Manabozhos Gifts Three Chippewa Tales:

The Story of the Chippewa Indians Gregory O. Gagnon, 2018-11-26 This single volume book provides a narrative history of the Chippewa tribe with attention to tribal origins achievements and interactions within the United States Unlike previous works that focus on the relationships of the Chippewa with the colonial governments of France Great Britain and the United States this volume offers a historical account of the Chippewa with the tribe at its center The volume covers Chippewa history chronologically from about 10 000 BC to the present and is geographically comprehensive detailing Chippewa history as it occurred in both Canada and the United States from the Great Lakes to Montana to adjacent Canadian provinces Written by a Chippewa scholar the book synthesizes key scholarly contributions to Chippewa studies through the author's own interpretive framework and tells the history of the Chippewa as a story that encompasses the culture's traditions and continued tenacity It is organized into chronological chapters that include sidebars and highlight notable figures for ease of reference and a timeline and bibliography allow readers to identify causal relationships among key events and provide suggestions for further research

Emergent U.S. Literatures Cyrus Patell, 2014-11-07 *Emergent U S Literatures* introduces readers to the foundational writers and texts produced by four literary traditions associated with late twentieth century US multiculturalism Examining writing by Native Americans Hispanic Americans Asian Americans and gay and lesbian Americans after 1968 Cyrus R K Patell compares and historicizes what might be characterized as the minority literatures within U S minority literature Drawing on recent theories of cosmopolitanism Patell presents methods for mapping the overlapping concerns of the texts and authors of these literatures during the late twentieth century He discusses the ways in which literary marginalization and cultural hybridity combine to create the grounds for literature that is truly emergent in Raymond Williams's sense of the term literature that produces new meanings and values new practices new relationships and kinds of relationships in tension with the dominant mainstream culture of the United States By enabling us to see the American literary canon through the prism of hybrid identities and cultures these texts require us to reevaluate what it means to write and read in the American grain *Emergent U S Literatures* gives readers a sense of how these foundational texts work as aesthetic objects rather than merely as sociological documents crafted in dialogue with the canonical tradition of so called American Literature as it existed in the late twentieth century as well as in dialogue with each other
