Man Of Feeling With The Story Of La Roch:

The Man of Feeling ... Henry Mackenzie,1777? The Making of the Sympathetic Imagination Roman Alexander Barton,2020-07-20 How is it that we feel with fictional characters and so approve or disapprove of their actions For many British Enlightenment thinkers writing at a time when sympathy was the pivot of ethics as well as poetics this question was crucial Asserting that the notion of the sympathetic imagination prominent in Romantic criticism and poetry originates in Moral Sentimentalism this study traces the emergence of what became a key concept of intersubjectivity It shows how contrary to earlier traditions Francis Hutcheson and his disciples successively established the imagination rather than reason as the pivotal faculty through which sympathy is rendered morally effective Writing at the interface of ethics and poetics Adam Smith Lord Kames and others explored the sympathetic imagination as a means of both explaining emotional reader response and discovering moral distinctions As a result the sentimental novel became the sight of ethical controversy Arguing against the dominant view of research which claims that the novel of sensibility is mostly uncritically sentimental the book demonstrates that it is precisely in this genre that the sympathetic imagination is sceptically assessed in terms of its literary and moral potential **Austen After 200** Kerry Sinanan,Annika Bautz,Daniel Cook,2022-11-24 Austen After 200 explores our contemporary relationship with Jane Austen in the wake of the bicentenaries of her death and the first publication of her novels The volume begins by looking at Austen s popular appeal and at how she is consumed today in diverse cultural venues such the digisphere blogosphere festivals and book clubs It then offers new approaches to the novels within various critical contexts including adaptation studies fan fiction intertextuality and more Collecting these new essays in one volume enables a unique view of the crossovers and divergences in engagements with Austen in different settings and will help a comparative approach between the popular and the academic to emerge more fully in Austen studies The book gathers insights from a range of contributors invested in new reading spaces in order to show the creative ways in which we are all adapting as we continue to read Austen s works **The Man of Feeling, with The Story of La Roche** Henry Mackenzie (Author of The Man of Feeling.),1803 *Cyclopædia of English Literature* Robert Chambers,1856

Literature written by women in German during the period long known patriarchally as the Age of Goethe was largely lumped in with other unserious or artistically unworthy works under the category Trivialliteratur literally trivial literature Using insights from Gender Studies yet acknowledging the need for a literary canon Great Books by German Women offers a critical interpretation of six canon worthy German novels written by women in the period for which it coins the term Age of Emotion The novels are chosen because they depict women s ordinary yet interesting lives and equally because each displays formal strengths that yield prose particularly able to express emotion The first Sophie von La Roche s *Die Geschichte des Fr auleins von Sternheim* The History of Lady von Sternheim draws on the tradition of the epistolary novel while also finding new ways to depict empathetic emotions The second Friederike Unger s *Julchen Gr unthal* brings to the Frauenroman or women s novel the use of irony to portray a heroine s emotions during her coming of age The next novels add lyricism to their prose to capture sensual emotions Sophie Mereau s *Bl utenalter der Empfindung* The Blossoming of Feeling imagines women s affinity for the philosophical sublime while Caroline Wolzogen depicts female desire in her *Agnes von Lilien* The fifth novel *Die Honigmonathe* The Honeymoon by Karoline Fischer explores the agony that extreme emotions cause not only for women but also for men The last novel Caroline Pichler s *Frauenw urde* The Dignity of Women expands the focus from a young heroine to multiple mature characters while maintaining the centrality of women s talents and emotions Finally this study accords honorable mention to some other women s novels before concluding that the influence of these six works was in no way trivial either in portraying women s lives and emotions or in the history of German literature **The British Library General Catalogue of Printed Books to 1975** British Library, 1983
