Keep Looking Up! Leland Maples, 2015-11-10 When I walked into the Big Spring Federal Prison Camp over thirty years ago I had no idea that God was going to change everything about my life I had no burden for inmates I was only going to teach a Bible class in prison because I could not get out of it For six years I drove 120 miles round trip every Friday night for that class The last two years of the six we drove back over on Saturday afternoon after visitation to work with the families It was during this time that the prison system began to expand at a rapid pace When we started into the prison in Big Spring it was the only prison west of Fort Worth in the entire state now we have about forty Men with vision like Don Gibson and Emmett Solomon were busy putting people and programs in place to meet the spiritual need of the largest prison system in the free world Linda and I were the greenest of all the volunteers Thank God the good ones took us under their wings and taught us

Birth of the State Charlotte Epstein, 2020-11-12 This book uses the body to peel back the layers of time and taken for granted ideas about the

two defining political forms of modernity the state and the subject of rights It traces under the lens of the body how the state and the subject mutually constituted each other all the way down by going all the way back to their original crafting in the seventeenth century It considers two revolutions The first scientific threw humanity out of the centre of the universe and transformed the very meanings of matter space and the body while the second legal and political re established humans as the centre point of the framework of modern rights The book analyses the fundamental rights to security liberty and property respectively as the initial knots where the state subject relation was first sealed It develops three arguments that the body served to naturalise security to individualise liberty and to privatise property Covering a wide range of materials from early modern Dutch painting to the canon of English political thought the Anglo Scottish legal struggles of naturalization and medical and religious practices it shows both how the body has operated as history s great naturaliser and how it can be mobilised instead as a critical tool that lays bare the deeply racialised and gendered constructions that made the state and the subject of rights The book returns to the origins of constructivist and constitutive theorising to reclaim their radical and critical potential
