Nato Arms Co Operation A Study In Economics And Politics:

NATO Arms Co-operation Keith Hartley, 2021-01-26 This book first published in 1983 examines weapons standardisation as one aspect of NATO's efficiency. It analyses the economic arguments for weapons standardisation, the limitations of the analysis and the available evidence. A political economy or public choice approach is used with its emphasis on policy developments in the political market place of voters, political parties, bureaucracies and interest groups. These agents are central to understanding the function of weapons procurement policy within the Alliance. *NATO's Conventional Defences* Stephen J. Flanagan, 1988-10-07 A review of the full range of recent official and non official schemes for improving NATO's conventional posture from exploitation of emerging technologies to non provocative defences in the light of prevailing military, political, economic and demographic trends. *The Political Economy of the Arms Race* R.T. Maddock, 1990-06-18 Written by the author of *The Political Economy of Soviet Defence Spending* and co author of *The Growth of the British Economy* this book looks at the international dimension, the American and the Soviet defence economy, the NATO alliance, the Warsaw Pact and the international arms trade. *European Armaments Collaboration* Ron Matthews, 2013-10-15 First published in 1992 The changing strategic environment of the 1990s has been characterised by events such as the Middle East conflagration and super power disarmament which represent the two opposing ends of the present security spectrum. The framing of appropriate defence policies now depends on increased NATO industrial defence restructuring and cooperation especially within Europe. This book identifies, explains and analyses the key issues involved in Europe's defence industrial reorganisation progress. It tackles head on controversial issues such as divergences between practice and policy in NATO, US, European positions, the high costs of collaborative ventures, competition vs concentration and the complexities of adopting an European defence consensus within NATO. At a time when the diminution of NATO's defence industrial base goes hand in hand with product reorientation and specialization, this book provides concise critical and contemporary assessment of European and NATO collaborative issues. North Atlantic Treaty Organization Phil Williams, 2024-11-01 This volume consists of major books written in the English language on NATO as well as an extensive listing of journal articles that deal with various aspects of the Alliance. All the major debates that have taken place over the last forty years are discussed. **The European Armaments Market and Procurement Cooperation** Pauline Creasey, Simon May, Pauline Creasey, 1988-06-18 **The Cost of Peace** Stephen Kirby, Nick Hooper, 2025-09-12 *The Cost of Peace* 1991 presents an authoritative analysis of the issues in the development of European security. The study distinguishes between security within Europe, the security of Europe against outside threat and the role of Europe in maintaining world order. Bringing together political scientists and defence economists, the book provides comprehensive coverage of the debate surrounding the creation of the new European security order. Routledge Revivals: Defence Industries (1988) Daniel Todd, 2018-02-01 Originally published in 1989 *Defence Industries* presents a worldwide survey of defence industries. It argues

that modern weapon systems and electronic warfare have led to the transition of the military industrial enterprise into a multifaceted entity where electronics production is the key It analyses the extent of defence industries showing that large portions of the aerospace shipbuilding motor vehicle and electronics industries are devoted to defence and discusses where the defence industries are located It examines the differences in government policies contrasting the superpowers with newly industrialised countries **The Future of the Defence Firm: New Challenges, New Directions** A. Latham,N.

Westland and the British Helicopter Industry, 1945-1960 Matthew R.H. Uttley,2014-05-22 This study explains how Westland dominated British helicopter production and why government funding and support failed to generate competitive all British alternatives In doing so the book evaluates broader historiographic assumptions about the purported failure of British aircraft procurement during the early post war period and considers the scope and limitations of licensed production as a government mandated procurement strategy *The Rise of European Security Cooperation* Seth G. systematic and comprehensive analysis of the significant increase in security cooperation among European states

Transatlantic Defence Procurement Luke R. A. Butler,2017-03-02 This volume constitutes the first ever attempt to establish a basis for comparative research on defence procurement regulation For decades there has been repeated emphasis on the extent to which barriers to trade in Europe and the US prevent a more competitive defence market

Transatlantic Defence Procurement offers the first analysis of the potential impact of defence procurement regulation itself as a barrier to trade between the US and the EU Part I examines the external dimension of a new EU Defence Procurement Directive focusing on its implications for third countries in particular the US Part II examines foreign access and treatment under US law Part III maps a future research agenda that is essential for a more systematic understanding of legal barriers to transatlantic defence trade The book provides context for future initiatives ranging from reformed market access arrangements to a Defence Transatlantic Trade and Investment Partnership and beyond Britain and Defence 1945-2000 Stuart Croft, Peter Dorman, 2014-06-06 This text provides a concise thematic introduction to the evolution of British defence policy since the end of the second world war **Special Bibliography Series** United States Air Force Academy. Library, 1990 **Rethinking National Security** Frances Scott, 1990 Special Bibliography Series, 1957 **The Economics of Offsets** Stephen Martin, 2014-07-16 Despite their growth outlined and analysed in this book the claims and counter claims that surround offsets have not been subjected to critical scrutiny by economists This book fills that gap It brings together a team of internationally renowned specialists to document and evaluate the economic impact of several countries offset policies In addition the papers by industrialists and defence officials yield further insights which help to tease out which of the claims made for offsets do not stand critical scrutiny Disarmament, 1986
