**The Selected Works of Margaret Oliphant, Part I**

**Volume 2** Joanne Wilkes, 2024-05-31 Margaret Oliphant 1828-97 had a prolific literary career that spanned almost fifty years. She wrote some 98 novels, fifty or more short stories, twenty-five works of non-fiction including biographies and historic guides to European cities and more than three hundred periodical articles. This is the most ambitious critical edition of her work. **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1978 *Idaho's Place* Adam

M. Sowards, 2014-07-01 *Idaho's Place* is an anthology of the most current and original writing on Gem State history. From the state's indigenous roots and early environmental battles to recent political and social events, these essays provide much needed context for understanding Idaho's important role in the development of the American West. Through a creative approach that combines explorations of concepts such as politics, gender, and race with the oral histories of Idaho residents—the very people who lived and made state history—this unique collection sheds new light on the state's surprisingly contentious past. Readers, whether they are longtime residents or newcomers, tourists or seasonal dwellers, policy makers or historians, will be treated to a rich narrative in which the many threads of Idaho's history entwine to produce a complete tapestry of this beautiful and complex Western state. **Wild Yosemite** Susan M. Neider, 2015-06-16 An ideal gift for lovers of nature, this beautiful literary collection explores the spectacular natural features of Yosemite through the eyes of some of America's most notable and extraordinarily talented writers. In 1851, Lafayette Bunnell chronicled his travels with the Mariposa Battalion, the first non-natives to visit Yosemite Valley. Following in his footsteps, Theodore Roosevelt, Ralph Waldo Emerson, Mark Twain, Clarence King, Frederick Law Olmsted, Joaquin Miller, and Horace Greeley made their pilgrimages and were moved to recount their observations. Included here as well is the work of John Muir, founder of the Sierra Club, whose love for Yosemite led to the establishment of Yosemite National Park in 1890. This lyrical book is a literary tribute to Yosemite's gorgeous landscape. A great companion for those who love to travel and revel in the unique natural beauty of the great American West, *Wild Yosemite* will transport you in spirit to the heart of the Sierra Nevada, where you'll experience the canyons, the cliffs, the pines, the mountain air, and the panoramic grandeur of Yosemite National Park. **Selected English**

**The Selected Works of Andrew Lang** Andrew Lang, When the learned first gave serious attention to popular ballads from the time of Percy to that of Scott, they laboured under certain disabilities. The Comparative Method was scarcely understood and was little practised. Editors were content to study the ballads of their own countryside or at most of Great Britain. Teutonic and Northern parallels to our ballads were then adduced as by Scott and Jamieson. It was later that the ballads of Europe from the Faroes to Modern Greece were compared with our own, with European, with children's tales, and with the popular songs, dances, and traditions of classical and

savage peoples The results of this more recent comparison may be briefly stated Poetry begins as Aristotle says in improvisation Every man is his own poet and in moments of strong emotion expresses himself in song A typical example is the Song of Lamech in Genesis I have slain a man to my wounding And a young man to my hurt Instances perpetually occur in the Sagas Grettir Egil Skarphedin are always singing In Kidnapped Mr Stevenson introduces The Song of the Sword of Alan a fine example of Celtic practice words and air are beaten out together in the heat of victory In the same way the women sang improvised dirges like Helen lullabies like the lullaby of Danae in Simonides and flower songs as in modern Italy Every function of life war agriculture the chase had its appropriate magical and mimetic dance and song as in Finland among Red Indians and among Australian blacks The deeds of men were chanted by heroes as by Achilles stories were told in alternate verse and prose girls like Homer's Nausicaa accompanied dance and ball play priests and medicine men accompanied rites and magical ceremonies by songs These practices are world wide and world old The thoroughly popular songs thus evolved became the rude material of a professional class of minstrels when these arose as in the heroic age of Greece A minstrel might be attached to a Court or a noble or he might go wandering with song and harp among the people In either case this class of men developed more regular and ample measures They evolved the hexameter the laisse of the Chansons de Geste the strange technicalities of Scandinavian poetry the metres of Vedic hymns the choral odes of Greece The narrative popular chant became in their hands the Epic or the mediaeval rhymed romance The metre of improvised verse changed into the artistic lyric These lyric forms were fixed in many cases by the art of writing But poetry did not remain solely in professional and literary hands The mediaeval minstrels and jongleurs who may best be studied in Lafont's Introduction to his Epopees Francaises sang in Court and Camp The poorer less regular brethren of the art harped and played conjuring tricks in farm and grange or at street corners The foreign newer metres took the place of the old alliterative English verse But unprofessional men and women did not cease to make and sing The Literature of Idaho James H. Hinsley, Francis Harry Hinsley, 1967-10 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men s efforts to avoid it In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War
