Longman Geography 9 Queensland Outcomes:

Longman Geography ICSE 9 Duggal, Cultural Landscapes and Environmental Change Lesley Head, 2017-09-25
Cultural landscapes are usually understood within physical geography as those transformed by human action. As human influence on the earth increases, advances in palaeocological reconstruction have also allowed for new interpretations of the evidence for the earliest human impacts on the environment. It is essential that such evidence is examined in the context of modern trends in social sciences and humanities. This stimulating new book argues that convergence of the two approaches can provide a more holistic understanding of long term physical and human processes. Split into two major sections, this book attempts to bridge the gap between the sciences and humanities. The first section provides an analysis of the methodological tools employed in examining processes of environmental change. Empirical research in the fields of palaeocology and Quaternary studies is combined with the latest theoretical views of nature and landscape occurring in cultural geography, archaeology and anthropology. The author examines the way in which environmental management decisions are made. The book then moves on to discuss the relevance of this perspective to contemporary issues through a wide variety of international case studies including World Heritage protection, landscape preservation, indigenous people and cultural tourism. *The Geography of Tourism and Recreation* C. Michael Hall, Stephen J. Page, C. Michael Hall, 2003-09-02
The Geography of Tourism and Recreation presents the first comprehensive introduction to tourism, leisure and recreation and the relationships between them. This accessible text includes a wealth of international case studies spanning Europe, North America, Australasia and China. Each chapter highlights the methods used by geographers to analyse recreation and tourism. It also introduces new perspectives from gender studies and postmodernism and examines key issues including the demand and supply of recreation and tourism, the role of public policy, planning and management, the impact of tourism and recreation on urban, rural, mountain and coastal environments, tourism and recreation in wilderness areas and other peripheral regions. The use of student text features makes it ideal for course use. *Proceedings and Transactions of the Queensland Branch of the Geographical Society of Australasia*, 1986 *Australian Books in Print 1999* K G Saur Books, 1999-04
Excellent coverage essential to worldwide bibliographic coverage. *American Reference Books Annual*. This comprehensive reference provides current finding information on more than 123 000 in print books published in Australia. You will also find brief profiles of more than 12 000 publishers, distributors, whose titles are represented as well as information on trade associations, local agents of overseas publishers, literary awards more. From Thorpe **The Geography of Tourism and Recreation** Colin Michael Hall, Stephen Page, 2006
This text, now in its fully updated third edition, continues to offer a comprehensive synthesis of the key issues associated with tourism, leisure and recreation. **The Geography of Tourism and Recreation**, Australian National Bibliography: 1992 National Library of Australia, 1988 The Spectator, 1863 **Australian national bibliography**, 1961 *Memoirs of the Queensland Museum*, 2001 **The Planning and Evaluation of**
