The Management of Corporate Capital: a Review Article John Fred Weston,1961 *The Management of Corporate Capital Structure* Gerald T. Garvey,1997 Corporate managers exercise discretion over financial as well as investment policies We present a model in which a manager controls the firm s dynamic capital structure in her own interest increasing leverage to fend off takeovers and decreasing leverage to avoid financial distress An increase in the cost of mounting a hostile takeover is shown to induce a substitution of equity for debt finance firms which are protected from takeover are less more likely to increase decrease their leverage and will tend to issue equity rather than debt We test these implications by examining actual financial policies before and after second generation state antitakeover laws became effective As predicted by the model coverage by antitakeover laws sharply reduces the use of debt finance Firms which are not covered by antitakeover laws exhibit no such policy shift **The Management of Corporate Capital** Ezra Solomon (Ed),1964
