The Third Edition includes 13 new case studies and new coverage of virtual and flexible work resulting from the COVID-19 pandemic, the long-lasting effects the pandemic has had on women in the workforce, artificial intelligence use within HR and diversity and inclusion. [A Roadmap for the Uptake of Cyber-Physical Systems for Facilities Management](#) Matthew

Ikuabe, Clinton Aigbavboa, Chimay J. Anumba, Ayodeji Oke, 2023-06-22 This is the first book to conceptualise and develop a roadmap for the adoption of cyber-physical systems (CPS) for facilities management (FM) in developing countries. It is argued that effective use of CPS can help to significantly improve issues such as extended processing time, poor data acquisition, ineffective coverage of facility maintenance history and poor quality control within the facilities management sector. Through a theoretical review of relevant technology adoption models and frameworks, A Roadmap for the Uptake of Cyber-Physical Systems for Facilities Management provides a clear insight into the required parameters for integrating CPS into facilities management. The book will be beneficial to relevant stakeholders who face the responsibility of facilities and construction management as it contributes to the growing demand for the adoption of digital technologies in the delivery and management of built infrastructure. Furthermore, it serves as a solid theoretical base for researchers and academics in the quest to expand the existing borderline on construction digitalisation, especially in the post-occupancy stage. **Cyber Risk**

Management Christopher J. Hodson, 2019-06-03 Most organizations are undergoing a digital transformation of some sort and are looking to embrace innovative technology, but new ways of doing business inevitably lead to new threats which can cause irreparable financial, operational and reputational damage. In an increasingly punitive regulatory climate, organizations are also under pressure to be more accountable and compliant. Cyber Risk Management clearly explains the importance of implementing a cyber security strategy and provides practical guidance for those responsible for managing threat events, vulnerabilities and controls, including malware, data leakage, insider threat and Denial of Service. Examples and use cases, including Yahoo, Facebook and TalkTalk, add context throughout and emphasize the importance of communicating security.

and risk effectively while implementation review checklists bring together key points at the end of each chapter Cyber Risk Management analyzes the innate human factors around risk and how they affect cyber awareness and employee training along with the need to assess the risks posed by third parties Including an introduction to threat modelling this book presents a data centric approach to cyber risk management based on business impact assessments data classification data flow modelling and assessing return on investment It covers pressing developments in artificial intelligence machine learning big data and cloud mobility and includes advice on responding to risks which are applicable for the environment and not just based on media sensationalism

Workplace Violence Vaughan Bowie, Bonnie S. Fisher, 2012-12-06 This book examines some of the key issues around violence at work which have emerged in the new millennium including the events of September 11th 2001 and other terrorist related incidents identifying these as an extreme form of workplace violence It builds upon the expanded typology of workplace violence in Violence at Work Willan 2001 and identifies four types of workplace violence intrusive external violence including terrorism consumer client related violence staff related violence organizational violence This book also addresses some key emerging and controversial issues facing those concerned with workplace violence including staff who abuse those in their care domestic violence spilling over into the workplace violence against aid and humanitarian workers and organizations who are themselves abusive to their staff and service users as well as oppressive of their surrounding communities Workplace Violence goes beyond the current emphasis on equipping primary responders e g police fire ambulance etc to react to terrorist related and other workplace violence incidents paying attention to the secondary responders such as human services workers managers human resources staff unions occupational health and safety professionals humanitarian aid workers and median staff and their training and support needs
