This compilation from the books of Alice Bailey seeks to increase understanding of the immortal soul addressing many aspects under sixty two headings
The creative nature of the Soul On its own plane the soul knows no separation and the factor of synthesis governs all soul relations
The soul is occupied not only with the form that the vision of its objective may take but with the quality or the meaning which that vision veils or hides
The soul knows the Plan its form outline methods and objective are known
Through the use of the creative imagination the soul creates it builds thought forms on the mental plane and objectifies desire on the astral plane
It proceeds then to externalise its thought and its desire upon the physical plane through applied force creatively actuated by the imagination of the etheric or vital vehicle
Yet because the soul intelligence motivated by love it can within the realised synthesis which governs its activities analyse discriminate and divide
The soul likewise aspires to that which is greater than itself and reaches out to the world of divine ideas and thus itself occupies a midway position between the world of ideation and the world of forms
This is its difficulty and its opportunity Sartor Resartus, and On Heroes, Hero-Worship, and the Heroic in Thomas Carlyle, 2018-09-20
