**Bibliographie Linguistique de L'annee 1999** Mark Janse,Hella Olbertz,Sijmen Tol,2003-11-30 Setting out the historical national and religious characteristics of the Italians as they impact on the integration within the European Union this study makes note of the two characteristics that have an adverse effect on Italian national identity cleavages between north and south and the dominant role of family It discusses how for Italians family loyalty is stronger than any other allegiance including feelings towards their country their nation or the EU Due to such subnational allegiances and values this book notes that Italian civic society is weaker and engagement at the grass roots is less robust than one finds in other democracies leaving politics in Italy largely in the hands of political parties The work concludes by noting that EU membership however provides no magic bullet for Italy it cannot change internal cleavages the Italian worldview and family values or the country's mafia dominated power matrix and as a result the underlying absence of fidelity to a shared polity

Italian or European leave the country as ungovernable as ever     *Studium Scribendi* Marie Ledentu,2004 Alors que la notion même de littérature suppose un travail d'écriture et pose le problème du statut de l'écrivain on s'interroge rarement sur les structures mentales que requiert l'acte d'écrire sur l'écrit comme instrument de communication voire d'action sur les ressources de l'écrit Ces questions sont d'une importance toute particulière pour Rome et dans le moment charnière constitué par la fin de la République Comment Rome est-elle passée d'une société largement orale au début de la République à une société où l'on a eu comme le dit Horace la fureur d'écrire Pourquoi certains auteurs ont-ils voulu conserver certaines de leurs œuvres par écrit Comment les Romains ont-ils abandonné un certain dédain à l'égard de l'écrivain pour admettre une véritable gloire littéraire et permettre à l'auteur de se hisser presque au même rang que le magistrat et le chef d'armée Partant du choc culturel qu'a représenté l'ambassade de Carneade en 155 et se poursuivant jusqu'à la fin de l'époque ciceronienne cet ouvrage brosse le tableau des évolutions qui ont connues durant cette période les statuts successifs ou concomitants de l'écrivain et de l'écrit la hiérarchisation des œuvres et des genres la nature du lectorat qui il faut voir comme un co-auteur ou co-acteur de l'œuvre L'étude proposée montre en particulier combien les événements historiques les mutations sociétales l'évolution des mentalités ont modifié le rapport à l'écriture et à l'écrit des auteurs et des lecteurs la manière de concevoir des discours des ouvrages historiques des traités des poèmes et des pièces de théâtre Pour cette enquête les œuvres perdues et les œuvres conservées ont été traitées autant que faire se peut à égalité les analyses

litteraires ont été conjuguées à des analyses sociologiques et historico politiques qui intéresseront au-delà des spécialistes de littérature antique de philologie d'histoire romaine un public large d'étudiants de Lettres et d'Histoire ancienne. Il convient de lire cet ouvrage non comme une histoire de la littérature latine qui viendrait s'ajouter à tant d'autres mais comme une histoire des écrivains qui ont fait dans les deux derniers siècles de la République la littérature écrite et ont été les acteurs d'une véritable révolution culturelle

### **Création lexicale : la formation des noms par dérivation suffixale**

Chantal Kircher-Durand, 2002

**Recherches sur aura** Armelle Deschard, 2003 On dit couramment en français de quelqu'un qu'il a une aura quand il se laisse remarquer par son charisme. La langue des sciences occultes en a fait une sorte de halo lumineux émanant de l'être. Mais pour le latiniste aura c'est le plus souvent l'air en mouvement, la brise du vent. Comment en est-on arrivé là? Cet ouvrage part à la recherche des emplois qui progressivement ont pu charger de mystère le contenu du mot Aura. Renvoie tout d'abord à une substance aérienne qui n'est ni le vent ni l'air mais une vapeur émanée de l'eau, une matière animée dans l'atmosphère terrestre en somme de l'air en mouvement. A partir de ce cœur sémantique relativement simple, les contextes différents les trouvailles des poètes augustéens, l'évolution des idées philosophico religieuses font varier le contenu sémantique au gré des emplois. Aura se fait brise marine douce et bienfaisante. Surtout l'air s'élève, il devient espace divin, atmosphère céleste, lumière divine. L'étude des métaphores qui renvoient tantôt à une douceur salvatrice confirme la souplesse du contenu. On ne saurait d'autre part minimiser l'importance des représentations figurées grecques dans cet enrichissement progressif. Ces jeunes femmes ornées d'un voile concave rempli de l'aura qui les souleve de terre fortifient la naissance dans la littérature latine de personnifications de l'air agité. A la faveur du changement dans les idées de marines qu'elles étaient, ces auxiliaires divines deviennent émissaires du ciel. L'attribut des Aurae uelifantes sua ueste marque les représentations d'autres personnages. Il est possible qu'il ait servi de symbole pour souligner l'initiation ou l'héroïsation. Aura. Le mot charme par ses sonorités par le trouble qui l'entoure de nos jours encore. Il a une longue histoire d'Homère à nos jours. Cet ouvrage suit sa trace à travers un corpus important grec et surtout latin et tente de montrer comment, à partir d'un cœur sémantique relativement simple, l'air en mouvement, le contenu s'est chargé d'ambiguité et même de mystère.

**Sortition and Democracy** Liliane Lopez-Rabatel, Yves Sintomer, 2020-02-10

After two centuries during which it had nearly disappeared in Western countries sortition is used again as a method of selecting people who could speak for and in certain cases decide for all the citizenry. What is the meaning of this comeback? To answer this question this book offers a historical analysis. It brings together a number of the best specialists on political sortition from antiquity to contemporary experiments in Europe but also in the Ancient Middle East and in imperial China. With a transdisciplinary perspective this volume demonstrates that sortition has been a crucial device in political history that the instruments and places where sortition was practised matter for the

understanding of the social and political logics at stake and that these logics have been quite different random selection being sometimes an instrument of radical democracy and in other contexts a tool for solving conflicts among elites Will sortition in politics helps to democratize democracy in the twenty first century
