Management and Investment on Estates in Roman Egypt During the Early Empire Dennis P. Kehoe, 1992

Vilici and Roman Estate Managers Until AD 284 Jesper Carlsen, 1995 **Hellenistic and Roman Egypt** Roger S.

Bagnall, 2024-12-11 This second collection by Roger Bagnall brings together a further two dozen of his studies this time covering Hellenistic Roman and Byzantine Egypt published over the last thirty years Many of the articles deal with issues of historical and papyrological method the restoration of papyrus texts the direction of archaeological work in Egypt economic models for Roman Egypt the usefulness of postcolonial theory and approaches to the defective literary tradition for the Library of Alexandria Others concentrate on particular bodies of evidence ranging from inscriptions to ascetic literature from registers to women's letters **Roman Rule and Jewish Life** Hannah M. Cotton, 2022-03-07 Hannah M Cotton's collected papers focus on questions which have fascinated her for over four decades the concrete relationships between law language administration and everyday life in Judaea and Nabataea in particular and in the Roman world as a whole Many of the papers especially those devoted to the Judean Desert documents of the 2nd century CE have been widely cited Others having appeared in less accessible publications may not have received the attention they deserve On the whole rather than addressing the grand narratives of world or national history they look at the texture of life seeking to provide tentative answers to historical questions and interpretations by paying fine attention to the details of literary and especially documentary evidence Taken together they illuminate fundamental often legal questions concerning daily life and the exercise of Roman rule and administration in the early imperial period and especially their impact on life as it was lived in the province and the period where Roman and Jewish history fatefully intersected The volume includes a complete bibliography of her publications Capital, Investment, and Innovation in the Roman World Paul Erdkamp, Koenraad Verboven, Arjan Zuiderhoek, 2020 Investment in capital and innovation in its uses are often considered the linchpin of modern economic growth but has this always been so This volume aims to shed new light on the ancient Roman economy in the first book length contribution focusing on the allocation and uses of capital and credit and the role of innovation in the Roman world *Capital in Classical Antiquity* Max Koedijk, Neville Morley, 2022-07-26 This book discusses the extent to which Thomas Piketty's work can offer a model for ancient economic history both methodologically and politically The book derives from a research workshop in Berlin in April 2018 which brought together a group of established and early career scholars to discuss the implications of Piketty's work and related themes for classical antiquity Key questions reflected in the text include d How should we characterise the development of the economy economies of the classical Mediterranean in relation to the role of capital and the prevalence of inequality How was wealth both public and private evaluated and managed How much of the wealth of their society did the ancient 1% control and is their dominance better understood in terms of the power of capital or the role of predation and state capture How far did certain ancient polities above all the Greek city states

succeed in placing limits on the power of the rich and integrating their interests with those of the masses Did inequality increase between the height of the Roman Principate and late antiquity as is often believed This book will be valuable reading for academics and students working in economic history ancient history and other related fields **Money in Imperial Rome** Merav Haklai, 2025-05-31 Money in Imperial Rome offers an in depth examination of the institutional framework within which money operated as an economic agent in the Roman empire emphasising its systemic complexity Analyses focus on classical Roman law as reflected in the writings of Roman jurists from the second and early third centuries AD The legal sources are augmented with documentary materials which give independent evidence of actual practice and with Jewish legal sources which give evidence of a separate contemporary legal tradition The work promotes Keynesian claims for the endogenous nature of money and adopts approaches advanced by new institutional economics NIE while its innovative contribution is in suggesting a complexity oriented approach to understanding the conceptual framework that dictated the use of money in private transactions Money is a complex phenomenon in the sense that it allows for new patterns of activity to be created by individuals who adjust their use of it to the continuously evolving system in which they operate The book is divided into four parts The first part is introductory The second part traces a line of thought consistent in legal developments that regulated exchange which perceived money as a unique phenomenon different from all other items therefore specific rules were applied to money and a special role was allocated to it in defining the status of the parties This is detectable for price pretium in the Roman contract for sale emptio venditio remuneration merces in the Roman contract for lease and hire locatio conductio and Jewish legal rules regarding sales conducted via a mode of acquisition known as acquisition by drawing qinyan meshikha The third part examines money as a financial tool It observes the various innovative ways Romans used the instrument of interest Then follows a discussion of regulations regarding interest bearing deposits its flexible application by individuals and the interconnected dynamics within and between three legal traditions operating under Roman regime Roman Jewish and Egyptian Hellenistic laws Investigation then moves to credit money in the Roman world and its capacity to increase the money supply The fourth part offers a summary of the work and some conclusions

