Scott,2006 Bringing together critical assessments of the broad range of Rousseau's thought with a particular emphasis on his political theory this systematic collection is an essential resource for both student and scholar

Ethics, Morality, and Human Nature Hector Davidson, This is a bundle of the following books Aesthetics Analytic Philosophy Critical Theory Cynicism Determinism Humanism Idealism Liberalism Moral Philosophy Naturalism Nihilism Parmenides Phenomenology Structuralism Utilitarianism **On Human Nature** Roger Scruton,2018-10-16 A brief radical defense of human uniqueness from acclaimed philosopher Roger Scruton In this short book acclaimed writer and philosopher Roger Scruton presents an original and radical defense of human uniqueness Confronting the views of evolutionary psychologists utilitarian moralists and philosophical materialists such as Richard Dawkins and Daniel Dennett Scruton argues that human beings cannot be understood simply as biological objects We are not only human animals we are also persons in essential relation with other persons and bound to them by obligations and rights Scruton develops and defends his account of human nature by ranging widely across intellectual history from Plato and Averroes to Darwin and Wittgenstein The book begins with Kant's suggestion that we are distinguished by our ability to say I by our sense of ourselves as the centers of self-conscious reflection This fact is manifested in our emotions interests and relations It is the foundation of the moral sense as well as of the aesthetic and religious conceptions through which we shape the human world and endow it with meaning And it lies outside the scope of modern materialist philosophy even though it is a natural and not a supernatural fact Ultimately Scruton offers a new way of understanding how self-consciousness affects the question of how we should live The result is a rich view of human nature that challenges some of today's most fashionable ideas about our species **A Treatise on Human Nature** David Hume,1878 **The Perfectibility of Human Nature in Eastern and Western Thought** Harold Coward,2012-02-01 How perfectible is human nature as understood in Eastern and Western philosophy psychology and religion Harold Coward examines some of the very different answers to this question He poses that in Western thought including philosophy psychology Judaism Christianity and Islam human nature is often understood as finite flawed and not perfectible in religion requiring God's grace and the afterlife to reach the goal By contrast Eastern thought arising in India frequently sees human nature to be perfectible and presumes that we will be reborn until we realize the goal the various yoga psychologies philosophies and religions of Hinduism and Buddhism being the paths by which one may perfect oneself and realize release from rebirth Coward uses the striking differences in the assessment of how perfectible human nature is as the comparative focus for this book An Enquiry Into Human Nature John Gibson Macvicar,1853 **Chemistry of Human Nature** Tom Husband,2020-08-28 Why does chocolate taste so good Why do we seek the one How do traits such as intelligence creativity and violence arise and what purpose do they serve This book links these characteristics to the origins

of life showing that the conditions necessary to bring life into existence echo through our modern day behaviour The chemistry of the body is not only fascinating but also highly relevant to everyone since we are all concerned with maximising our health and enjoyment of life Currently there are not many popular science books concerned with biochemistry One reason for this might be the particularly complex nature of the science involved This book starts with the fundamentals and then works towards a deeper understanding of the chemistry of human nature Essential reading for anyone with an interest in this science and written at a level accessible to experts and non experts alike **Self-Realization through Confucian Learning**

Siufu Tang,2016-07-29 Confucian philosopher Xunzi s moral thought is considered in light of the modern focus on self realization Self Realization through Confucian Learning reconstructs Confucian thinker Xunzi s moral philosophy in response to the modern focus on self realization Xunzi born around 310 BCE claims that human xing nature or native conditions is without an ethical framework and has a tendency to dominate leading to bad judgments and bad behavior Confucian ritual propriety li is needed to transform these human native conditions Through li people become self directing in control of feelings and desires and in command of their own lives Siufu Tang explicates Xunzi s understanding of the hierarchical structure of human agency to articulate why and how li is essential to self realization Ritual propriety also structures relationships to make a harmonious communal life possible Tang s focus on self realization highlights how Confucianism can address the individual as well as the communal and serve as a philosophy for contemporary times

Hume, Hegel and Human Nature C.J. Berry,2012-12-06 This is both a modest and a presumptuous work It is presumptuous because given the vast literature on just one of its themes it attempts to discuss not only the philosophies of both Hume and Hegel but also something of their intellectual milieu Moreover though the study has a delimiting perspective in the relation ship between a theory of human nature and an account of the various aspects that make up social experience this itself is so central and protean that it has necessitated a discussion of amongst others theories of history language aesthetics law and politics Yet it is a modest work in that although I do think I have some fresh things to say the study does not propose any revolutionary new reading of the material I am not here interested in the relative validity of the theories put forward I do not take sides Nevertheless it is part of the modest intent that recourse to Hume and Hegel in arguments pertaining to human nature will be better inform ed and more discriminating as a consequence of this study Additionally some distinctions herein made also shed light on some assumptions made in contem porary debates in the philosophy of social science especially those concerning the understanding of alien belief systems
