Managing Business In Hungary An International Perspective Transition Competitiveness And Economic Growth:

Managing Business in Hungary József Berács, Attila Chikán, 1999 **Társadalom És Gazdaság Közép- És Kelet-Európában**, 1999 **Journal of Economic Literature**, 2007 **Estonia on the Threshold of the European Union** Vello Vensel, 2001 Business Strategies in Transition Economies Michael W. Peng, 1999-09-30

This is the first book to comprehensively summarize and extend cutting strategy research with a focus on transition economies. It provides a readable and refreshing overview for seasoned scholars and executives working in this field as well as valuable insights for newcomers. The book combines theoretical rigor with up to date evidence on a highly relevant topic. Mike Peng is already one of the world's leading strategy and management scholars working on transition and emerging economies and this book adds significantly to his standing. John Child, Guinness Professor of Management Studies, University of Cambridge, England and Visiting Professor of International Management, Tel Aviv University, Israel. The widespread shift from centrally planned to market based economies has been the most profound change in the world economy since World War II. While a great deal of work has examined the broad economic implications of this transition, far less work has examined its implications for firms and managers. In this seminal work, Professor Peng draws on his extensive experience in transition economics together with his knowledge of strategic management to describe how firms in these economies can seize opportunities for growth and success. Jay Barney, Bank One Professor of Corporate Strategy, Ohio State University. A welcome contribution towards our understanding of firm level issues in transition economies. A particular strength is the chapter by chapter consideration of how strategies vary depending on whether one is a state owned enterprise, a privatized firm, an entrepreneurial start up or a foreign investor. Paul Beamish, Royal Bank Professor of International Business, University of Western Ontario, Canada. A comprehensive account of transition economies from a firm strategy perspective. Thoroughly researched and thought provoking, this book is a most valuable tool for both academics and business executives seeking to operate in this promising yet uncertain territory. Oded Shenkar, Ford Motor Professor of Global Management, Ohio State University and Professor of International Management and Tel Aviv University, Israel. Business Strategies in Transition Economies probes into the workings of business strategies in former socialist countries in East Asia, Central and Eastern Europe and the newly independent states of the former Soviet Union which are collectively called transition economies. It provides a rich and in depth understanding of fundamental strategic issues confronted by domestic and foreign firms competing in these newly opened markets. Written by one of the leading scholars in the field, this timely book is comparative, interdisciplinary and relevant. Focusing on firm level issues confronting top executives acting as organizational strategists in transition economies, this book covers business strategies of 1 state owned enterprises, 2 privatized and reformed firms, 3 entrepreneurial start ups and 4 foreign companies. Since transition economies taken together promise to be the world's largest emerging markets in the 21st century, this book will be an invaluable resource for students, scholars and managers seeking a better understanding

of business challenges and opportunities in these markets

Handbook of Research on European Business and Entrepreneurship Leo Paul Dana, 2008 This book is an important contribution to the field of international entrepreneurship it provides a comprehensive account of internationalization strategies adopted by SMEs in a wide range of European countries and by drawing on a number of empirical studies it enriches the theory of SME internationalization with a new theoretical framework that can be useful for understanding the complexity of SME internationalization processes in Europe Julia Korosteleva Thunderbird International Business Review From Andorra to Wales with stops in more than 35 other European countries along the way this comprehensive collection of articles is required reading for scholars interested in international entrepreneurship It provides information on how entrepreneurs and their firms go international from virtually every country in Europe This unique volume permits researchers to compare how the process of entrepreneurial internationalization is affected by differences in culture location technology and other influences within Europe Furthermore the various authors consider a range of theoretically important issues such as cooperation and trust venture capital research and development learning networks and government policy This book serves as an essential departure point from which scholars can embark on their study of international entrepreneurship in Europe Benjamin M Oviatt Georgia State University US This is a timely and interesting book that brings together some of the most insightful contributions on the internationalization of new ventures with an emphasis on the European experiences Assembling some of the best scholars the book offers a distinctively European perspective one that deserves recognition analysis and discussion I applaud the editors for doing such a masterful job in bringing a great group of researchers and ideas together I highly recommend this book for any serious researcher and scholar Shaker A Zahra University of Minnesota US This remarkable book provides valuable contributions on how the process of SMEs internationalization is operating in 37 different European countries Researchers in international entrepreneurship will find new materials for theorization Numerous facets of international business are carefully documented by a great many well known scholars Also given the variety of situations typical of the European small business sector the book may prove to be helpful to small scale entrepreneurs wishing to take steps towards internationalization Overall this coordinate work makes you realize why Europe is so fascinating Jean Jacques Obrecht University Robert Schuman Strasbourg France This unique comparative study of the internationalization of small firms is a milestone in international business research It compares the internationalization strategies of fast growing firms across nearly forty different European countries It shows that the growth trajectories of firms reflect the investing country s geographical location natural resource endowments legal and financial institutions and local culture There are many important new insights to be gained from a careful study of this important new research resource Mark Casson University of Reading UK This unique Handbook illustrates how entrepreneurs across Europe tackle internationalization This timely and important book identifies patterns and builds a theory of international entrepreneurship in Europe The contributors discuss

