Natural Learning The Life History Of An Environmental Schoolyard Paperback

**Danielle Sinnett, Nick Smith , Sarah
Burgess**

Natural Learning The Life History Of An Environmental Schoolyard Paperback:

Natural Learning Robin C. Moore, Herbert H. Wong, 1997 A guidebook for teachers administrators designers and parents on how to create redevelop and use naturalized schoolyards Emphasizing the value of play and play environments for child development the book describes the evolution of the Environmental Yard at Washington Elementary School in Berkeley California from an expanse of asphalt into an outdoor classroom community space and play area populated with hundreds of species of plants and animals

Natural Environments and Human Health Alan W Ewert, Denise S Mitten, Jillisa R Overholt, 2014-04-25 The role natural environments play in human health and wellbeing is attracting increasing attention There is growing medical evidence that access to the natural environment can prevent disease aid recovery tackle obesity and improve mental health This book examines the history of natural environments being used for stress reduction enjoyment aesthetics and catharsis and traces the development of the connection between humans and the environment and how they impact our personal and collective health

Children and their Urban Environment Claire Freeman, Paul Tranter, 2012-10-02 In our fast changing urban world the impacts of social and environmental change on children are often overlooked Children and their Urban Environment examines these impacts in detail looking at the key activities spaces and experiences children have and how these can be managed to ensure that children benefit from change The authors highlight the importance of planners architects and housing professionals in creating positive environments for children and involving them in the planning process They argue that children s lives are becoming simultaneously both richer and more deprived and that despite apparently increasing wealth disparities between children are increasing further Each chapter includes international examples of good practice and policy innovations for redressing the balance in favour of child supportive environments The book seeks to embrace childhood as a time of freedom social engagement and environmental adventure and to encourage creation of environments that better meet the needs of children The authors argue that in doing so we will build more sustainable neighbourhoods cities and societies for the future

Handbook on Green Infrastructure Danielle Sinnett, Nick Smith, Sarah Burgess, 2015-11-27 Green infrastructure encompasses many features in the built environment It is widely recognised as a valuable resource in our towns and cities and it is therefore crucial to understand create protect and manage this resource This Handbook sets the context for green infrastructure as a means to make urban environments more resilient sustainable liveable and equitable Including state of the art reviews that summarise the existing knowledge as well as research findings this Handbook provides current evidence for the beneficial impact of green infrastructure on health environmental quality and the economy It discusses the planning and design of green infrastructure as a strategic network down to the individual features in a neighbourhood and looks at the process of green infrastructure implementation emphasising the importance of collaboration across multiple professions and sectors This comprehensive volume operates at multiple spatial scales from strategic networks at the regional level to individual features in neighbourhoods with

international case studies used throughout to illustrate key examples of good practice This collection of expert contributions will be invaluable to students and academics in the fields of planning urban studies and geography Practitioners and policy makers will also find the policy discussion and examples enlightening

Nature Education with Young Children Daniel R. Meier, Stephanie Sisk-Hilton, 2013-05-29 Nature Education with Young Children is a thoughtful sophisticated teacher resource that blends theory and practice on nature education children s inquiry based learning and reflective teaching The book s guiding conceptual framework is founded upon the integration of four key ideas for effective and transformative nature education The power and value of equity and access to nature education Effective teaching encompasses child development domains and integrates ECE curriculum Children learn best through inquiry based and child centered teaching Powerful teaching is founded upon teacher inquiry and reflection Implementing nature study is one critical way that educators can integrate more science learning across the ECE curriculum and do so in an active discovery based manner Nature Education with Young Children strives for an American version of what the Reggio Emilia educators do so well creating a seamless integration of science concepts into the daily intellectual investigations that occur in classrooms everywhere

Learning Primary Geography Susan Pike, 2015-12-22 Learning Primary Geography Ideas and inspiration from classrooms celebrates children s learning in primary geography It is a book for all student and practising teachers who would like children to learn about their world in an enjoyable and stimulating way Every page presents inspiring examples of children s learning and explains how and why creative approaches such as enquiry learning learning outside the classroom and using imaginative resources work so well in primary geography Using illustrated case studies from a range of schools and classrooms each chapter showcases the fantastic work all children can do in primary geography The book explores a wide variety of geographical learning with chapters focusing on key aspects of the subject including primary geography through the school grounds topical geography through issues and events learning about places in primary geography children s agency and action through primary geography Throughout the chapters the role of primary geography in helping children develop all types of literacies including spatial critical and digital literacies is explored Written by a highly experienced teacher and lecturer in education Learning Primary Geography is underpinned and illustrated by examples from a wide range of primary classrooms It will be a source of support guidance and inspiration for all those teaching geography in the primary school

