RESISTANCE TO CHANGE - A NEW PERSPECTIVE: A Textbook for Managers Who Plan to Implement a Change Daniela Bradutanu, 2015-09 The intention for this book is to present the resistance to change phenomenon from a new perspective The term resistance is complex and very often misinterpreted Change leaders should adapt their perspectives on this subject and try to see resistance from a positive angle as well By just changing the prospect of analyzing it managers could experience a greater success in implementing new changes and effectively attract more employees onto their side Instead of trying to eliminate or suppress employees resistance managers should rather use their reactions in a positive framework Resistance may be useful as feedback and therefore managers can use it to improve and refine the organizational change process