Documentary Sources in Ancient Near Eastern and Greco-Roman Economic History Heather D. Baker, Michael Jursa, 2014-08-31 This volume breaks new ground in approaching the Ancient Economy by bringing together documentary sources from Mesopotamia and the Greco Roman world Addressing textual corpora that have traditionally been studied separately the collected papers overturn the conventional view of a fundamental divide between the economic institutions of these two regions The premise is that while controlling for differences texts from either cultural setting can be brought to bear on the other and can shed light through their use as proxy data on such questions as economic mentalities and market development The book also presents innovative approaches to the quantitative study of large corpora of ancient documents The resulting view of the Ancient Economy is much more variegated and dynamic than traditional primitivist views would

allow The volume covers the following topics Babylonian house size data as an index of urban living standards the Old Babylonian archives as a source for economic history Middle Bronze Age long distance trade in Anatolia long term economic development in Babylonia from the 7th to the 4th century BC legal institutions and agrarian change in the Roman Empire papyrological evidence for water lifting technology money circulation and monetization in Late Antique Egypt the application of Social Network Analysis to Babylonian cuneiform archives price trends in the ancient Near East and Mediterranean in the Hellenistic and Roman periods as well as the effects of locust plagues on prices **Roman Egypt** Roger S.

Bagnall,2021-09-09 Egypt played a crucial role in the Roman Empire for seven centuries It was wealthy and occupied a strategic position between the Mediterranean and Indian Ocean worlds while its uniquely fertile lands helped to feed the imperial capitals at Rome and then Constantinople The cultural and religious landscape of Egypt today owes much to developments during the Roman period including in particular the forms taken by Egyptian Christianity Moreover we have an abundance of sources for its history during this time especially because of the recovery of vast numbers of written texts giving an almost uniquely detailed picture of its society economy government and culture This book the work of six historians and archaeologists from Egypt the US and the UK provides students and a general audience with a readable new history of the period and includes many illustrations of art archaeological sites and documents and quotations from primary sources

other in the Roman world **Landuse in the Roman Empire** Jesper Carlsen, Peter Ørsted, Jens Erik Skydsgaard, 1994
 Proceedings of a symposium held in January of 1993 by the Danish Institute in Rome 1993 **Paul as an Administrator of God in 1 Corinthians** John Goodrich, 2012-05-10 This book looks in detail at Paul's description of apostles in 1 Corinthians 4 and 9 as divinely appointed administrators *oikonomoi* and considers what this tells us about the nature of his own apostolic authority John Goodrich investigates the origin of this metaphor in light of ancient regal municipal and private administration initially examining the numerous domains in which *oikonomoi* were appointed in the Graeco Roman world before situating the image in the private commercial context of Roman Corinth Examining the social and structural connotations attached to private commercial administration Goodrich contemplates what Paul's metaphor indicates about apostleship in general terms as well as how he uses the image to defend his apostolic rights He also analyses the purpose and limits of Paul's authority how it is constructed asserted and contested by examining when and how Paul uses and refuses to exercise the rights inherent in his position **Framing the Early Middle Ages** Chris Wickham, 2005-09-22 Wickham argues that only a complex comparative analysis can act as the basis for a wider synthesis **Triangular Landscapes** Katherine Blouin, 2014-07-31 Between the Roman annexation of Egypt and the Arab period the Nile Delta went from consisting of seven branches to two namely the current Rosetta and Damietta branches For historians this may look like a slow process but on a geomorphological scale it is a rather fast one How did it happen How did human action contribute to the phenomenon Why did it start around the Roman period And how did it impact on ancient Deltaic communities This volume reflects on these questions by focusing on a district of the north eastern Delta called the Mendesian Nome The Mendesian Nome is one of the very few Deltaic zones documented by a significant number of papyri To date this documentation has never been subject to a comprehensive study Yet it provides us with a wealth of information on the region's landscape administrative geography and agrarian economy Starting from these papyri and from all available evidence this volume investigates the complex networks of relationships between Mendesian environments socio economic dynamics and agro fiscal policies Ultimately it poses the question of the otherness of the Nile Delta within Egypt and more broadly the Roman Empire Section I sets the broader hydrological documentary and historical contexts from which the Roman period Mendesian evidence stem Section II is dedicated to the reconstruction of the Mendesian landscape while section III examines the strategies of diversification and the modes of valorization of marginal land attested in the nome Finally section IV analyses the socio environmental crisis that affected the nome in the second half of the second century AD Trade, Traders and the Ancient City Helen Parkins, Christopher Smith, 2005-06-20 Trade exchange and commerce touched the lives of everyone in antiquity especially those who lived in urban areas Trade Traders and the Ancient City addresses the nature of exchange and commerce and the effects it had in cities throughout the ancient world from the Bronze Age Near East to late Roman northern Italy Trade Traders and the Ancient City employs the most recent archaeological papyrological epigraphic and literary evidence to