Nature Play at Home Nancy Striniste, 2019-04-02 A magnificent resource for transforming backyards into stimulating environments which enhance children s creativity learning and fun Richard Louv author of Last Child in the Woods The Nature Principle and Vitamin N Access to technology has created a generation of children who are more plugged in than ever before often with negative consequences Unrestricted outdoor play reduces stress improves health and enhances creativity learning and attention span In Nature Play at Home Nancy Striniste gives you the tools you need to make outdoor adventures possible in your yard school and neighborhood With hundreds of inspiring ideas and 12

illustrated step by step projects this hardworking book details how to create playspaces that use natural materials like logs boulders sand water and plants of all kinds Projects include hillside slides seating circles sand pits and more **The Science of Play** Susan G. Solomon, 2014-11-04 Poor design and wasted funding characterize today's American playgrounds A range of factors including a litigious culture overzealous safety guidelines and an ethos of risk aversion have created uniform and unimaginative playgrounds These spaces fail to nurture the development of children or promote playgrounds as an active component in enlivening community space Solomon's book demonstrates how to alter the status quo by allying data with design Recent information from the behavioral sciences indicates that kids need to take risks experience failure but also have a chance to succeed and master difficult tasks learn to plan and solve problems exercise self control and develop friendships Solomon illustrates how architects and landscape architects most of whom work in Europe and Japan have already addressed these needs with strong successful playground designs These innovative spaces many of which are more multifunctional and cost effective than traditional playgrounds are both sustainable and welcoming Having become vibrant hubs within their neighborhoods these play sites are models for anyone designing or commissioning an urban area for children and their families *The Science of Play* a clarion call to use playground design to deepen the American commitment to public space will interest architects landscape architects urban policy makers city managers local politicians and parents

Vitamin N Richard Louv, 2016-04-12 From the author of the New York Times bestseller that defined nature deficit disorder and launched the international children and nature movement *Vitamin N* for nature is a complete prescription for connecting with the power and joy of the natural world right now Perfect for fans of *The Anxious Generation* 500 activities for children and adults Dozens of inspiring and thought provoking essays Scores of informational websites Down to earth advice In his landmark work *Last Child in the Woods* Richard Louv was the first to bring widespread attention to the alienation of children from the natural world coining the term nature deficit disorder and outlining the benefits of a strong nature connection from boosting mental acuity and creativity to reducing obesity and depression from promoting health and wellness to simply having fun That book rivaled Rachel Carson's *Silent Spring* the Cincinnati Enquirer was an absolute must read for parents the Boston Globe and an inch thick caution against raising the fully automated child the New York Times His follow up book *The Nature Principle* addressed the needs of adults and outlined a new nature movement and its potential to improve the lives of all people no matter where they live McClatchy Newspapers *Vitamin N* is a one of a kind comprehensive and practical guidebook for the whole family and the wider community including tips not only for parents eager to share nature with their kids but also for those seeking nature smart schools medical professionals and even careers It is a dose of pure inspiration reminding us that looking up at the stars or taking a walk in the woods is as exhilarating as it is essential at any age Richard Louv's new book *Our Wild Calling* is available now **Pathways to Our Sustainable Future** Patricia DeMarco, 2017-10-24 Pittsburgh has a rich history of social consciousness in calls for justice and equity Today the movement

for more sustainable practices is rising in Pittsburgh Against a backdrop of Marcellus shale gas development initiatives emerge for a sustainable and resilient response to the climate change and pollution challenges of the twenty first century People institutions communities and corporations in Pittsburgh are leading the way to a more sustainable future Examining the experience of a single city with vast social and political complexities and a long industrial history allows a deeper understanding of the challenges and opportunities inherent in adapting to change throughout the world The case studies in this book respond to ethical challenges and give specific examples of successful ways forward Choices include transforming the energy system restoring infertile ground and preventing pollution through green chemistry Inspired by the pioneering voice of Rachel Carson this is a book about empowerment and hope Big Science for Growing Minds Jacqueline Brooks,2015-04-25 Strong evidence from recent brain research shows that the intentional teaching of science is crucial in early childhood Big Science for Growing Minds describes a groundbreaking curriculum that invites readers to rethink science education through a set of unifying concepts or big ideas Using an integrated learning approach the author shows teachers how to use readily available low cost items to create a safe classroom setting that fosters hands on learning and exploration of real life problems The text includes classroom activities that connect science learning to mathematics technology art and literacy Book Features Shows teachers how to address fundamental biology chemistry physics and Earth science concepts using easy to find objects Describes constructivist learning environments that are aligned with emerging data on brain development Includes guidance for adopting approaches and instructional strategies consistent with NSTA NSES and NAEYC guidelines We need to celebrate the birth of this book It is a vivid embodiment of how young children learn scientific ideas when their teachers create conditions that match the ways youngsters are able to integrate meaning Constructivist practice comes to life in these pages At a time of narrow high stakes tests here is a model that preserves truly professional practice From the Foreword by Doris Pronin Fromberg Hofstra University Big Science for Growing Minds is a wonderful jam packed storehouse of research based ideas for the effective teaching of science The author is masterful in her ability to clearly explain current brain research and cognitive science studies and to exemplify the research through practical classroom applications Lawrence Lowery Professor emeritus Graduate School of Education and the Lawrence Hall of Science University of California at Berkeley *How to Grow a Playspace* Katherine Masiulonis,Elizabeth Cummins,2017-03-31 How to Grow a Playspace takes you through a global perspective of the different stages of child development and the environments that engage children in play around the world From the urbanity of Mumbai to rainbow nets in Japan nature play in Denmark recycling waste in Peru community building in Uganda play streets in London and gardens of peace in Palestine it proves that no matter where play occurs it is ubiquitous in its resourcefulness imagination and effect Written by international leaders in the field of play including academics designers and playworkers How to Grow A Playspace discusses contemporary issues around children and play such as risk benefit in play creativity and technology insights into children s thinking social

