Man Ray Photography Inside Out:

Laszlo Moholy-Nagy Louis Kaplan, 1995-05-24 Marking the centenary of the birth of Laszlo Moholy Nagy 1895 1946 this book offers a new approach to the Bauhaus artist and theorist's multifaceted life and work an approach that redefines the very idea of biographical writing In Laszlo Moholy Nagy Louis Kaplan applies the Derridean deconstructivist model of the signature effect to an intellectual biography of a Constructivist artist Inhabiting the borderline between life and work the book demonstrates how the signature inscribed by Moholy operates in a double space interweaving signified object and signifying matter autobiography and auto graphy Through interpretative readings of over twenty key artistic and photographic works Kaplan graphically illustrates Moholy's signature effect in action He shows how this effect plays itself out in the complex of relations between artistic originality and plagiarism between authorial identity and anonymity as well as in the problematic status of the work of art in the age of technical reproduction In this way the book reveals how Moholy's artistic practice anticipates many of the issues of postmodernist debate and thus has particular relevance today Consequently Kaplan clarifies the relationship between avant garde Constructivism and contemporary deconstruction This new and innovative configuration of biography catalyzed by the life writing of Moholy Nagy will be of critical interest to artists and writers literary theorists and art historians

Inside/Outside Islamic Art and Architecture Saygin Salgirli, 2021-07-29 When we walk into a gallery we have a fairly good idea where the building begins and ends and inside while observing a painting we are equally confident in distinguishing between the painting proper and its frame and borders Yet things are often more complicated A building defines an exterior space just as much as an interior and what we perceive to be ornamental and marginal to a given painting may in fact be central to what it represents In this volume a simple question is presented instead of dichotomous separations between inside and outside or exterior and interior what other relationships can we think of The first book of its kind to grapple with this question Inside Outside Islamic Art and Architecture focuses on a wide spectrum of mediums and topics including painted manuscripts objects architectural decoration architecture and urban planning and photography Bringing together scholars with diverse methodologies who work on a geographical span stretching from India to Spain and Nigeria and across a temporal spectrum from the thirteenth to the twenty first century this original book also poses engaging questions about the boundaries of the field

Seven Dada Manifestos and Lampisteries Tristan Tzara, 2018-06-21 This volume contains Tristan Tzara's famous manifestos which first appeared between 1916 and 1921 and became essential texts of the modern movement and models for Breton's Surrealist manifestos Art for Tzara was both deadly serious and a game and the playfulness of his character is apparent not only in his polemic which often uses dadaist typography but in the delightful drawings contributed by Francis Picabia In addition this volume also contains Tzara's Lampisteries articles that throw light on various art forms contemporary with his own work at a time when art weary of the old certainties turned into subjective and often abstract forms favouring the reality of the mind over
