Darwin and After Darwin: Post-Darwinian questions: Isolation and physiological selection George John Romanes, 1897

Québec Studies in the Philosophy of Science Mathieu Marion, Robert S. Cohen, 2012-12-06 By North American standards philosophy is not new in Quebec the first men tion of philosophy lectures given by a Jesuit in the College de Quebec founded 1635 dates from 1665 and the oldest logic manuscript dates from 1679 In English speaking universities such as McGill founded 1829 philosophy began to be taught later during the second half of the 19th century The major influence on English speaking philosophers was at least initially that of Scottish Empiricism On the other hand the strong influence of the Catholic Church on French Canadian society meant that the staff of the facultes of the French speaking universities consisted until recently almost entirely of Thomist philosophers There was accordingly little or no work in

modern Formal Logic and Philosophy of Science and precious few contacts between the philosophical communities In the late forties Hugues Leblanc was a young student wanting to learn Formal Logic He could not find anyone in Quebec to teach him and he went to study at Harvard University under the supervision of W V Quine His best friend Maurice L Abbe had left a year earlier for Princeton to study with Alonzo Church After receiving his Ph D from Harvard in 1948 Leblanc started his professional career at Bryn Mawr College where he stayed until 1967 He then went to Temple University where he taught until his retirement in 1992 serving as Chair of the Department of Philosophy from 1973 until 1979

The Progress of Eugenics James Alfred Field,1911 The Quarterly Journal of Economics Charles Franklin Dunbar, Frank William Taussig, Abbott Payson Usher, Alvin Harvey Hansen, William Leonard Crum, Edward Chamberlin, Arthur Eli Monroe, 1912 Vols 1 22 include the section Recent publications upon economics Human Resources and Their Development - Volume II Michael J. A Textbook of Biotechnology Vol-II Rehana Khan, 2007 Looking for a Few Good Males Erika L. Milam, 2010-03-15 2010 Outstanding Academic Title Choice Magazine Why do female animals select certain mates and how do scientists determine the answer In considering these questions Erika Lorraine Milam explores the fascinating patterns of

experiment and interpretation that emerged as twentieth century researchers studied sexual selection and female choice Approaching the topic from both biological and animal studies perspectives Milam not only presents a broad history of sexual selection from Darwin to sociobiology but also analyzes the animal human continuum from the perspectives of sex evolution and behavior She asks how social and cultural assumptions influence human animal research and wonders about the implications of gender on scientific outcomes Although female choice appears to be a straightforward theoretical concept the study of sexual selection has been anything but simple Scientists in the early twentieth century investigated female choice in animals but did so with human social and sexual behavior as their ultimate objective By the 1940s evolutionary biologists and population geneticists shifted their focus studying instead how evolution affected natural animal populations Two decades later organismal biologists once again redefined the investigation of sexual selection as sociobiology came to dominate the discipline Outlining the ever changing history of this field of study Milam uncovers lost mid century research programs and finds that the discipline did not languish in the decades between Darwin s theory of sexual selection and sociobiology as observers commonly believed Rather population geneticists ethologists and organismal biologists alike continued to investigate this important theory throughout the twentieth century

The Works of Charles Darwin: v. 21: Descent of Man, and Selection in Relation to Sex (, with an Essay by T.H. Huxley) Paul H Barrett,2016-05-23 The 21st volume in a 29 volume set which contain all Charles Darwin s published works Darwin was one of the most influential figures of the 19th century His work remains a central subject of study in the history of ideas the history of science zoology botany geology and evolution

Swarm, Evolutionary, and Memetic Computing, Part II Bijata Ketan Panigrahi,Ponnuthurai Nagarathnam Suganthan,Swagatam Das,Suresh Chandra Satapathy,2011-12-14 These two volumes LNCS 7076 and LNCS 7077 constitute the refereed proceedings of the Second International Conference on Swarm Evolutionary and Memetic Computing SEMCCO 2011 held in Visakhapatnam India in December 2011 The 124 revised full papers presented in both volumes were carefully reviewed and selected from 422 submissions The papers explore new application areas feature new bio inspired algorithms for solving specific hard optimization problems and review the latest progresses in the cutting edge research with swarm evolutionary and memetic computing in both theoretical and practical aspects
