Chile Ricardo Israel Zipper, 1989 **"Uncool and Incorrect" in Chile** Stephen M. Streeter, 2023-02-24 The military coup that toppled Chilean President Salvador Allende in 1973 led to one of the most repressive military dictatorships in Latin American history Although the coup's full origin remains one of the great mysteries of the Cold War most assume that powers in Washington were largely to blame given the long history of U S interventionism in Latin America These assumptions were only strengthened by ongoing suspicions about the Nixon administration's role in a failed campaign to prevent Allende's inauguration in 1970 Providing a comprehensive account of the Nixon administration's efforts to undermine and unseat Allende the book relies heavily on newly declassified records addressing several crucial questions regarding U S involvement The author explores several counterfactual scenarios to highlight important turning points and crucial decisions which contributed to the failure of Chilean democracy *Children on the Threshold in Contemporary Latin American Cinema*

Rachel Randall, 2017-10-10 *Children on the Threshold in Contemporary Latin American Cinema* Nature Gender and Agency analyzes child and adolescent protagonists in Latin American cinema This book contends that child characters have taken on a critical representational role within Latin American cinema because of their position on the threshold between nature and culture which converts them into a focus of and a limit to state or colonial biopower Rachel Randall provides a comprehensive examination of the key themes and developments in boys and girls cinematic representations since the adoption of children's rights discourses in the region Recommended for scholars interested in Latin American studies film studies and cultural studies *The State, Literacy, and Popular Education in Chile, 1964-1990* Robert Austin, 2003-01-01 The popular education and adult literacy movements in Chile have historically represented competing paths toward a literate society one born and nurtured through bitter nineteenth century labor struggles the other a compensatory effort by the modern state to limit the political potential of literacy Robert Austin's book explores the contest between the state and

popular education in three paradigmatic Latin American regimes that of Eduardo Frei Montalva Christian Democrat 1964 70 Salvador Allende Socialist 1970 73 and Augusto Pinochet Dictator 1973 90 Robert Austin's engaging narrative captures the relationship between the Chilean state formal and non formal literacy and popular education from the demise of liberal capitalism to the consolidation of neoliberalism This remarkable investigation of the dynamic link between the historical process literacy and pedagogy celebrates popular education's victory in securing the inclusion and subsequent empowerment of women and ethnic minorities The State Literacy and Popular Education in Chile 1964 1990 will be of great interest to political scientists cultural historians and scholars of education *Canadian Book Review Annual* ,1986 Canadian Periodical Index ,1965 *Historical Development of Teacher Education in Chile* Beatrice Ávalos, Leonora Reyes, 2020-10-23 From secondary level origins to its current university based status this book highlights the intermingling of policy with structural and process definitions of teacher education throughout Chilean history up until recent market policies to offer a comprehensive account of educational development in Chile Chile D. Hojman, 1993-01-15 In 1990 after almost 17 years of military rule Chile became the only Latin American country where a democratic regime coexists with free market policies which actually work The book explores this paradox and it examines the prospects for future economic growth with income redistribution under free market rules and democratic politics The author examines amongst other things short term policymaking education health the labour market women the middle sectors privatisation market imperfections the state non government organisations external trade the financial sector and the external debt Partners in Conflict Heidi Tinsman, 2002-06-13 Analyzes differences between men's and women's participation in Chile's Agrarian Reform movement examining how conflicts over gender shape the contours of working class struggles and national politics