inclusion and what makes a city child friendly With its own Potting Shed this text is also a practical guide to support playspace projects with advice on teams budgets community engagement maintenance and standards How to Grow a Playspace is a comprehensive go to guide for anyone interested or involved in children s play and playspaces *How to Keep Good Teachers and Principals* Lonnie Melvin,2011-01-16 Between the current Me generation the over abundance of discipline problems and violence the stress of the accountability measures of NCLB and the current state of the economy many of education professionals are retiring changing jobs or leaving the profession This book serves as a helpful hands on toolbox to give educators more tools and strategies including a new behavior modification model called Self Correcting Behavior Modification Educators will find this book will help them to get much needed answers and relief to their continued attempts to serve as effectively and efficiently as possible **Children, Place and Sustainability** Margaret

Somerville,Monica Green,2016-04-29 Through focusing on children s sustainability learning this book examines how school education can address the current environmental problems It explores children s responses in literacy and language arts based approaches and indigenous studies as well as scientific pedagogies to provide a unique insight into how children learn

Healing Gardens Clare Cooper Marcus,Marni Barnes,1999-06-15 Although the healing qualities of nature have been recognized and relied on for centuries as a valuable part of convalescence recent history has seen nature s therapeutic role virtually eclipsed by the technological dominance of modern medicine As the twentieth century comes to a close and the medical community reacknowledges the importance of the environment to recovery the healing garden is emerging as a supplement to drug or technology based treatments Healing Gardens celebrates this renewed interest in nature as a catalyst for healing and renewal by examining the different therapeutic benefits of healing gardens and offering essential design guidance from experts in the field Unique and comprehensive Healing Gardens provides up to date coverage of research findings relevant design principles and approaches and best practice examples of different types of healing gardens It begins by exploring what current research reveals about the connection between nature human stress reduction and medical outcomes It then presents case studies and design guidelines for outdoor spaces in medical settings that include general psychiatric and children s hospitals as well as hospices nursing homes and Alzheimer s facilities Historical information literature reviews and studies on use are included for each type of outdoor space covered offering important insights into what works in healing gardens and what doesn t Generously supplemented with photographs site plans anecdotes and more Healing Gardens is an invaluable practical guide for landscape architects and others involved in creating and maintaining medical facilities and an extremely useful reference for those responsible for patient care A unique and comprehensive look at the therapeutic effects and design of healing gardens For more and more people the shortest road to recovery is the one that leads through a healing garden Combining up to date information on the therapeutic benefits of healing gardens with practical design guidance from leading experts in the field Healing Gardens is an important resource for landscape architects

and others working in this emerging area With the help of site plans photographs and more it presents design guidelines and case studies for outdoor spaces in a range of medical settings including Acute care general hospitals Psychiatric hospitals Children s hospitals Nursing homes Alzheimer s facilities Hospices **Risk, Challenge and Adventure in the Early Years** Kathryn Solly,2014-12-05 What is the difference between risk and danger What can children learn from taking risks How can you provide key experiences for children and ensure their safety outdoors Young children will naturally seek out challenges and take risks and this is crucial to their overall development This book clearly explains why children should be given the freedom to take risks and provides practical guidance on how to offer stimulating and challenging outdoor experiences that will extend all areas of children s learning Including examples of activities for all weather conditions across all areas of learning the book covers The pedagogical history of adventure risk and challenge Health wellbeing and keeping safe The adult role Risk assessment Supporting individual children with different needs Environments that enable challenging and adventurous play Working with parents and addressing concerns Observation planning and assessment This book is essential reading for practitioners and students that wish to provide rich experiences for children that will enable them to become confident and adventurous learners **Green Teacher** ,2003 **Canadian Journal of Environmental Education** ,2001

Science Experiences for the Early Childhood Years Jean Durgin Harlan,Mary S. Rivkin,2008 Core text for Science in Early Childhood and Science in the Elementary School courses The ninth edition of Science Experiences for the Early Childhood Years is written during recurrent national anxiety about science education Since the 1957 launch of Sputnik concern has pervaded the overlapping circles of education business labor and government The United States is afraid of losing its high standard of living to countries that have more citizens or are more desperately hard working or whose children both score higher on international math and science tests and pursue science technology engineering and mathematics careers with more frequency The aim of this book is to help new teachers be both informed in science and strong in their belief that science is great for children a master discipline that naturally facilitates attention to math and reading Designing Outdoor Environments for Children Lolly Tai,2006-06-08 Publisher Description