the performances of SMEs on the road to internationalization Each chapter emphasizes how the process of internationalization of SMEs operates the challenges and opportunities that arise due to each country s specific political and economic situation and their subsequent internationalization performance These processes challenges and performances can be understood through theories of international business and entrepreneurship Although at times these theories cannot fully

Economic Management And Transition Towards A Market Economy: An Asian Perspective Anthony Theng Heng Chin,Hock Guan Ng,1996-10-04 Much attention has been focused in recent years on the transformation of the economies of Eastern and Central Europe and the former Soviet Union However a growing demand for policy advice technical assistance and expertise is also coming from Asian reforming countries such as China Mongolia Vietnam Laos and Cambodia In addition business communities abroad are increasingly interested in exploring investment and marketing opportunities in these reforming countries Such developments are too important to overlook or ignore The transformation of socialist economies towards market based systems entails an unusually wide range of problems Studies of related topics are complicated by the speed of the changes and the lack of clear historical precedents Although the structural features of Asian reforming economies are in important ways different from those of the Eastern European economies all socialist economies share similar fundamental conditions on the eve of economic reform which raise a similar set of reform issues This volume brings together a rich collection of expertise and information in an attempt to shed some light on the transitional process in Asia The contributions are by no means exhaustive However they provide the reader and analyst with an excellent starting point to the problems and prospects which are specific to Asian transforming economies

Bibliographic Guide to Slavic Gale Group,2000-06-09 European Perspectives on Innovation Management Rob Dekkers,Laure Morel,2023-12-30 This book covers European perspectives on innovation management including new product and service development due to the inherent variety of socio economic perspectives and institutional settings in Europe The numerous settings and differing perspectives explored in the chapters exemplify diversity which ultimately leads to enhancing innovation Understanding such unique approaches will enable companies universities and other actors to more effectively create innovative products and services and policy makers to effectively stimulate growth and innovation The fragmented distributed economies in Europe also put a strong focus on internationalisation including innovation management new product and service development even within the internally open market of the European Economic Area *European Perspectives on Innovation Management* will be of help to researchers managers entrepreneurs practitioners and students working on innovation management and practices embedded in national and regional innovation systems thus fostering a more innovative Europe *Regional Development in Central and Eastern Europe* Grzegorz Gorzelak,John Bachtler,Maciej

