After describing the meaning of intention, explaining how the connection to intention can become corroded, and then detailing how we can reconnect with intention to create an ideal life, Karen reveals why taking concrete action steps is so important to success and provides a formula to manifest dreams and fulfill wishes through the spiritual concept, the Power of I Am. She relies on her diverse experience with meditation to offer additional insight into how others can overcome ordinary consciousness and realize miracles. The Power of I Am blends personal stories with the teachings of Dr. Wayne Dyer to help anyone tap into the amazing power of manifestation to create a dream life. Congress. House. Committee on Ways and Means. Subcommittee on Human Resources, 2000. [The Prenatal Shadow](#) Cherionna Menzam-Sills, 2025-03-04. Explains how babies remember their experiences from the womb and birth as implicit memory impressions that are held in emotions, images, and the body. Examines scientific evidence of how preverbal memory works and how prenatals are highly responsive to their mother's perceptions. Looks at how to become aware of and acknowledge implicit memory from the womb as well as how to heal and prevent birth trauma. In a world where it is believed that babies lack awareness, somatic pre and perinatal therapist Cherionna Menzam Sills, Ph.D., reveals that babies do perceive negative prenatal and birth experiences which can easily become unconscious shadow infiltrating the psyche and affecting personality, relationships, behavior, and perceptions throughout life. Drawing on scientific evidence of how preverbal memory works, the author shows how babies, even before birth, are exquisitely sensitive with remarkable potential. She explains how babies remember the intensely formative experiences from this primal period as implicit memory and she looks at how prenatals are deeply influenced by their mother's perception of safety or threat, including during labor and birth, which affects their developing nervous systems. Examining the healing and integration of the prenatal shadow, the author presents body awareness exercises, reflection questions, and meditative practices for sensing the little one within and offering them what they need. She also shares stories about how clients were able to express their prenatal emotions, changing their lives with these techniques. By integrating the prenatal and perinatal shadow, hidden just beyond conscious awareness, we can heal our relationships with ourselves and our loved ones as well as reconnect with our original potential.
