## **Management Of High Technology Research And Development:**

Management of High-technology Research and Development John H. Dumbleton, 1986 This is an up to date treatment of the research and development process and the role of R D in the corporation Special attention is given to those problem areas that decrease the effectiveness of a company s R D and solutions to such problems are suggested The author describes the nature of R D in industry the activities that comprise the R D process and the way in which the R D organization fits within the company as a whole Of special interest is the emphasis on the interface between R D the other units of the company and the external environment The book is intended for R D and general managers particularly in industry and will also be suitable as a teaching aid in business schools Each facet of the subject is treated in a self contained way and extensive references are provided in order that each topic may be studied independently

**Management of High-Technology Research and Development** Dumbleton JH., 1986 *Scientists' Impact on Decision-making* Peng Ru, 2016-12-08 With the increasing influence of science and technology S T on socioeconomic life and public affairs there has been a growing demand for S T expertise in today s public decision making The National High Technology Research and Development Program 863 Program involving hundreds of S T experts marked the beginning of a new journey for China s high tech development This book discusses China s S T decision making mechanism with the 863 Program as the central case and scientist influence on public decision making as the focus More importantly it extracts three key elements to analyze the determinative factors behind that influence knowledge value and institutions and proposed a KIV framework of macro analysis The KIV being the first framework to generalize factors that could affect scientists influence on public decision making is of both theoretical significance and innovative value In addition by finding out those factors this book attempts to create a decision making environment conducive to scientists contribution of their knowledge

Zhenghong Chen, 2021-08-28 This book conducts a panoramic study on the history of China's Science and Technology which focuses on the Medium and Long Term Science and Technology Program MLSTP. In general, these Programs have a duration of 5-30 years. This book provides an epochal assessment of the project's conceptual context over the past 60 years. The author shows that the historical evolution and conceptual development of China's MLSTP are the result of an amalgamation of political, economic, and social factors within distinct contemporary contexts. As a national action plan, MLSTP has incorporated many of the factors that go beyond the intentional factors of science and technology. MLSTP is not only a macro vision and blueprint for scientific and technological development; it is also a political act of realizing the national will. While ensuring the MLSTP builds on its great achievements, the author also reflects upon its deficiencies and disadvantages in order to better promote the advancement of science and technology in China. This book comprehensively lays out the historical and theoretical dimensions. Based on a clear vision of historical constructivism, the author has compiled the MLSTP philosophy of different eras into a conceptual framework for this era and used this framework to research and analyze the historical and conceptual evolution of MLSTP. Research on MLSTP is important for an enrichment of contemporary studies in the history of science and the science and technology policy. In 2010, more than 60 years after the establishment of the People's Republic of China, the country had enacted 10 MLSTP programs. This book separates the development of the MLSTP into three different historical eras: the era of economic planning, the era of economic transformation, and the new century. Each historical epoch corresponds to a different MLSTP philosophy concept which enables us to study the conceptual evolution of MLSTP using historical research as our foundation.