Smętkowski, 2018-10-24 This book provides an up to date assessment of the main processes and dilemmas of regional development and regional policy in the newer European Union Member States in Central and Eastern Europe and neighbouring countries It highlights the difficulties of balancing the demands within the new Member States for rapid regional growth and development with firstly the demands of the European Union overall that restructuring and development should conform to the aims and principles of EU common policies and secondly with budgetary constraints The book covers a wide range of issues including global and national challenges to regional convergence and cohesion regional dynamics city networks and border issues the effectiveness of policy responses at national and European levels including an assessment of policy experiences from outside the new Member States and likely future developments The Past, Present and Future of International Business and Management Timothy Devinney, Torben Pedersen, Laszlo Tihanyi, 2010-07-27 A volume that concentrates on the substantive gaps in the IB IM field and addresses whether these gaps are resolvable with the theoretical and methodological toolkit *Environmental Management in a Transition to Market Economy* Carlo Carraro, Alain Haurie, Georges Zaccour, Université de Genève, Fondazione Eni Enrico Mattei, Centre d'études en administration internationale (Montréal, Canada), 1994 The proceedings of an International Conference held in Geneva Switzerland January 1993 providing a comprehensive overview of environmental issues in Central European countries and a look at possible problem solving approaches with comparative studies based on some current Western practices The volume is organized in three parts environmental management principles and experiences challenges to Central European countries Poland Czechy and Slovakia Hungary Romania ex USSR ex East Germany and systems analysis and techno economic modeling No index Note the 120 price is estimated the publisher s price is 590 francs Annotation copyright by Book News Inc Portland OR **New Trends in Process Control and Production Management** Lenka Štofová, Petra Szaryszová, 2017-09-27 Dynamic economics technological changes increasing pressure from competition and customers to improve manufacturing and services are some of the major challenges to enterprises these days New ways of improving organizational activities and management processes have to be created in order to allow enterprises to manage the seemingly intensifying competitive markets successfully Enterprises apply business optimizing solutions to meet new challenges and conditions But also ensuring effective development for long term competitiveness in a global environment This is necessary for the application of qualitative changes in the industrial policy New Trends in Process Control and Production Management MTS 2017 is the collection of research papers from authors from seven countries around the world They present case studies and empirical research which illustrates the progressive trends in business process management and the drive to achieve enterprise development and sustainability De Gruyter Handbook of SME Entrepreneurship Marina Dabić, Sascha Kraus, 2023-11-06 A small business is not a little big business Small and medium sized enterprises SMEs are considered the engines of worldwide economies and the main sources of job creation Management in these companies is different from management in

larger older enterprises with their already established concepts and instruments In view of the high importance of SMEs in emerging developing and developed economies worldwide the De Gruyter Handbook of SME Entrepreneurship investigates the underlying mechanisms and practices of management within these companies with a focus on entrepreneurship growth and innovation It argues that it is time for a dedicated theory of SME Entrepreneurship to emerge Entrepreneurial thinking and behavior in SMEs must be differentiated from that of start ups and large companies On the other hand it also explores the different entrepreneurship manifestations that exist within a widely heterogeneous group of SMEs The handbook provides a theoretical framework in which to understand compare and contrast the complexity of SMEs in both domestic and international processes and addresses the strengths achievements and challenges of entrepreneurship in SMEs **ECMLG 2017 13th European Conference on Management, Leadership and Governance** Martin Rich, 2017-12-11

Competitiveness of CEE Economies and Businesses Piotr Trąpczyński,Łukasz Puślecki,Mirosław Jarosiński,2016-07-28 This book presents peer reviewed state of the art conceptual and empirical papers devoted to changes in the international competitive position of the Central and Eastern European CEE region its countries and businesses While the unprecedented scale of transformation in the CEE region has provided a distinct research setting for international business and economics scholars for more than two decades there have also been recent discussions about the extent to which the region continues to have a unique business environment The region s economies have reached different levels of market development and modern business practice adoption with some of them now frequently classified as advanced economies Consequently the same level of heterogeneity among CEE countries can also be observed at the sector and business level The contributions in this book highlight possible sources of competitive advantage for CEE countries and firms in light of recent intensive debates about the danger of the middle income trap and the potential solutions to it The World Economy and Great Post-communist Change Grzegorz W. Kołodko,2006 An answer for the economist is a question for a policy maker Most economists are confronted daily with the practical question of how the world is organised and how the global economy performs When economists conclude they can grasp certain aspects scientifically they offer an answer which becomes in turn a question to the policy makers keen on changing the world for the better The unique approach presented in the book is the combination of the theoretical considerations with the policy viewpoint analysis due to the author s own experience with policy making as deputy premier and finance minister of Poland twice and very successful as an architect of Polish reforms Another important feature is a vast yet comprehensive and deep discussion of the interactions between technology change and society and the economy both in the world economy and in emerging markets especially the post communist ones Of great importance for sustained development are the institutions They are not only created and built but also need to be learnt Not only theoretical arguments but also the practical experience demonstrates that faster economic growth is attained by those countries which take greater care to foster the institutional reinforcement of market economy and civic society Yet progress in market economy institution building is not in itself sufficient to ensure durable and fast growth Another indispensable component is an appropriately designed and implemented economic policy which must not confuse the means with the aims
