Man Who Loved Bicycles:

The Man who Loved Bicycles Daniel Behrman, 1973 The Self-Propelled Voyager Duncan R. Jamieson, 2015-09-03
Before the last quarter of the nineteenth century people who wanted to travel independently either walked or rode horses. Then a newly invented machine changed forever the nature of personal transportation. The cycle self-propelled bicycles, tricycles, and tandems allowed almost anyone to travel around town, around their region, and around the world. While dramatic developments in equipment, clothing, road surfaces, and amenities make the physicality of cycling much different from the earlier era, the experience of cycling has seen little change. *The Self-Propelled Voyager: How the Cycle Revolutionized Travel* recounts how a transportation innovation opened the world for not only those who made the journey but also for the armchair travelers who read with interest the cyclists' accounts of faraway places. Following a brief history of the development of the cycle, this book describes the exploits of long distance riders who wrote of their experiences, their triumphs, and their tragedies. Duncan R. Jamieson chronicles their journeys, their personal stories, and the times in which they lived, revealing that despite the continuing rise and fall of cycling interest, people continue to enjoy traveling in the slow lane. Drawing on books and articles by the women and men who rode and wrote of their travels, *The Self-Propelled Voyager* also features photographs from the 1880s up to the modern day illustrating the development of the cycle through history. Accessibly written yet comprehensive in its coverage, this book will interest not only the cycling enthusiast but historians focusing on sport and sport tourism as well. *Words to Ride By*, 2017-05-09 Notable luminaries throughout history have been inspired and humbled by the simple joy of riding a bicycle. For centuries, this powerful connection between people and bikes has driven humans forward as inventors, travelers, and thinkers. From Susan B. Anthony and Mark Twain to Eddy Merckx and Greg LeMond, collected here are entertaining, inspiring, and philosophical thoughts about cycling from writers and riders reflecting on the pleasures, power, and freedom of the bicycle. With beautiful black and white photos and illustrations on every spread, this elegant collection of quotations is sure to motivate anyone to get on their bike and enjoy the ride. Traffic Safety and Human Behavior David Shinar, 2017-06-22 This comprehensive 2nd edition covers the key issues that relate human behavior to traffic safety. In particular, it covers the increasing roles that pedestrians and cyclists have in the traffic system, the role of infotainment in driver distraction, and the increasing role of driver assistance systems in changing the driver-vehicle interaction. *Different Like Me* Jennifer Elder, Marc Thomas, 2005 Profiles twenty famous individuals who may have been autistic, including Albert Einstein, Andy Warhol, Dian Fossey, and Glen Gould. **Contemporary Anarchist Studies** Randall Amster, Abraham DeLeon, Luis Fernandez, Anthony J. Nocella, II, Deric Shannon, 2009-02-10 This book highlights the recent rise in interest in anarchist theory and practice, attempting to bridge the gap between anarchist activism on the streets and anarchist studies in the academy. Bringing together some of the most prominent voices in contemporary anarchism in the academy, it includes pieces written on anarchist theory, pedagogy, methodologies, praxis, and the future.
