Natural Right To Die Twenty Three Centuries Of Debate:

A Natural Right to Die Raymond A. Whiting, 2001-11-30 While other books deal with the contemporary issue of the right to die no attempt has been made to demonstrate substantially the historic nature of this question beyond the borders of the United States Whiting demonstrates that the right to die controversy stretches back more than two thousand years and he explains how current attitudes and practices in the U S have been influenced by the legal and cultural development of the ancient western world This perspective allows the reader to understand not only the origins of the controversy but also the different perspectives that each age has contributed to the ongoing debate Whiting discusses the development of legal rights within both western culture and the United States then applies these developments to the question of the right to die In an environment of public debate that features such emotional events as the exploits of Jack Kevorkian the publication of how to suicide manuals and the counterattacks of Right to Life groups the United States is left with very few options

Constitutional Law for a Changing America Lee Epstein, Kevin T. McGuire, Thomas G. Walker, 2023-10-10 Excellent balance of case excerpts and author explanation highly appropriate for undergraduate students Dr Wendy Brame Briar Cliff University Political factors influence judicial decisions Arguments and input from lawyers and interest groups the ebb and flow of public opinion and especially the ideological and behavioral inclinations of the justices all combine to shape the development of constitutional doctrine Drawing from political science as much as from legal studies Constitutional Law for a Changing America A Short Course helps students realize that Supreme Court cases are more than just legal names and citations With meticulous revising the authors streamline material while accounting for recent landmark cases and new scholarship Ideal for a one semester course the Ninth Edition of A Short Course offers all the hallmarks of the Rights and Powers volumes also included in the Constitutional Law for a Changing America series in a more condensed format Included with this title LMS Cartridge Import this title s instructor resources into your school s learning management system LMS and save time Don t use an LMS You can still access all of the same online resources for this title via the password protected Instructor Resource Site

Law, Immunization and the Right to Die Jennifer Hardes, 2016-03-10 Law Immunization and the Right to Die focuses on the urgent matter of legal appeals and judicial decisions on assisted death Drawing on key cases from the United Kingdom and Canada the book focuses on the problematic paternalism of legal decisions that currently deny assisted dying and questions why the law fails to recognize what many describe as compassionate motives for assisted death When cases are analyzed as discourses that are part of a larger socio political logic of governance judicial decisions it is argued here reveal themselves as relying on the construction of neoliberal fictions fictions that are here elucidated with reference to Michel Foucault s theoretical insights on pastoral power and Roberto Esposito s philosophical thesis on immunization Challenging the socio political logic of neoliberalism the issue of assisted dying goes beyond the predominant legal concern with protecting or immunizing individuals from one another in favor of minimal interference This book calls for

a new kind of politics one that might affirm people and their finitude both more collectively and more compassionately

The Right to Die with Dignity Derya Nur Kayacan, 2022-06-20 Can I choose to die As the number of requests for euthanasia and physician assisted suicide continues to rise human rights law faces a new conflict the right to die vs the right to life The right to die or in other words the right to choose the time and manner of one's own death is a question of personal autonomy and its limits This book provides a comprehensive understanding of the right to die and sheds light on its possible future under the European Convention on Human Rights After setting a clear framework by defining the key terminology the book takes a two part approach to achieving its aim The first part focuses on the right to die in practice by examining selected jurisdictions Switzerland which is famous for its assisted suicide organizations and the Netherlands which was the first country to legalize euthanasia are examined in detail Belgium Germany the United Kingdom and as an exception to the Convention perspective Canada are also included While this examination offers a better understanding of what the right to die looks like in practice it also provides insights on the slippery slope argument which serves as a counterweight to personal autonomy without making a definitive statement on its validity This part also illustrates the different paths that led or did not lead to the right to die in practice The second part is an analysis of the European Court of Human Rights case law on the right to die The Court has made important statements in only very few cases while its caution when approaching such a delicate and controversial topic among its 47 members is understandably emphasized This analysis of the Court's approach to the balancing of personal autonomy against other interests allows us to take a look back at the practice in more permissive jurisdictions through the lens of the Convention Taken together the book's two parts provide valuable lessons for countries that decide to practice assisted dying which are outlined in the conclusion In addition given that a purely legal approach can only offer a partial picture the book argues that an interdisciplinary approach would be much more favorable in terms of providing the necessary basis for the right to die debate

Troubling Topics, Sacred Texts Roberta Sterman Sabbath, 2021-10-04 Abrahamic scriptures serve as cultural pharmakon prescribing what can act as both poison and remedy This collection shows that their sometimes veiled but eternally powerful polemics can both destroy and build exclude and include and serve as the ultimate justification for cruelty or compassion Here scholars not only excavate these works for their formative and continuing cultural impact on communities identities and belief systems they select some of the most troubling topics that global communities continue to navigate Their analysis of both texts and their reception help explain how these texts promote norms and build collective identities Rejecting the notion of the sacred realm as separate from the mundane realm and beyond critical challenge this collection argues both implicitly and sometimes transparently for the presence of the sacred within everyday life and open to challenge The very rituals prayers and traditions that are deemed sacred interweave into our cultural systems in infinite ways Together these authors explore the dynamic nature of everyday life and the often brutal power of these texts over everyday meaning

A Death of One's Own Jared Stark,2018-03-15 To be or not to be who asks this question today and how What does it mean to issue or respond to an appeal for the right to die In A Death

of One's Own the first sustained literary study of the right to die Jared Stark takes up these timely questions by testing predominant legal understandings of assisted suicide and euthanasia against literary reflections on modern death from the nineteenth and twentieth centuries Rigorously interdisciplinary and lucidly argued Stark's wide ranging discussion sheds critical light on the disquieting bioethical and biopolitical dilemmas raised by contemporary forms of medical technology and legal agency More than a survey or work of advocacy A Death of One's Own examines the consequences and limits of the three reasons most often cited for supporting a person's right to die that it is justified as an expression of personal autonomy or self ownership that it constitutes an act of self authorship of choosing a final chapter in one's life and that it enables what has come to be called death with dignity Probing the intersections of law and literature Stark interweaves close discussion of major legal political and philosophical arguments with revealing readings of literary and testimonial texts by writers including Balzac Melville Benjamin and Amory A thought provoking work that will be of interest to those concerned with law and humanities biomedical ethics cultural history and human rights A Death of One's Own opens new and suggestive paths for thinking about the history of modern death as well as the unsettled future of the right to die
