The Call of Nursing William B. Patrick,2013-05-30 *The Call of Nursing* is not a typical book about nurses It takes us behind the curtain of silence that often hangs between us the patients who rely on the health care system and the women and men who form the backbone of that system and who are entrusted with our intimate care It lets us hear why nurses today do what they do and it allows those nurses to show us in their own words what has mattered most to them in their professional careers The twenty three intimate self portraits in *The Call of Nursing* help us see more clearly the kinds of challenges nurses face and accept on a routine basis and offer a rare glimpse into lives of women and men committed to care and service Foreword Magazine 2013
