of the book is not to demonstrate or falsify the veracity of the concatenation effect hypothesis or to give any definitive answers to the research questions posed Rather the aim is to pique the curiosity and provoke the creativity of students and researchers in all areas of translation studies who may never have considered indirect translation as relevant to their work

Volume 16, Tome II: Kierkegaard's Literary Figures and Motifs Katalin Nun, Jon Stewart, 2016-12-05 While Kierkegaard is perhaps known best as a religious thinker and philosopher there is an unmistakable literary element in his writings He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians but at the same time it has made their interpretation more complex Kierkegaard readers are generally aware of his interest in figures such as Faust or the Wandering Jew but they rarely have a full appreciation of the vast extent of his use of characters from different literary periods and traditions The present volume is dedicated to the treatment of the variety of literary figures and motifs used by Kierkegaard The volume is arranged alphabetically by name with Tome II covering figures and motifs from Gulliver to Zerlina

Britain and Italy in the Long Eighteenth Century Rosamaria Loretti, Frank O'Gorman, 2010-02-19 The essays in this collection range across literature aesthetics music and art and explore such themes as the dynamics of change in eighteenth century aesthetics time modernity and the picturesque the function of graphic ornaments in eighteenth century texts imaginary voyages as a literary genre the genesis of children's literature the Italian opera and musical theory in France

Burney's novels Italian and British art theories and patterns of cultural transfers and of book circulation between Britain and Italy in the eighteenth century Collectively they epitomise the concerns and approaches of scholars working on the long eighteenth century at this challenging and exciting time In the absence of universally agreed overarching interpretations of the cultural history of the long eighteenth century these papers pave the way for the ultimate emergence of such explanations Authors discussed here include Margaret Cavendish David Russen Francis Hutcheson Reverend Gilpin Samuel Richardson Henry Fielding Laurence Sterne Dugald Stewart Dorothy Kilner Frances Burney Anna Gordon Brown Saverio Bettinelli Henry Ince Blundell Francesco Algarotti Ugo Foscolo and Francesco Domenico Guerrazzi

The Afterlives of Eighteenth-Century Fiction Daniel Cook, Nicholas Seager, 2015-09-29 The Afterlives of Eighteenth Century Fiction probes the adaptation and appropriation of a wide range of canonical and lesser known British and Irish novels in the long eighteenth century from the period of Daniel Defoe and Eliza Haywood through to that of Jane Austen and Walter Scott Major authors including Jonathan Swift Samuel Richardson Henry Fielding and Laurence Sterne are discussed alongside writers such as Sarah Fielding and Ann Radcliffe whose literary significance is now increasingly being recognised By uncovering this neglected aspect of the reception of eighteenth century fiction this collection contributes to developing our understanding of the form of the early novel its place in a broader culture of entertainment then and now and its interactions with a host of other genres and media including theatre opera poetry print caricatures and film

Translation in Anthologies and Collections (19th and 20th Centuries) Teresa Seruya, Lieven D'huylst, Alexandra Assis Rosa, Maria Lin Moniz, 2013-08-29 Among the numerous discursive carriers through which translations come into being are channeled and gain readership translation anthologies and collections have so far received little attention among translation scholars either they are let aside as almost ungraspable categories astride editing and translating mixing in most variable ways authors genres languages or cultures or are taken as convenient but rather meaningless groupings of single translations This volume takes a new stand makes a plea to consider translation anthologies and collections at face value and offers an extensive discussion about the more salient aspects of translation anthologies and collections their complex discursive properties their manifold roles in canonization processes and in strategies of cultural censorship It brings together translation scholars with different backgrounds both theoretical and historical and covering a wide array of European cultural areas and linguistic traditions Of special interest for translation theoreticians and historians as well as for scholars in literary and cultural studies comparative literature and transfer studies

Utopia and Its Discontents Sebastian Mitchell, 2020-02-20 Utopia and Its Discontents traces literary representations of ideal communities from Plato to the 21st century Each chapter offers close readings of key

utopian and anti utopian texts to demonstrate how they construct challenge and explore the ideas and forms of earlier utopian writings and the social and political ideals of their own periods In this original and insightful study Sebastian Mitchell demonstrates how literary utopias are often as much about the past as they are about the present and the future Utopia and Its Discontents concludes by arguing against the idea that the utopian has been eclipsed by the dystopian in contemporary culture Topics covered include Early political and philosophical authors such as Plato and Thomas More Literary works from Jonathan Swift s Gulliver s Travels to George Orwell s Nineteen Eighty Four Speculative fiction writers such as H G Wells Aldous Huxley and Margaret Atwood Ecological and feminist texts by Ernest Callenbach Ursula Le Guin and Marge Piercy Twenty first century utopianism This is an essential study for scholars and students of utopian literature

Globalization in English Studies Maria Giorgieva, Allan James, 2010-02-19 Globalization the concept used to account for the multitude of linkages interconnections and interdependences that currently transcend territorial and sociocultural boundaries in the world has been in the centre of continual controversy over its meaning scope intensity and social significance for post modern societies However whether considered from the narrow angle of current socio economic developments or from the broad perspective of evolutionary processes straddling all spheres of life globalization is generally acknowledged to refer to a complex set of processes of modernization technologization liberalization and integration operationalized through language and in a language shared by all those involved For a number of geo historical socio political economic and technological reasons the language that has firmly established itself as the language of international communication is English As a result Global English takes a primary place in discussions of the effect of globalization on world societies and culture The volume Globalization in English Studies addresses the issue of how globalization impacts upon culture literature language communication and language learning and use policies which are taken to constitute the multiplex disciplinary space of English Studies Written by authors with different language cultural and theoretical backgrounds this collection of eleven chapters throws light on how global and local entities are subtly intertwined refashioned and rescaled in different geo political and sociocultural contexts The book is divided into four parts The first part Globalization in Culture dwells upon the effects of globalization in particular cultural domains and the institutional attempts in some countries at reducing its negative consequences for local practices The second part Globalization in Literature examines the impact of global integration processes on social life In particular it focuses on new developments as the hybridization and technologization of societies that tend to wipe out borders traditionally taken as reference points in building identity and a sense of belonging The third part Globalization in Language Communication focuses on intercultural communication and the opportunities different multi modal settings offer for the the realisation of intertextuality and interdiscursivity Of particular interest is how local people select appropriate and creatively utilize cultural entities designed for global consumption to make them appear as their own The last part Global English and English Language Teaching
