Inclusive Leadership Sujana Adapa, Alison Sheridan, 2017-08-04 Examining perceptions of leaders which are dependent on social and cultural contexts this edited collection argues that in order to thrive and to understand the future business landscape leaders must be inclusive and create followership With existing research tending to conflate leadership roles with notions of masculinity and agency this study provides examples of how to alter and challenge prevalent stereotypes and ultimately contribute to greater organisational effectiveness Addressing the under representation of women in leadership roles contributions explore inclusivity and exclusivity in leading organisations the politics of gendered differences and the value of leader follower dynamics Inclusive Leadership will be of great use to business leaders employees policy makers and academics seeking practical implications for formulating effective leader follower strategies in organisations

The New Knowledge Workers Dariusz Jemielniak, 2012-01-01 The knowledge worker is a welcome addition to the ethnographic investigation of high tech work The author's thoughtful comparative approach contrasting the oft studied American knowledge workers with their less familiar Polish counterparts offers a refreshing take on the post industrial workplace and demonstrates once again the profound changes that high tech work has made in the nature of work the worker and the workplace far beyond Silicon Valley Gideon Kunda Tel Aviv University Israel The body of research addressing knowledge intensive and creative work is massive and is quickly growing but Dariusz Jemielniak manages to bring some new issues and perspectives to the table in his carefully designed study of the Polish and American computer programming community making concepts such as time trust and motivation constitutive elements of contemporary knowledge work Being able to bring together ethnographic research and organization theory and social science more broadly The New Knowledge Workers is a significant contribution to the understanding of contemporary working life in the so called knowledge society Alexander Styhre University of Gothenburg Sweden Jemielniak's book combines detailed comparative ethnographic observations with organizational analysis to highlight how little we actually know about the operations of knowledge intensive organizations Arguing that ancient commonplaces about a greener more egalitarian post Taylorist future rely on ignoring real time observations of real people in context Jemielniak's portrait of the knowledge society of the 21st century shows it to be more like the Fordist society of the 20th

century than the utopia so many futurists choose to imagine His book tells us it is time to begin observing again if we wish to know rather than believe what the future holds for us Davydd J Greenwood Cornell University US This critical ethnographic study of knowledge workers and knowledge intensive organization workplaces focuses on the issues of timing and schedules the perception of formality and trust and distrust in software development as well as motivation and occupational identity among software engineers The book is a cross cultural comparative study of American and European high tech workplaces that addresses the issues currently of interest to both Academia and to practice and provides a rare international comparison of organizations from both sides of the Atlantic Its conclusions shed new light on the problems typical for software projects The book specifically focuses on and gives voice to the perspectives of knowledge workers rather than managers and will thus be useful to not only scholars and human resource managers from software companies but also to high tech professionals Scholars and professionals in organization studies management HRM innovation and knowledge management will find this book engaging and enlightening

The Politics and Aesthetics of Entrepreneurship Daniel Hjorth, Chris Steyaert, 2010-01-01 Stylish bold fiery and full of zest this book could well have been called *Embodying Entrepreneurship* for perhaps the first time we have a cultured scholarly in the flesh treatment of entrepreneurial life Ranging from striptease to de Sade the aboriginal to Christo and the grotesque to the sublime *The Politics and Aesthetics of Entrepreneurship* is a tantalizing and critically refreshing work throughout This one could easily become the bad boy book of entrepreneurial studies given how strongly it challenges slaps existing entrepreneurship studies Daved Barry Universidade Nova de Lisboa Portugal Daniel Hjorth and Chris Steyaert make a unique contribution to management education Their ability to illustrate complex ideas through theatre and visual media is outstanding and much appreciated by a wide audience This book is no exception Their insights into the nature of entrepreneurship are fresh and original Their style of presentation is both rich and rewarding This is a book to surprise you and it will Heather H pfl University of Essex UK the four books comprising the series would certainly be a valuable addition to any entrepreneurship library However each book also stands alone as an individual purchase Lorraine Warren International Journal of Entrepreneurial Behaviour and Research This fourth book in the *New Movements in Entrepreneurship* series focuses on the politics and aesthetics of entrepreneurial processes in order to shed light on entrepreneurial creation itself Presenting original empirical material the eminent contributors examine control and entrepreneurship in various organizational contexts They go on to demonstrate how control can be exercised entrepreneurially how art brings an entrepreneurial force into society and how entrepreneurship operates by aesthetic moves The need to move beyond the traditional focus on the economic and business implications of entrepreneurship is also discussed as is the relevance of political and aesthetic theory to our understanding of entrepreneurship as a creative force The book provides entrepreneurship studies with a new language that in itself is an aesthetic effort with political implications resulting in new theoretical empirical and practical possibilities It will prove a fascinating read for students academics and

researchers with an interest in entrepreneurship and management and creativity and aesthetics Entrepreneurship Dafna Kariv, 2011-05-03 Entrepreneurship means different things to different people but the entrepreneurial personality is a critical success factor to any new business These traits are also increasingly in great demand at established multinational corporations This groundbreaking textbook differs from its competitors by placing an emphasis both on the core processes and practices of entrepreneurship as well as demonstrating the impact of complex local environments in shaping the processes of entrepreneurship Topics include Main processes of entrepreneurial venture creation innovation and growth Operational steps characterizing processes of entrepreneurship Establishing and realizing entrepreneurial ventures Core processes and practices of entrepreneurship With case studies and interviews with entrepreneurs from across the globe Entrepreneurship s international approach makes it stand out from other titles providing students and practitioners alike with a unique perspective on this subject A companion website featuring a lecturer s guide with extra assignments and links to videos PowerPoint slides for teaching uses and a questionnaire with detailed feedback for students is available at <http://www.routledge.com/textbooks/9780415561204> Venturing into the Bioeconomy A.
