Alone Together Robert B. Edgerton, 2023-11-15 In *Alone Together* Social Order on an Urban Beach the focus is on the social dynamics and unwritten rules governing interactions at Southland Beach a popular urban Southern California beach With millions of visitors each year Southland Beach draws a diverse crowd including locals tourists and people from various socio economic backgrounds all converging in close quarters Despite the potential for conflict due to its dense and varied population the beach generally remains a peaceful and enjoyable place The study explores how beachgoers navigate personal space behavior expectations and the presence of authority figures like lifeguards and police often creating an unspoken order among themselves Southland Beach has evolved from a space primarily frequented by beach people locals with a deep connection to the beach to an urban attraction visited by millions The research examines how strangers from different backgrounds manage to coexist in a shared space where typical urban concerns like distrust and social fragmentation could easily lead to conflict The study explores whether the beach can maintain its reputation as a haven for relaxation and leisure given its transformation into a microcosm of city life with all its potential challenges Factors like limited clothing proximity and occasional substance use could introduce tension yet a unique often implicit social structure keeps interactions largely harmonious The book aims to analyze this balance between enjoyment and potential disorder questioning how a community of strangers can coexist so closely without formalized rules The study applies insights from sociology and anthropology to understand the beachgoers shared practices revealing how informal norms and individual expectations of behavior contribute to a functional if fragile social order Through observation and interviews the research delves into the varying roles of lifeguards police and beachgoers themselves in shaping and maintaining this social environment illuminating the intricate yet resilient order that defines life on Southland Beach This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1979 **Together Alone** Calvin Morrill, David A. Snow, Cindy White, 2023-09-01 Exploring locales such as city streets bus stops parking lots bars retail establishments and discussion groups *Together Alone* ventures into what is often thought of as the realm of passing strangers to examine the nature of personal relationships conducted in public spaces While most studies of social interaction have gone behind closed doors to focus on relationships in the family school and workplace this innovative collection pushes the boundaries of the field by analyzing both fleeting and anchored relationships in the seldom studied communal areas where much of contemporary life takes place The contributors shed light on the diversity and character of day to day negotiations in public spaces and at the same time illuminate how these social ties paradoxically blend aspects of durability and brevity of emotional closeness and distance of being together and alone Exploring locales such as city streets bus stops
