Sumter in 1861 as one of the South's most aggressive fire eaters. This volume of Ruffin's work offers us his less known but equally intense passion for agricultural study. In carefully edited selections from Ruffin's writings Jack Temple Kirby presents an innovative progressive agronomist and pioneering conservationist. Arranged in sections discussing southern agricultural history, Ruffin's observations of nature, his ideas about land reform and his plans for soil rejuvenation, *Nature's Management* shows that Ruffin was a thinker far ahead of his time, recognizing our need to improve agriculture and to protect nature. Known as the father of soil science in the United States, Edmund Ruffin discovered and solved the problem of soil acidity while still in his twenties and published several papers on the subject. As the publication of his writing increased, Ruffin left his own farming business to pursue his studies. This volume contains a collection of Ruffin's essays on a variety of interrelated subjects. From the promotion of fencing and methods of malaria prevention to advocacy of a public works program and the recycling of waste, Ruffin's ideas paved the way for the early conservation movement associated with Theodore Roosevelt, Gifford Pinchot and others. *Nature's Management* presents Ruffin's activism and innovative genius at its best, replacing the image of a southern firebrand with that of an outspoken reformer deserving of recognition. **A compleat body of husbandry. Containing, rules for performing ... the whole business of the farmer and country gentleman ...**

**Compiled [by John Hill] from the original papers of the late Thomas Hale, etc** Thomas HALE (Writer on Gardening.), 1757 **Eastern Belief Systems and Classical Homeopathy** Jeaneane Fowler, 2023-04-01 The many correlations between philosophical concepts in Eastern belief systems and the thought and practice of classical homeopathy have never been thoroughly explored. The homeopathy content of the arguments presented is mainly though not exclusively classical homeopathy that is to say the method that emerges from the original founder Samuel Hahnemann and proceeds to the present day with a belief where possible in one single similimum remedy for the treatment of disease. The Eastern belief systems addressed are Hinduism, Buddhism, Taoism and Jainism. Relevant detours include the mystical aspects of Islam as expressed in Sufism and points of contact with Christian faith. Chapters include: Fundamental concepts, The vital force, The interrelated Universe, Holism, The pathological self, Imbalance, disease and its symptoms, Miasmatic pathology, Remedies, Potentization, Cure, The purification of consciousness, Homeopathy and the Coronavirus. *Practical reflections on the nature & treatment of disease ...
